COMPANY INTRODUCTION

GuangDong Sanon Metal Products Co.,Ltd located in Foshan, which is a high-tech enterprise specialized in stainless steel pipes, stainless steel handrail fittings, glass fittings and shower room fittings etc over 20 years experience. Fittings can be made of stainless steel 304, stainless steel 316 and zinc alloy with either satin or mirror finish. To offer better services, we also provide customized products to meet customers' demand!

Every products follows strict quality control during each process, such as cutting, welding, polishing and packing. To ensure our products are up to STM International standard.

We have cover an area of 20,000 square meters. The capacity of our factory is 5,000 tons per month for stainless steel pipe. Guarantee that we can deliver on time. Relying on superior product quality and reasonable prices, our products are deeply welcomed by both domestic and foreign customers. The Best Quality,

"The Best Service" is our motto. Together we can make a success! We sincerely welcome customers from at home and abroad to consult and discuss cooperation!

STAINLESS STEEL ORNAMENTAL TUBES

This product by Sanon is manufactured according to ASTM A554/EN 10296-2/J1S G3448 with deep brightness, shiny surface, and being processed or bent easily to process or bend. This product is made from Sus 201, 304,304L, 316L, 316/316L. it is very suitable for interior, exterior design, decorative and household product.

Bright and deep gloss up to 600 Grit in accordance with the European standards
Ensure high gloss electrochemical ability; save time after machining.
Meeting the needs of bending,mechanical processing
When applied to bending, machining, the product does not peel. break welds or crack the pipe body.
Guaranteed the deepest gloss surface in Vietnam.
Products are exported to 50 countries

STAINLESS STEEL INDUSTRIAL PIPES

Stainless Steel industrial Pipes by Sanon is produced with diversified specifications are produced with American Standard ASTM A312/A778,Europe Standard EN 10217-7 and Japanese Standard JISG 3459. All industrial pipe are produced under the most modern Germany welding technology Tig-Plastic - Tig and Production line of rolling, welding, melting limitation, relative elongation, chemical composition, tolerance in length etc...

STRICT ENSURE PRODUCTS QUALITY CONTROL INSPECTION

-100% products go through current test to ensure welding lineand leak tightness of the pipe.
-Finished product must pass tests such as: tensile test, flattening test, hydrostatic test, leak tightness test, drift expanding test or mpact test.

ENSURE PRODUCTS QUALITY CONTROL IN PRODUCTION PROCESS

-100% products could be traced back to the raw material and quality is secured quality is secured from the raw material to every production step with C/O, C/Q.
-ISO, PED certification and international standards.

EXPORTED FROM 2008
