

Forest Printer®

UV ONE PASS

S3600

2400DPI

30M/min

Flexible

Curved Print

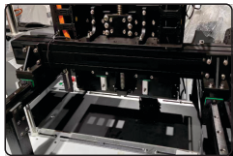

Specifications

Model	Forest S3600 Code Printer	
Print Head	Toshibe / Kyocera / Ricoh	
Head Qty.	1-8 pcs	
Print Solution	2400DPI MAX	
Print Width	0--330 MM	0--540 MM
Print Height	0--300 MM (Customized)	
Printer Speed	Max 30m / Min	
Media Type	KCMY / W+KCMY	
Print Type	Flat & Flexible objects	
Pre-treatment	Plasma / Plame / Corona Depend upon needs	
Media Feeder	Automatic Laser guideline margin	
RIP Software	Photoprint / Printfactory	
Operation Language	English / Chinese	
Operation System	Windows 10/ Windows 11	
Applications	Plastic,Metal,Glass,Wood,bags,Pet film,flexible objects.	
Color Control	ICC curve and density adjustment function	
Image Format	PDF,AI,TIFF,JPEG,POSTSCRIPT3	
Power Supply	AC 110V / 220V,50/60HZ 2.5 KW	
Work Environment	Temperature:20 ~28 Humidity:40% RH~60% RH	
Weight	785 KG	
Dimension	2580*1120*1780 MM	

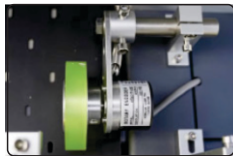

Description

- Forest S6000 UV single pass printer was special designed for customer who want to print on various of hard and flexible material with high speed.
- It is a termial and profesional solution for direct to packaging printing as it is full color inkjet printing with UV.
- Automatic feeder system, it also allow to print to create more value for the digital inkjet printing market.

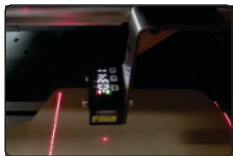

Key Features

54-108mm large printing width design and compatible with different print heads such as Toshiba,Ricoh and Kyocera head.

2500PIR high-precision meter wheel realizes high-precision operation and printing of Y-axis

Laser sensor for automatically sensing printing material thickness

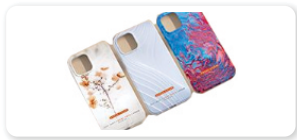

Installing a plasma processor can achieve UV printing on smooth material surfaces without fading.

850W ultra-powerful vacuum adsorption fan ensures smooth adsorption of soft materials.

Application

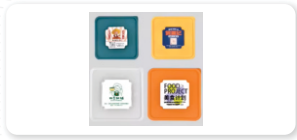

Phone case

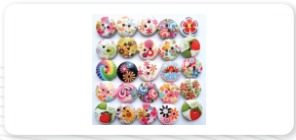

3C Electronic

Fabric Bag

Plastic box

Decoration

Plastic package
