YANGZHOU · CHINA

# Company Profile

Yangzhou Chenhua New Material Co., Ltd was established in 1995, located in the industrial park of Caodian Town, Baoying County, Yangzhou City. In November 2014, the Company set up a wholly owned subsidiary of Huai'an Chenhua New Material Co., Ltd. in Huai'an Shahu New Material Industrial Park.

In Feb.13,2017,it was successfully listed in Shenzhen Stock Exchange' s gem (stock code: 300610). We vigorously implement the strategy of "technology prospers", focus on combining with production, learning and research. Stick long-term cooperation with former chemical Ministry Sichuan Chenguang Chemical Industry Research Institute, Dalian University of Technology and so on.

About 10 products were recognized as national key new products and high-tech products in Jiangsu Province. Many projects are included in the national Torch Program and scientific research plans. Alkyl Polyglucoside (APG), a national-level new product with an annual capacity of over 70,000 tons, ranks among the leading production capacities in China. The developed project "corn starch one-step synthesis of glycoside-series biomass surfactants" has obtained special funds for Jiangsu Provincial scientific and technological achievement transformation projects. It has successfully passed the appraisal for new-product launch in Jiangsu Province, and won the "Outstanding New Product Award of Jiangsu Province" and "Famous-brand Product Award of Jiangsu Province" in the same year.

Our company boasts strong financial strength. Its factory covers an area of over 100,000 square meters and houses the Jiangsu Provincial Engineering Research Center.

There are about 18 professional technicians and 60 R&D staffs, we always adhere to enterprise spirit: solidarity, realistic and innovative, develop the high-tech products to meet the market required, continuously enhance the capacity for independent research and development by talent introduction and training to build the core competitiveness of enterprises.
