A fusion of steel and elegance

BRILLIANCE MAHK

Trusted Global Steel Supplier

- ✓ CRC & HRC Coils & Sheets
- ✓ Premium Quality Steel Products
- ✓ Reliable Worldwide Delivery
- ✓ Serving Construction, Infrastructure, Manufacturing

PRECISION PERFORMANCE • GLOBAL SOLUTIONS • INDUSTRIAL APPLICATIONS

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

About Us

Since 2004, Brilliance Mahk has established itself as a global leader in the steel industry, headquartered in Shanghai's Pudong district. We are committed to delivering high-quality products and tailored solutions that meet the precise specifications of international projects.

Independent

Not tied to any single steel producer, ensuring objective sourcing and the best solutions for every client

Comprehensive Services

End-to-end expertise in trading, logistics, financial services, and global market intelligence

Broad Scope

Importing raw materials and exporting steel for construction, heavy machinery, energy, and more

Our Mission: Connecting steel, people, and processes with excellence and social responsibility.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Brilliance MAHK: At a Glance

At Brilliance MAHK, we are committed to delivering high-quality products and services with responsibility, credibility, and integrity. Our passion for excellence drives us to continuously optimize our solutions, ensuring sustainable growth and success for our customers, partners, and company.

Our slogan, "A Fusion of Steel and Elegance," reflects our goal of transforming the steel industry with sophistication. We aim to lead not just in trading, but in business culture, customer value, and innovation within the global market.

We specialize in product knowledge, market insight, and maintaining a strong global network. Our client-focused approach and solid financial foundation allow us to offer valuable credit support, ensuring growth and responsiveness to international client needs. With two decades of experience, we understand the nuances of cross-border trade and deliver solutions that bridge markets and create lasting partnerships.

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Mission & Vision

Our Mission

Deliver sustainable, high-quality steel solutions that create lasting value for our partners and customers worldwide. We are committed to supporting project success through reliable supply, technical expertise, and responsive service at every stage of the supply chain.

Our Vision

To be recognized as an admired industry leader through our organizational culture, the value we deliver, and our ability to adapt to evolving market needs and technological advances across global construction and manufacturing sectors.

We believe that long-term success is built on trust, transparency, and consistent performance. Our approach combines traditional values of integrity and reliability with modern capabilities in project management, quality assurance, and global logistics.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Core Values

Our values guide every decision we make and every relationship we build. They define who we are as a company and how we serve our customers around the world.

Responsibility & Credibility

We take ownership of commitments and deliver on our promises. Our reputation is built on dependable performance and transparent communication throughout every project phase.

Integrity & Passion

We conduct business with honesty and ethical principles. Our team brings genuine enthusiasm to solving customer challenges and advancing the steel industry.

Knowledge, Excellence & Satisfaction

We continuously develop our technical expertise and industry knowledge. Customer satisfaction drives our pursuit of excellence in product quality, service delivery, and project outcomes.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Industry Focus and Expertise

Brilliance Mahk serves a diverse range of industries requiring specialized steel products and prefabrication solutions. Our experience across multiple sectors enables us to understand unique project requirements and deliver tailored solutions.

Construction & Infrastructure

Commercial buildings, residential complexes, bridges, and public infrastructure projects requiring high-quality structural steel and prefabricated components.

Energy & Refineries

Power generation facilities, oil and gas refineries, and renewable energy projects demanding specialized steel grades and precision-fabricated modules.

Ports & Marine Engineering

Port facilities, quay walls, offshore platforms, and marine structures requiring corrosion-resistant materials and robust fabrication standards.

Manufacturing & Heavy Industry

Production facilities, warehouses, and industrial plants needing structural frameworks, platforms, and custom-engineered steel solutions.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Key Services

Brilliance Mahk provides an all-inclusive service package designed to give our customers a seamless experience from initial inquiry through final delivery. Every engagement is backed by our commitment to high-quality products that meet unique project requirements.

Sourcing

Global supplier network with direct mill relationships for optimal pricing and availability

Procurement

Professional purchasing management with specification review and order tracking

Transportation

End-to-end logistics coordination including containerization and break-bulk shipping

After-Sales

Ongoing technical support, warranty management, and responsive client communication

Our extended capabilities also include **EPC contracting** and **project financing**, making Brilliance Mahk a true one-stop partner for international steel projects of any scale.

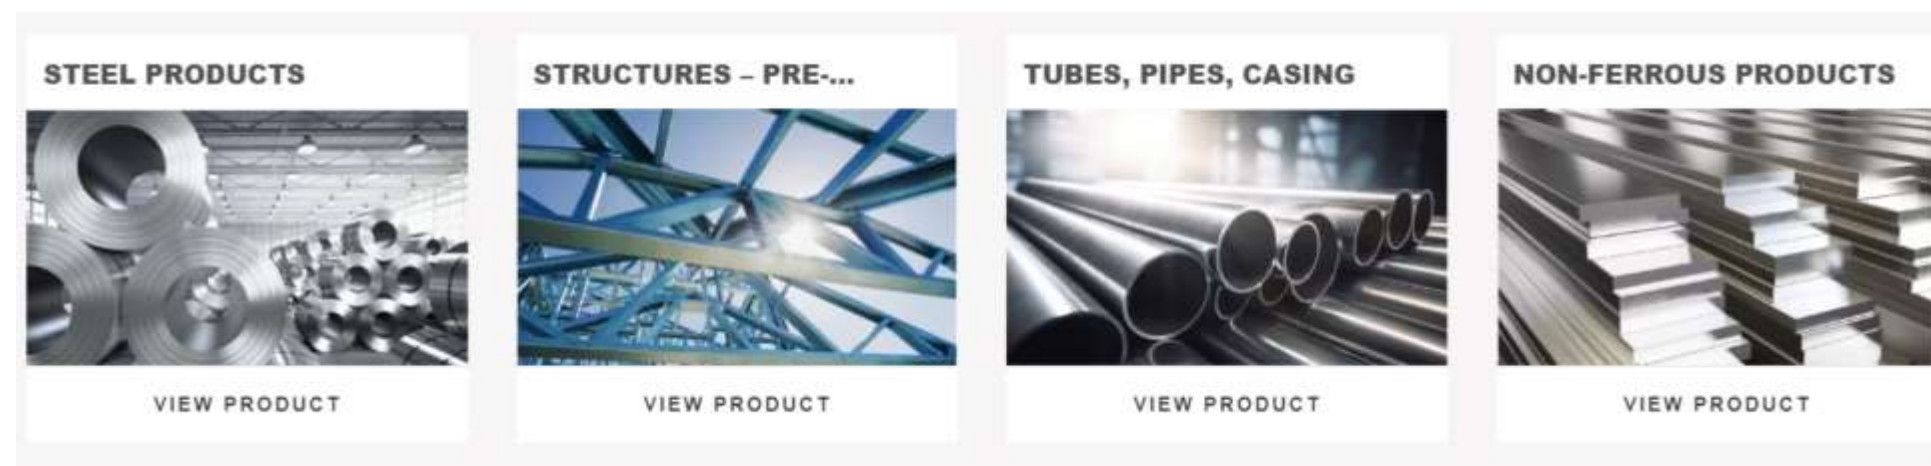

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Product Portfolio Overview

Brilliance Mahk provides high-quality steel and non-ferrous products that meet the diverse needs of customers across construction, shipbuilding, automotive, and energy industries. All steel products undergo rigorous quality control checks to ensure full compliance with international standards and customer specifications.

Long Steel Products

Beams, rebars, rails, and structural sections

Flat Steel Products

Hot rolled coils, cold rolled coils, and heavy plates

Coated Steel Products

Galvanized, pre-painted, and galvalume coils and sheets

Pipes & Tubes

Seamless, welded, and specialty tubular products

Marine & Piling

Shipbuilding plates, sheet piles, and heavy structural plates

 **Browse our full catalog:** Visit www.mahksteel.com or connect with us on WhatsApp at <https://wa.me/c/8613916102047> for detailed product specifications and availability.

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Long Steel Products

Beams, Rebars, Rails & Structural Sections

Our long steel product range forms the backbone of construction and infrastructure projects worldwide. Available in a wide range of grades, sizes, and lengths, these products are sourced from certified mills and conform to international standards including EN, ASTM, JIS, and GB.

H-Beams & I-Beams

Structural framing for buildings, bridges, and industrial facilities

Steel Rails

Railway and crane rails meeting international rail standards

Deformed Rebars

Reinforcement steel for concrete construction in various diameters

Channels & Angles

Versatile structural sections for diverse engineering applications

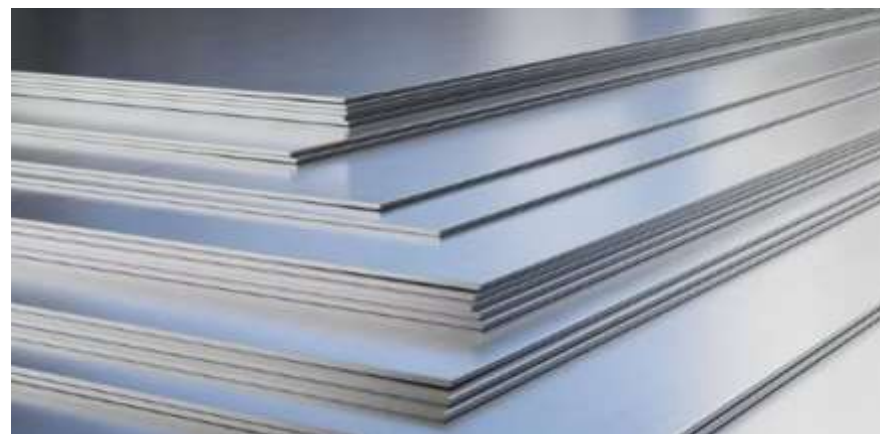

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Flat Steel Products

Hot Rolled Coils / Cold Rolled Coils / Heavy Plates

Our flat steel product line serves applications ranging from automotive manufacturing to structural construction and pressure vessel fabrication. Every coil and plate is delivered with full mill test certification and traceability documentation.

Hot Rolled Coils (HRC)

Thickness 1.2–25mm, widths up to 2,000mm.
Applications include structural components, machinery parts, and general fabrication.

Cold Rolled Coils (CRC)

Superior surface finish, tight thickness tolerances.
Ideal for automotive panels, appliances, and precision engineering.

Heavy Plates

Thickness 6–200mm for pressure vessels, shipbuilding, bridges, and structural applications requiring high-strength grades.

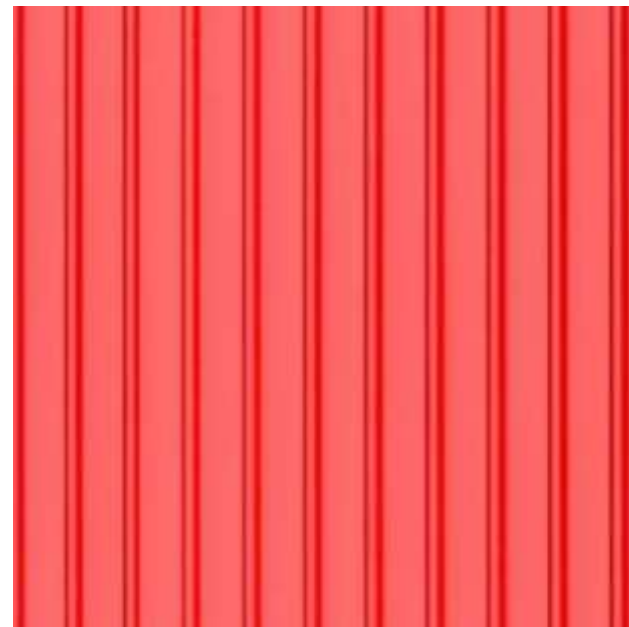

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Coated Steel Products

Galvanized (GI) / Pre-Painted (PPGI) / Galvalume (GL)

Our coated steel products provide superior corrosion resistance and aesthetic versatility for roofing, cladding, and architectural applications. Available in a wide range of coating weights, colors, and finishes to meet regional building codes and project specifications.

Key Specifications

- Zinc coating: 40–275 g/m²
- PPGI colors: RAL chart available
- Thickness: 0.12–2.0mm
- Coil weight: 3–8 MT typical

Common Applications

- Roofing and wall cladding systems
- Corrugated sheets and profiles
- HVAC ductwork and appliance housings
- Prefabricated building envelopes

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Pipes and Tubes

Brilliance Mahk supplies a comprehensive range of steel pipes and tubes for structural, mechanical, oil and gas, and water transmission applications. Our tubular products are manufactured to international standards including API, ASTM, EN, and DIN specifications.

Seamless Pipes

For high-pressure and high-temperature applications in oil, gas, and power generation

Welded Pipes (ERW/LSAW/SSAW)

Structural, water transmission, and pipeline applications in various diameters

Hollow Sections

Square, rectangular, and circular hollow sections for structural and architectural use

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Marine, Piling & Heavy Plates

Specialized steel products for the most demanding marine, offshore, and foundation engineering applications. Our heavy plates and piling products are certified by major classification societies and meet the stringent requirements of international maritime and civil engineering standards.

Shipbuilding Plates

ABS, BV, DNV, LR, and NK certified. Available in grades A, B, D, E, AH32–AH36 for hull construction and marine structures.

Steel Sheet Piles

U-type, Z-type, and flat-web profiles for retaining walls, cofferdams, port quay walls, and flood protection systems.

Heavy Structural Plates

Thickness up to 200mm for bridges, offshore platforms, pressure vessels, and heavy structural applications requiring superior mechanical properties.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Project Partnership

From initial inquiry through final delivery, Brilliance Mahk supports your project execution with professional service, technical expertise, and reliable supply. We welcome long-term cooperation with EPC contractors, project developers, and construction firms seeking a dependable steel supply partner.

Whether your project requires standard products, custom fabrication, or complete modular solutions, we have the capability and commitment to deliver success. Our team integrates seamlessly with your project management structure to ensure alignment on specifications, timelines, and quality expectations.

Build Together

We look forward to building a lasting partnership grounded in mutual trust and shared success

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Quality Assurance

Quality is not negotiable in steel supply and prefabrication. Brilliance Mahk implements comprehensive quality control programs that provide full transparency and accountability throughout the manufacturing and delivery process.

1

Material Verification

Mill test certificates (MTC) for all steel products, confirming chemical composition, mechanical properties, and manufacturing standards compliance.

2

Production Monitoring

In-process inspection at key fabrication stages including cutting, welding, assembly, and coating application. Dimensional checks against approved drawings.

3

Third-Party Inspection

Independent verification by SGS, TÜV, or client-nominated inspectors. NDT including ultrasonic, radiographic, and magnetic particle testing as required.

4

Final Documentation

Complete quality dossier including test reports, inspection records, coating certificates, and traceability documentation for regulatory compliance.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Global Logistics Support

Successful international steel projects require more than quality products—they demand expert logistics coordination. Brilliance Mahk manages the entire export process, ensuring materials arrive on schedule and in perfect condition regardless of destination.

Export Services Include

- Custom export packaging and containerization
- Break-bulk and heavy-lift cargo coordination
- Complete export documentation and customs clearance
- Marine insurance and cargo protection
- Multi-modal transportation planning
- Port handling and delivery coordination

Our Logistics Advantage

Our logistics team works with established shipping lines and freight forwarders to optimize routing and costs. We provide transparent shipment tracking and proactive communication to keep project teams informed of delivery status at every stage.

From Shanghai's major ports to destinations across five continents, we coordinate seamless delivery for projects of any scale.

A fusion of steel and elegance

Brilliance Mahk Import & Export (Shanghai) Co., Ltd.

Why Choose Brilliance Mahk

Partnering with Brilliance Mahk means working with a steel supplier that understands international project challenges and delivers consistent value through experience, capability, and commitment.

Proven Track Record

Twenty years of successful project deliveries across five continents. Our experience spans hundreds of projects from small-scale fabrications to major infrastructure developments. Client references available upon request.

Professional Coordination

Dedicated project managers who understand engineering requirements, logistics challenges, and construction schedules. We integrate seamlessly with EPC contractors and project teams.

Competitive & Reliable

Direct mill relationships and efficient sourcing practices deliver competitive pricing without compromising quality. Our financial stability ensures reliable supply even in challenging markets.

Technical Expertise

In-house technical team with deep steel industry knowledge and practical construction experience. We provide specification review, material selection guidance, and value engineering support.
