Ningbo Jingmi Electric Appliance Technology Co., Ltd. Founded in 2015, Ningbo Jingmi Electric Appliance Technology Co., Ltd. is situated in Zhouxiang Town, Cixi City – hailed as "China's Intelligent Manufacturing Hub for Small Home Appliances". Strategically adjacent to the Hangzhou Bay Cross-Sea Bridge, it enjoys a prime location in the Golden Delta: 100 kilometers from Shanghai, 100 kilometers from Hangzhou, and 50 kilometers from Ningbo – a geographic advantage that sets the stage for its exceptional development. The company upholds the core business philosophy and principles of "stability, development, reform, innovation, people-oriented, and integrity-driven operations". Since its inception, it has brought together industry elites, implemented systematic training programs to enhance management capabilities and quality service awareness, and thus achieved rapid growth. Today, the company boasts a workshop area of 28,000 square meters and a workforce of over 300 employees. Its daily production capacity of hardware components exceeds 2 million units, supported by an advanced production fleet: 100 high-precision CNC lathes, 100 Taiwan-manufactured automatic lathes, 200 domestically produced automatic lathes, 50 injection molding machines, 160 precision small instrument lathes, and 10 finished product assembly lines.

The company specializes in manufacturing personal care products, aluminum mesh covers/knife nets, lint remover knife nets, hardware parts for hair clippers, aluminum alloy casings, and beauty appliance accessories. A portion of its products are exported to markets across Europe and America. To optimize operations, the company has adopted modern enterprise management systems and processes, and built a digital platform integrating management, production, and services. This has enabled standardized and refined management, scientific oversight of all business systems, collaborative division of labor, and regional support – effectively integrating every link of its industrial chain. We are committed to continuous improvement and learning, and strive to deliver even higher-quality products and services to our customers.
