Tiancheng's Passion for the Laying Hens Industry

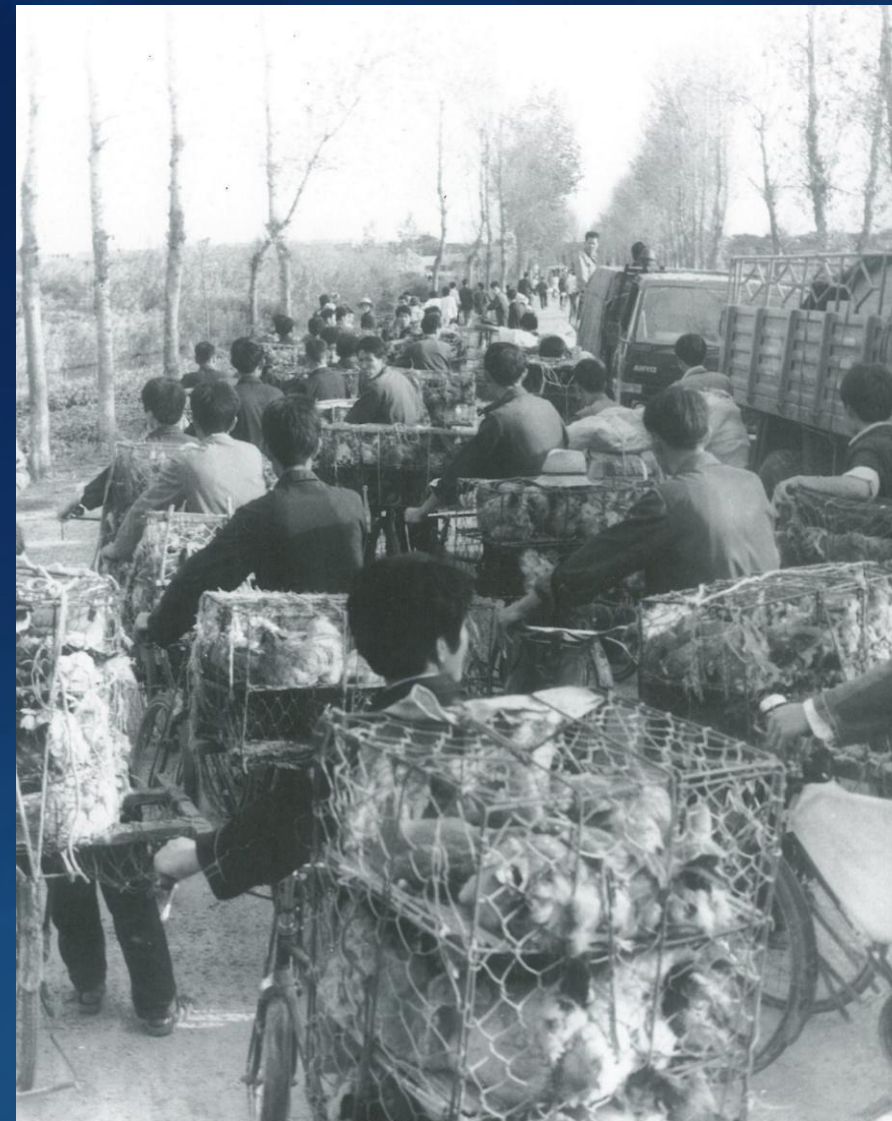

海安县“蛋鸡研究会”秘书长陈正荣（右）在养鸡专业户家中了解罗斯鸡的产蛋情况。
杨一秋摄

Chairman: Mr. Chen Zhengrong

Out of a sincere aspiration to revitalize the local economy and improve farmers' livelihoods, Mr. Chen founded China's first rural specialized technical and economic cooperative organization in March 1983 — the Hai'an Longzheng laying hens Research Association. From introducing breeding stock and scientific feeding techniques to disease prevention, control, and organized marketing, the Association provided comprehensive services for local poultry farmers.

After an on-site inspection, the renowned economist Yu Guangyuan published an article in **Farmers' Daily**, speaking highly of and commending this pioneering initiative.

A Million Roosters March South

Group Profile – Development History

1983

Established Longzheng Laying Hens Research Association

1996

Nantong Animal Pharmaceutical Factory was renamed as Nantong Tiancheng Health Products Co., Ltd.

2002

Established Jiangsu Tiancheng Health Products Co., Ltd.

2008

Founded Jiangsu Tiancheng Technology Group

2011

Established Nantong Tiancheng Modern Agricultural Technology Co., Ltd.

2017

Established Anhui Tiancheng New Materials Co., Ltd.

2022

Established Jiangsu Tiancheng Health Products Co., Ltd.

1989

Founded Nantong Animal Pharmaceutical

1999

Established Nantong Tiancheng Feed Co., Ltd.

2007

Established Jiangsu Tiancheng Biochemical Products Co., Ltd.

2010

Established Jiangsu Tiancheng Group Yancheng Feed Co., Ltd.

2016

Established Jiangsu Tiancheng Egg Industry Co., Ltd.

2018

Established Jiangsu Tiancheng Technology Group Nantong Feed Co., Ltd.

Mission

Committed to the development of agriculture, rural areas, and farmers, and dedicated to the care of human health.

Vision

To become a leading modern agro-pastoral and food enterprise in China.

Core Philosophy

To collectively accomplish what individuals alone cannot achieve.

Core Corporate Culture

Harmony between Humanity and Nature —
Success through Cooperation.

Group Profile – Major Honors

- National Key Leading Enterprise in Agricultural Industrialization
- National Innovation and Application Base for Digital Animal Husbandry
- National Demonstration Base for Agricultural and Rural Informatization
- Outstanding Innovative Enterprise in China's Egg Industry
- One of the First National Demonstration Farms for Antibiotic Reduction
- National Standardized Demonstration Zone for the Entire Industrial Chain of Laying Hens
- Unit of the Poultry Branch, China Animal Husbandry Association
- Executive Director Unit of the China Feed Industry Association
- River Delta Famous and Excellent Food Brand
- Top 10 Aquatic Feed Enterprises in China
- Unit of Jiangsu Poultry Industry Association
- President Unit of Jiangsu Egg Industry Association
- The Mayor's Quality Award, Nantong City
- Top 10 Leading Enterprises in China's Egg Industry

Jiangsu Province Dual-Innovation Team

Provincial Engineering Research Center

National Poultry Engineering Technology Research Center

National “Spark Program” Project

Group Profile – Product Quality and Safety Management System

• Six Major Certifications for the Entire Industry Chain of Laying Hens

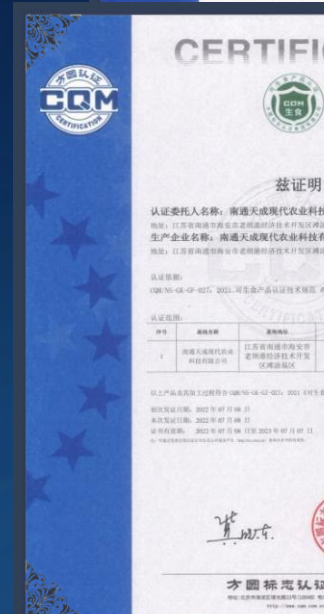

- The certifications comprehensively ensure the quality and safety of the entire laying hens industrial chain across multiple dimensions — covering farming standards, product safety, and quality criteria.

Antibiotic-Free Product Certification

Animal Welfare Farming Certification

Edible Raw Egg Product Certification

Organic Product Certification

BRC Certification

Evolution of Smart laying hens Farming

Stage 1.0

Introduction of automation equipment to achieve five aspects of automation.

Stage 2.0

Implementation of ERP/OA farming management systems.

Stage 3.0

Application of Big Data Platforms, Mobile App Management, and Poultry House Inspection Robots.

Dedicated to Building an Entire Industrial Chain of Laying Hens

Tiancheng Digital Farming

- Full-process digitalization in laying hens farming, recognized as an "Outstanding Case of Provincial Agricultural Digitalization Construction."
- Application of Big Data Platform and Poultry House Inspection Robots.

Dedicated to Building an Entire Industrial Chain of Laying Hens

Tiancheng Digital Farming

- Development of Tiansheng Pastoral Mobile App

Dedicated to Building an Entire Industrial Chain of Laying Hens

Breeding and Hatching

- Adoption of Modern Imported Equipment

Imported Natural Mating Cages From Italy

Imported Infrared Automatic Beak Trimming Device From United States

Imported Platinum Series Large-Scale Incubators From Canada (Jamesway Company)

Dedicated to Building an Entire Industrial Chain of Laying Hens

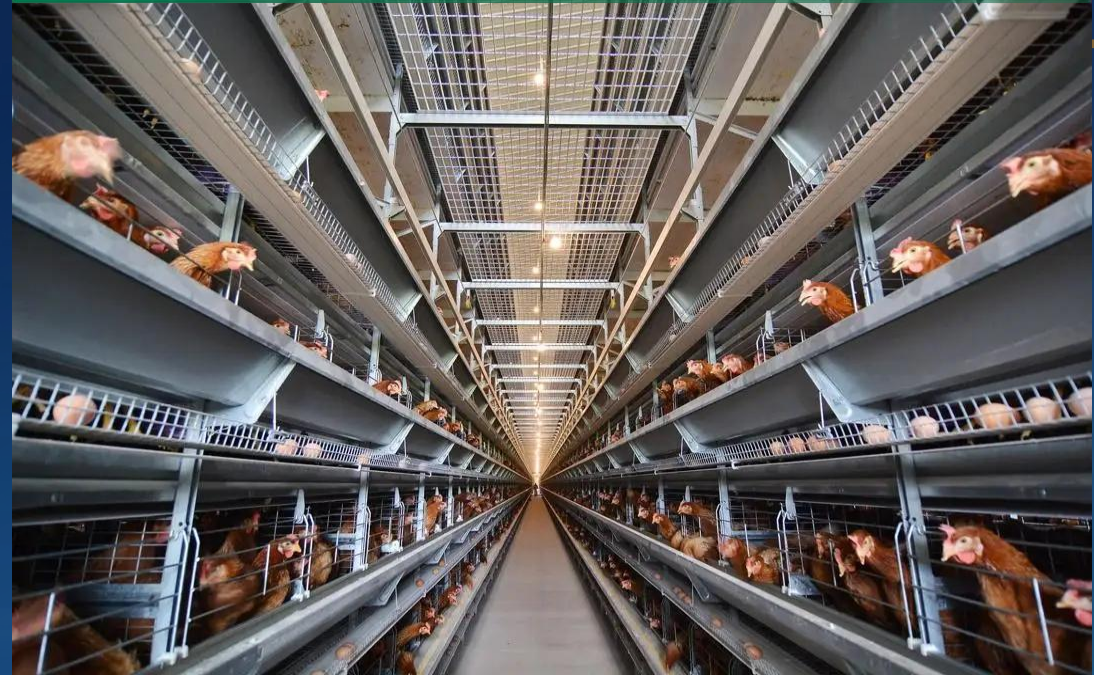

Commercial Demonstration Farming

- Adoption of Modern Imported Equipment

Advanced Technologies for Welfare-Oriented laying hens Farming

New technologies for animal welfare-based laying hens rearing

Dedicated to Building an Entire Industrial Chain of Laying Hens

Egg Grading and Processing

- Equipped with the fully automated egg grading and packing system from MOBA Company, the Netherlands.

Dedicated to Building an Entire Industrial Chain of Laying Hens Egg Product Deep Processing Center

Jiangsu Tiancheng Egg Industry Co., Ltd. has a total investment of RMB **480 million**, covers an area of **6.6 hectares**, and has an annual production capacity of 78,000 tons.

Egg Deep Processing

- World-Class Automated Egg Processing Equipment by MOBA (the Netherlands)

Two sets of fully automated egg processing lines imported from MOBA, the Netherlands, with a processing capacity of 288,000 eggs per hour.

Chinese Largest Egg Breaking System

- Equipped with five-valve matrix arrays, achieving a fully automated production flow under centralized control system monitoring.
- The CIP (Clean-In-Place) online cleaning system performs automatic spraying, washing, and sterilization, ensuring continuous and aseptic production throughout the process.

Dedicated to Building an Entire Industrial Chain of Laying Hens

Egg Deep Processing

- The tubular-and-plate UHT dual pasteurization system extends the product shelf life to six weeks.

Fully Automatic Pasteurization System

Centralized Automatic Control System

Dedicated to Building an Entire Industrial Chain of Laying Hens

Product Introduction

Tiansheng Pastoral Japanese-Style Braised Shell-Free Soft-Boiled Egg

Foodservice Pack:
10 / 20 / 30 eggs per package

"YiWeiYuZi" Japanese-Style Soft-Boiled Egg with Shell

Onsen Egg

Soft, tender, and moist texture, Rich in protein and multiple vitamins

Tea Egg

Rich tea aroma, moderately salted flavor
High in protein and minerals

Chawanmushi (Steamed Egg Custard)

Smooth and delicate texture, strong egg aroma
Rich in vitamins, low in fat

Shrimp Chawanmushi

Sweet fresh shrimp, rich and savory broth
Balanced nutrition and refined craftsmanship
