Inteligent copper conductor storage center

Copper strip processing machine

Aluminum processing machine tool

Intelligent self-moving drawer production line

Automated welding arm

Laser cutting machine

Automated bending machine

Numerical control press

> > > DIGITAL MANAGEMENT SYSTEM < < <

We have the advanced IN3 electrical digitalization system in China.It enables more precise and efficient full-process management of the production process.

Perfect quality management system and excellent product quality

Real-time data analysis
Enhance equipment operation efficiency

Early warning system
Monitor the safety status in real time

Resource management and scheduling
Improve resource utilization

End-to-End Process Visibility：Real-time data collection and visual dashe-boards provid transparent monitoring from order to delivery, significantly improving coordination and issue response efficiency.

Flexible Production Scheduling：The system enables agile sched-uling for diverse, small-batch orders, optimizing resource allocation to quickly accommodate urgent or inserted orders, reducing equipment downtime and boosting productivity.

Quality Traceability & Compliance Control：A full lifecycle quality record is established with automatic linkage of key process data, supporting bidirectional traceability from raw materials to finished products and from customer feedback back to the source.

Precision Cost Management：Real-time tracking of material consumption, labor hours, and energy usage enables accurate per-process cost calculation, identifies waste, and provides data-driven support for cost optimization.

Set a high goal,
even if it is like a dream,
I will not say NO

Foshan TE Electric Co.,Ltd.

TE ELECTRIC

Promoting the development of electrical intelligence and improving the comfortable life for human beings

Main Businesses

- Full set of medium and low voltage distribution system
- Busway
- Intelligent fire protection and electricity
- New energy efficiency management
- Power system installation and maintenance

Foshan TE Electric Co.,Ltd

>>> COMPANY PROFILE <<<

Foshan TE Electric Co., Ltd. was founded in 2006, located in Foshan City Gaoming District Fuwanhu Electrical Equipment Industrial Park, covers an area of about 20,000 square meters. Our company is an advocate for the safe transmission, distribution and use of electricity , primarily serving utility infrastructure , data centers, real estate and industrial users. The company focuses on the research, development , manufacturing and sales of medium and low voltage complete distribution cabinets , distribution boxes , bus ducts , transformers , European-style box-type substations , American-style box-type substations, new energy prefabricated cabins, new energy grid-connected cabinets , etc. , and also provides power engineering general contracting services.

Foshan TE Electric Co., Ltd. has been adhering to the corporate mission of "promoting the development of electrical intelligence and improving the comfortable life of human beings". The company pays attention to team building and continuously improves the skills and quality of employees; In terms of market expansion, the company has reached cooperation with large enterprises such as State Grid, China Southern Power Grid, CNPC and Country Garden based on the principle of strategic collection of key customers and supporting key projects. In terms of product development and operation, through technical exchanges and cooperative research and development with well-known scientific research institutions and enterprises at home and abroad, many achievements have been achieved; In terms of enterprise achievements, the company has obtained the honorary titles of "high-tech enterprise","Credit AAA Enterprise of China", "Guangdong Province Contract And Credit Enterprise","Foshan National High-tech Zone Gazelle Enterprise", "Guangdong Province Specialized And Special New Enterprise", and participated in the compilation of a number of national standards.

"People-oriented, efficient innovation, good faith cooperation, common growth, create customer value, achieve self-dream" is our concept, but also our tireless pursuit.

>>> PRODUCTS <<<

INTELLIGENT MEDIUM-VOLTAGE SERIES

YB-12 口 prefabricated substation

New energy prefabricated module

ZGS combined substation

DFW-12 cable distribution box

SF6 gas insulated looped network switchgear

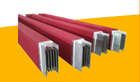
KYN28-12 metal-clad AC metal-enclose switchgear

BUSWAY

Densely insulated busway

Poured busway

Mineral refractory busway



>>> PRODUCTS <<<

INTELLIGENT LOW-VOLTAGE SERIES

GCK(L) LV extraction switchgear

New energy grid connection cabinet

MNS LV extraction switchgear

GGD LV fixed switchgear

INTELLIGENT DISTRIBUTION BOX

JP box

Control box

TRANSFORMER SERIS

Oil-immersed transformer

Dry-type transformer
