PART.4

Solutions &
Products

A night scene of a modern building with palm trees and a street lamp. The building has a dark facade with vertical slats. A tall street lamp with a solar panel on top is illuminated, casting a bright glow. The sky is dark blue. The foreground is a paved area with some greenery.

WHO IS AOK

Layout Globally to Serve Clients

Help Customers
for Our Top Mission

20000m²+
Production Base

Sophisticated
R&D Team

International
Utility Patents

Professional QC
Testing & Lab

Globally
Certificated

Oversea
Warehouses

International
Strategic Partners

40+

R&D engineer team

200+

50%+

Energy consumption reduction

100+

Countries clients served

20,000+

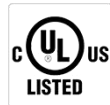

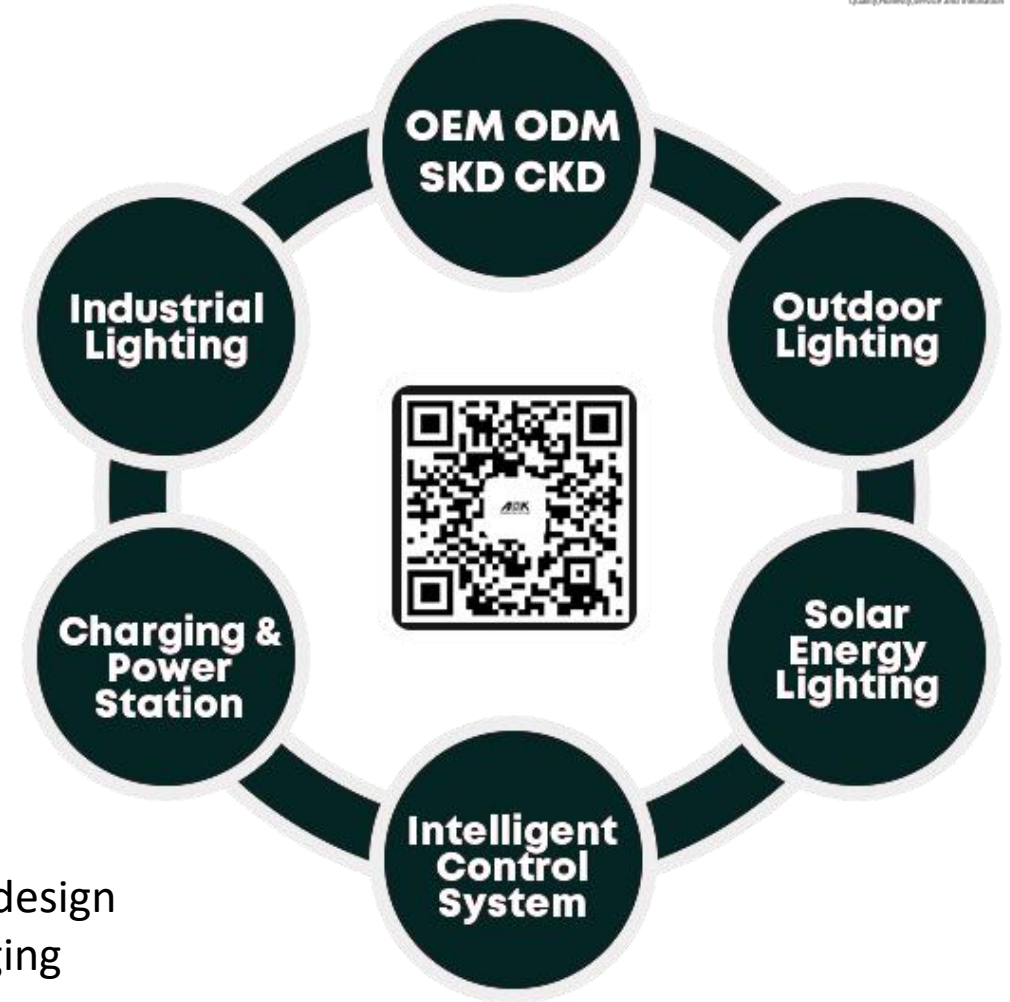

Projects successfully installed

PORTFOLIO

- Established in **2012**
- Factory scale: **15,000m²+** factory/**5,000m²+** office space
- Average capacity: **2000-3000**pcs/day
- Comprehensive R&D team, **80+** annual products design, tailored optics design & lighting simulation service
- Outdoor/indoor lighting **OEM/ODM/SKD/CKD** & expectational customer service

TECHNOLOGY

- High efficacy: Superior energy efficiency with cutting-edge technology
- Advance: Refined die-casting and manufacturing techniques
- Smart lighting: IoT intelligent lighting solutions, solar powered systems design
- Eco-friendly: Recycled materials and components for products & packaging

Development History of AOK

2012

Established factory with ISO9001 & ISO14001 standard

2013

AOK became the **Best Partner with Lumileds**. We hold annual technical seminar ever since

2014

Certified by **UL** company with factory audit and passed **TUV** factory inspection

2015

Won the prize of **Innovating Enterprise** China

2018

Established **Die-casting Factory**

2017 DIALux

Set up company and **Technical Service Center in USA**, branch in Germany & France, and partnership with **DIALux**

2016

Become a **member of Australia Lighting Council**, factory expanded to 8,000 square meters

2022

Certified by **ISO45001** standard and **BSCI**

2023

Established **AOK Huizhou** 2023

2024

Established **Philippine Factory**

2026

Looking forward to cooperate with you

Milestone

130lm/W

- In 2012, our LED streetlight series led in luminous efficiency, reaching 130lm/W, while other products were limited to 100lm/W.

LUMILEDS

- LUMILEDS showcased AOK products as demonstration fixtures in the lightfair.

30,000 Units

- For a 30,000 units streetlight project, AOK 135W solution, optimized for light distribution, outperformed a competitor's 150W product, helping the client win the project.

U.S. Official

- One of the first Chinese companies recognized by U.S. official highway projects, aiding clients in winning contracts.

Invention Patents

- We've developed tool-less maintenance street lights and floodlights with invention patents, offering eco-friendly, cost-effective, and recyclable solutions.

210lm/W~220lm/W

- New high-efficiency lighting system with a luminous efficacy of 210lm/W.

Scenario-based Applications

- R&D of professional scene application solutions for airports, stadiums, ports, solar systems, lighting towers, and other similar applications.

Our Vision

Global innovation with trustworthy lighting solutions.

Our Mission

Efficient illumination powering a sustainable future.

Our Core Values

QUALITY

HONESTY

SERVICE

INNOVATION

We Are Helping

People

to boost their productivity by providing high-quality lighting with safety and comfort, minimal glare to keep operations smooth.

Venues

good lighting is built to withstand tough environments, while also providing powerful light, ensuring the ideal light solution for the spaces & venues.

Environments

we design efficient, low-energy solutions with minimal maintenance for cost savings and optimal lighting harmony.

WHY IS
AOK

MARKET ACCESS

- Robust sales, service & R&D team in key markets (USA, Europe, Asia, Mid-east, etc.)
- Transnational agent cooperation channels served
- Technical support for local manufacturing

QC & CUSTOMER SERVICE

Quality assured, with customer complaints **<0.1%**

21 major testing facilities, quality guaranteed

28+ rigorous quality inspection procedures

After-sales response within **24 hrs**, resolution in **48 hrs.**

MARKET SHARE

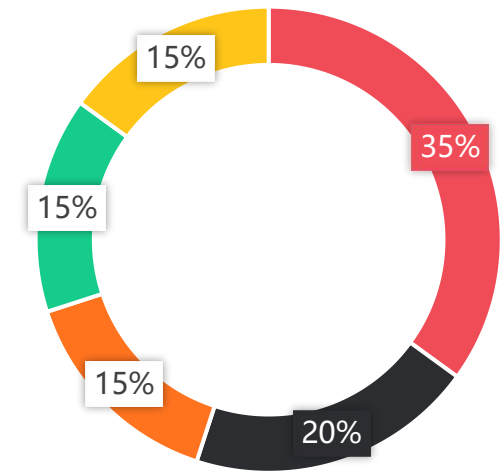

U.S.A.: 35%

Europe: 20%

Mid-east: 15%

Aisa: 15%

South America: 15%

■ U.S.A. ■ Europe ■ Mid-east ■ Aisa ■ South America

6 Key Advantages to Support Your Business

Project Protection

Private mode, agreements & approvals

Triangle Customer Service

Consultan-style service, sales, operation & tech team support

R&D & Design Service

Over 80 new product designs per year with patent protection.

Project Simulation Service

Optical design, project simulation, and optimization.

Delivery Assurance

Excellent supply chain integration management to ensure timely delivery.

Financial Support

Reasonable payment term planning to ensure smooth project execution.

Systematic Production & Security Management

MAS

Manufacturing automation system

SCSMS

Security management system for the supply chain certificate

PLM System

Product lifecycle management

 **BSCI**

Business social compliance initiative

ISO:28000

Transportation and logistics risk control

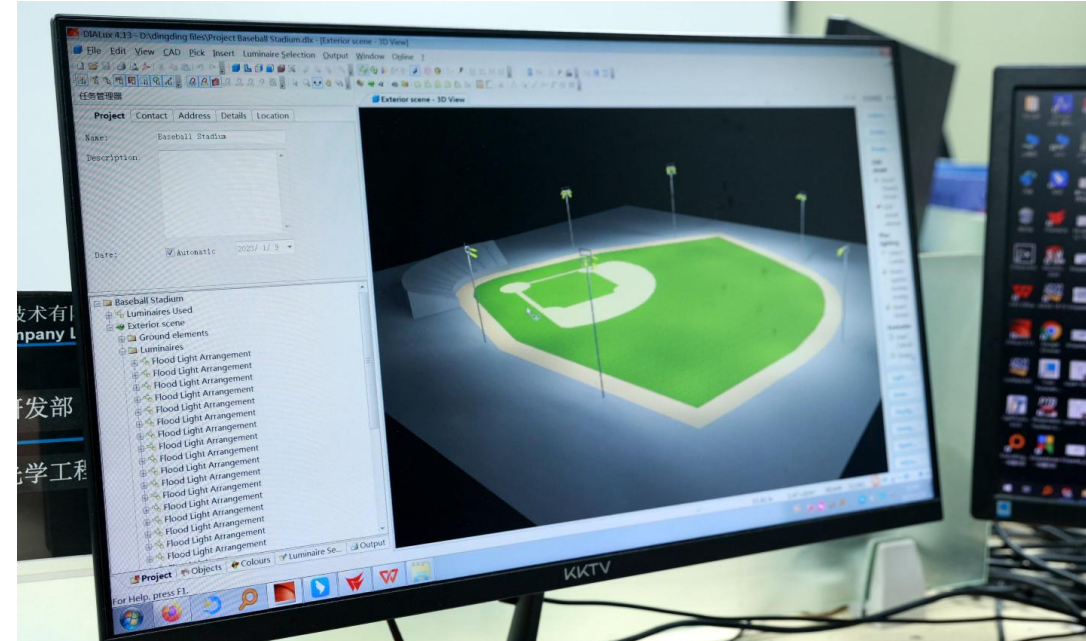

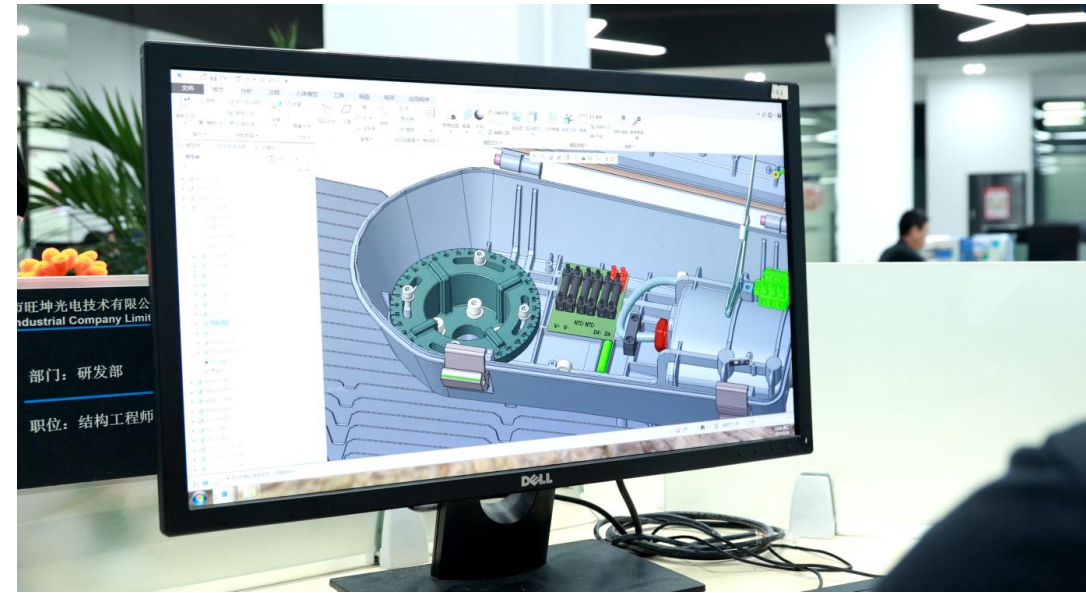

Sophisticated R&D Team

Annual New Products Design

80+

- OEM & ODM
- Complete Design in 1~7 Days
- Lighting Design for Clients

Sophisticated Solutions for **Tailor Made Project**

Customized R&D Procedure

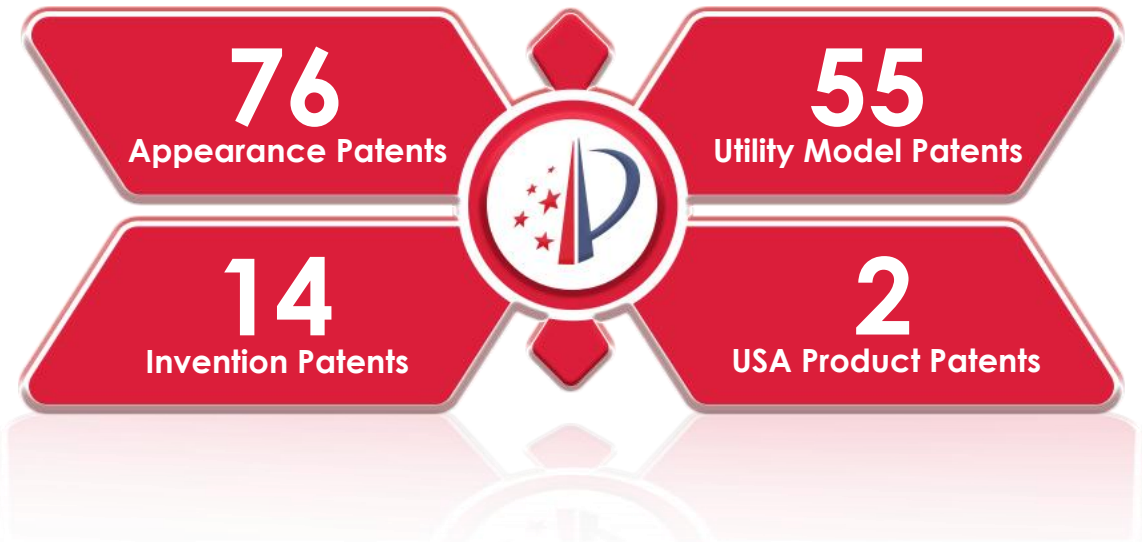

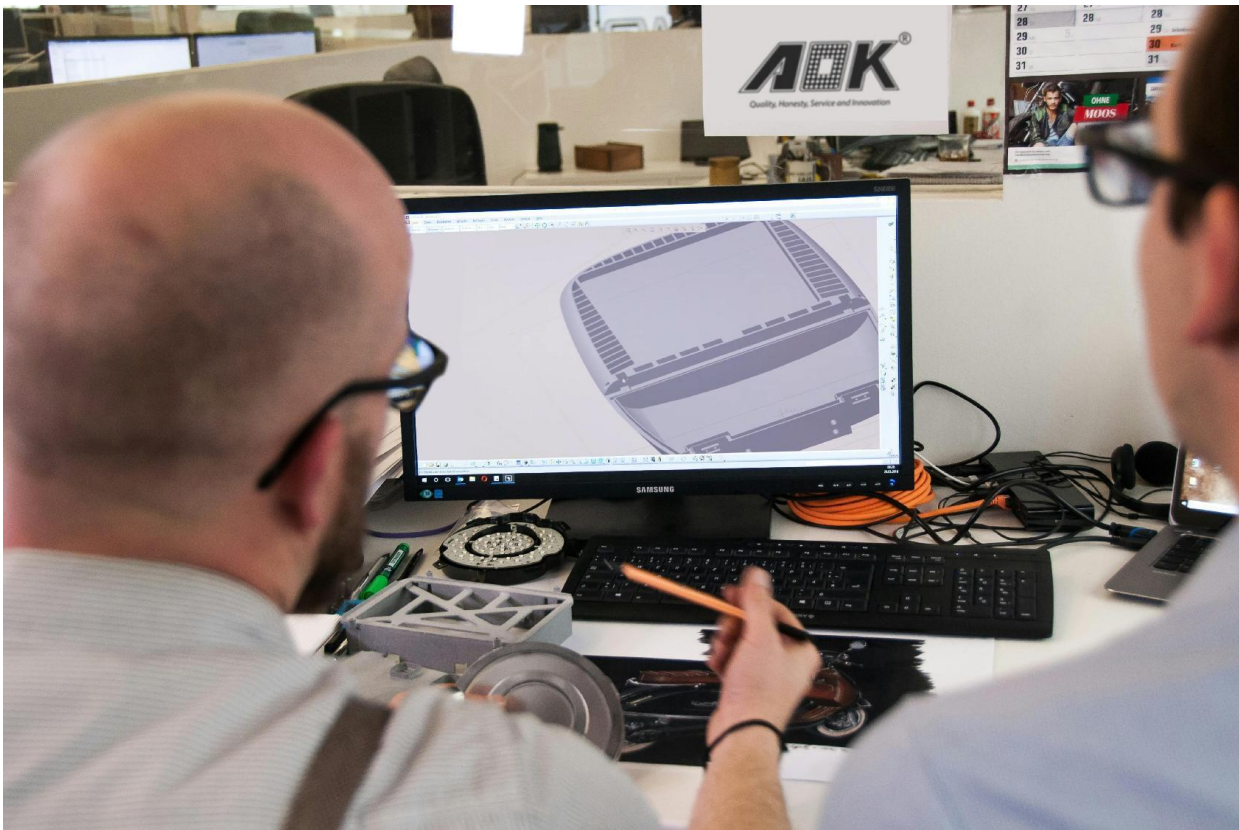

With over a decade of experience in structural, thermal, mechanical, and optical design, our R&D team can meet unique project requirements and performance expectations.

We're dedicated to improving our product development for reliable lighting solutions.

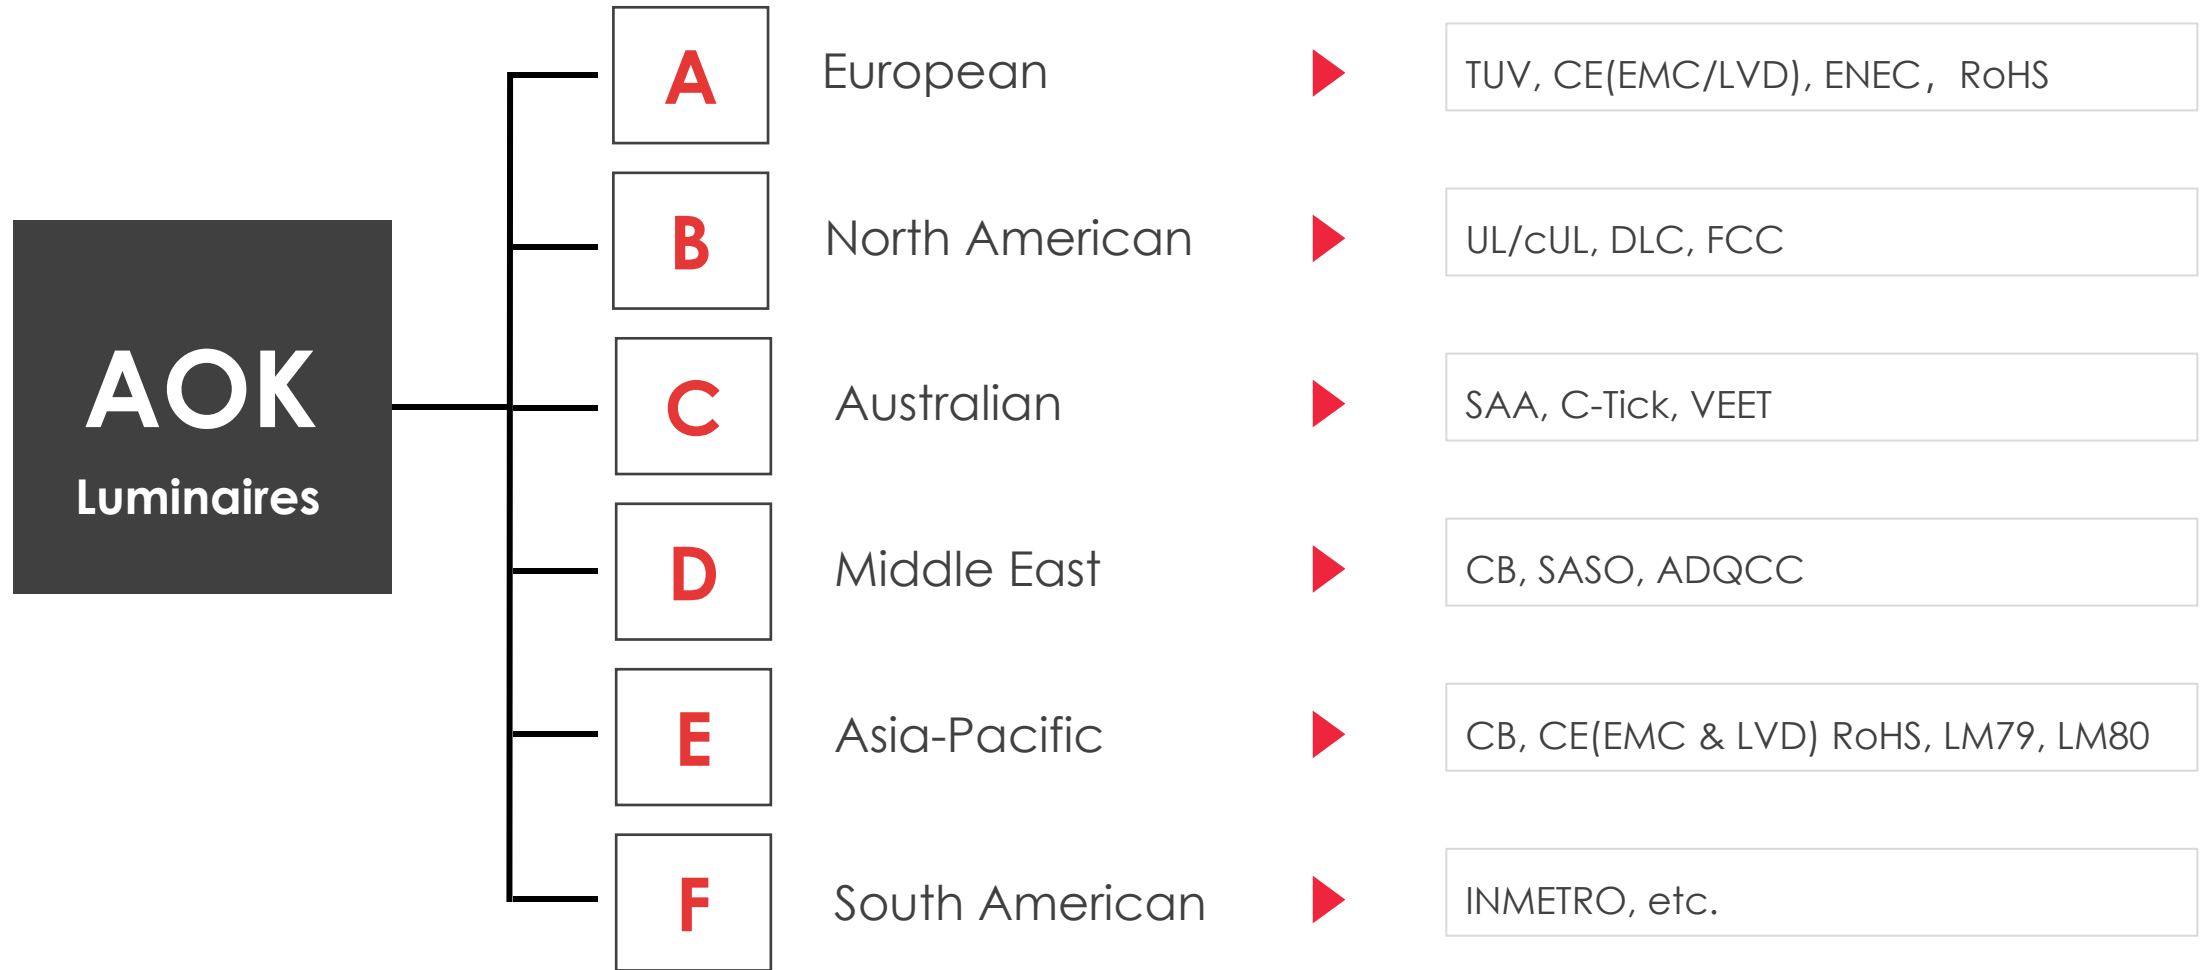

200+ Utility Patents

The AOK R&D team consistently generates fresh concepts and fine-tunes our tailored solutions.

Selection of Internationally Renowned Brands:

- We have established long-term, stable partnerships with multiple reputable suppliers to ensure the quality of raw materials, components, and a dependable supply.

Die-Casting

We operate die-casting machines from 280T to 2000T, allowing us to meet the requirements for various structural castings.

Rapid Response

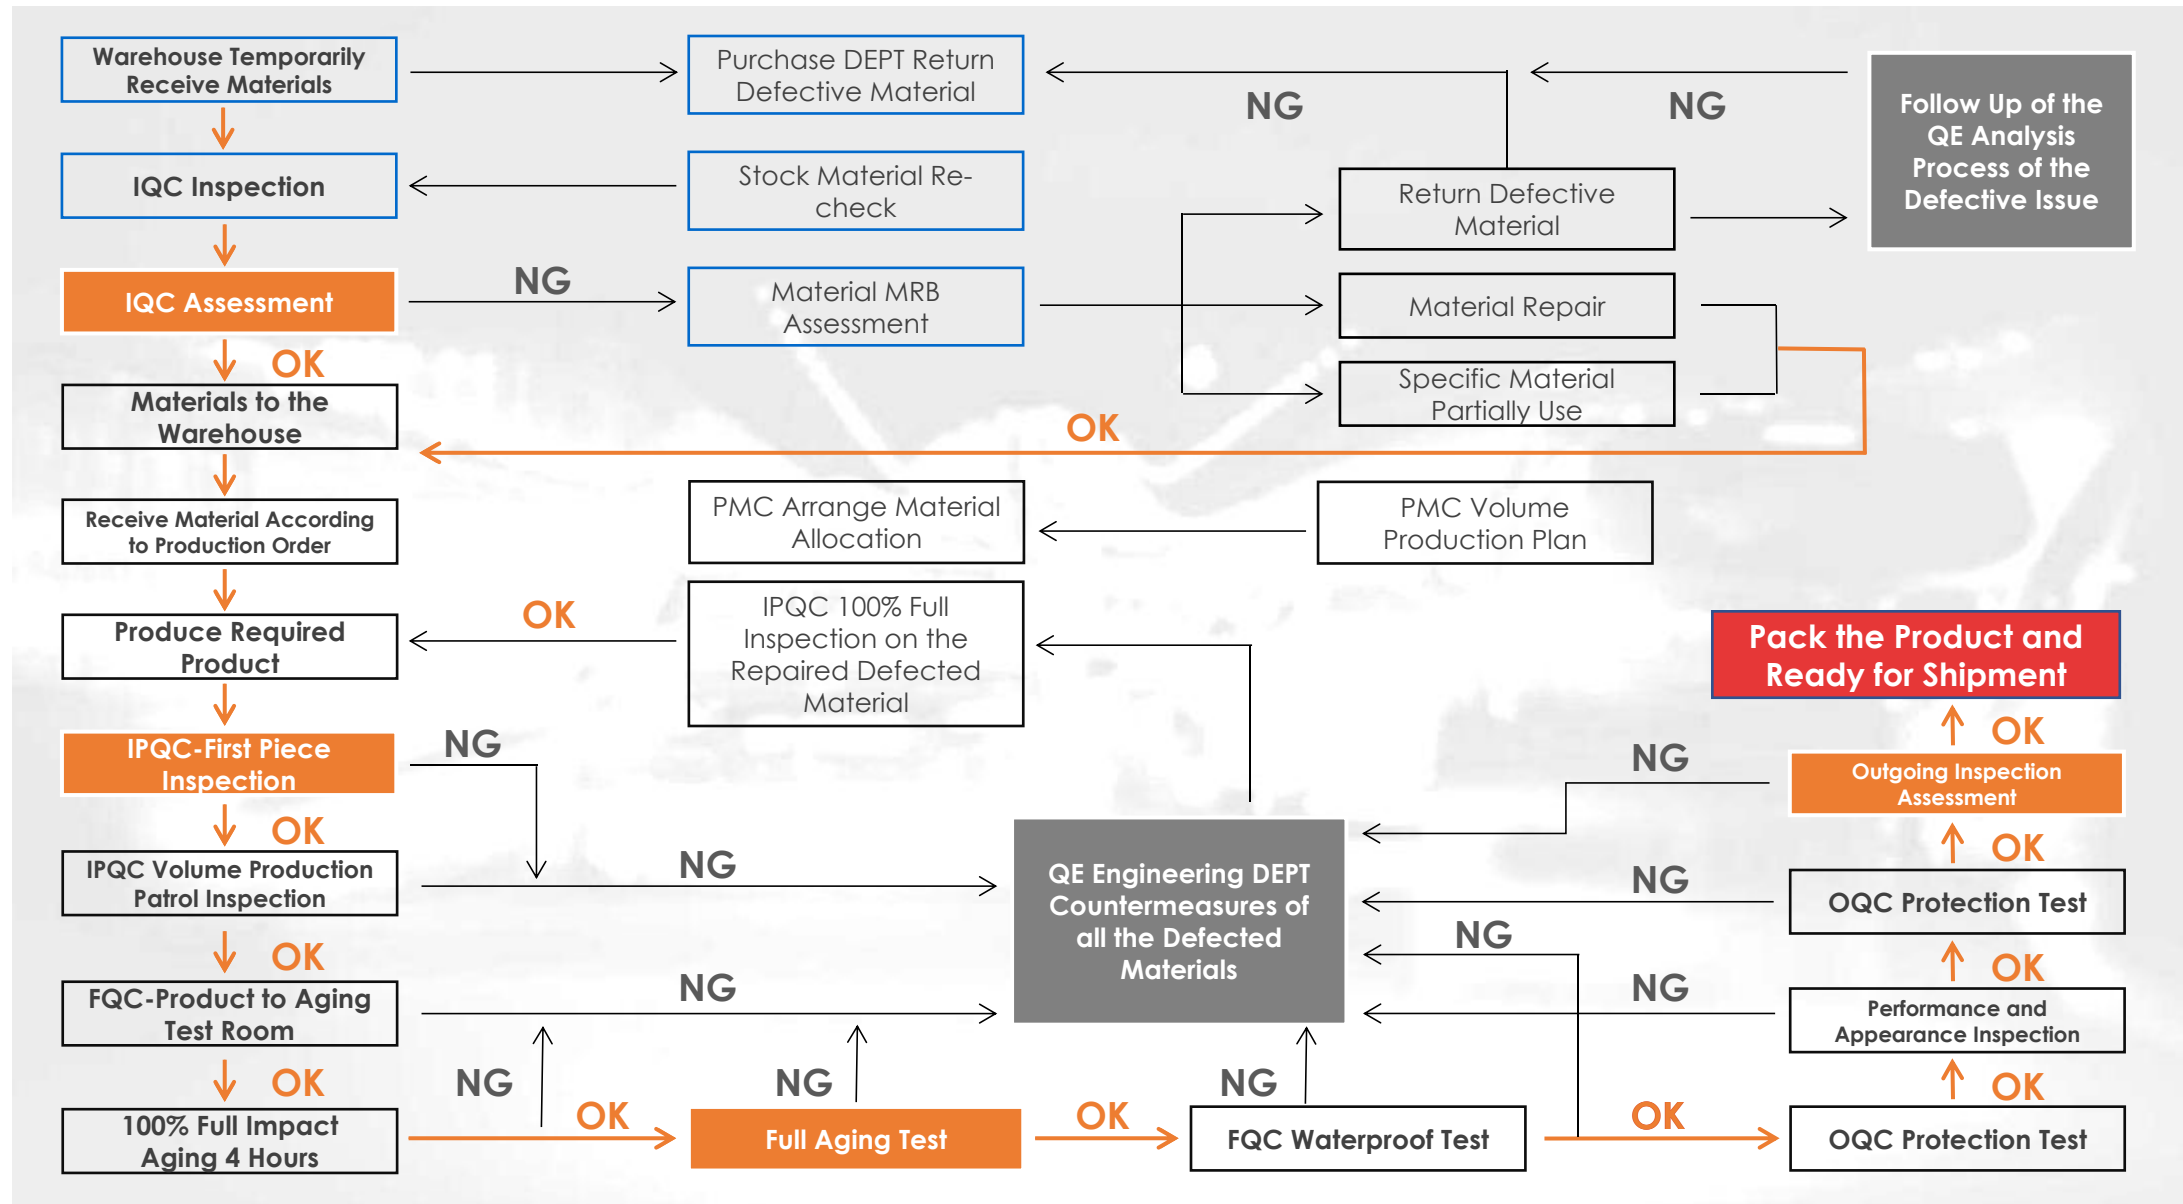

Our supply chain, based in the Pearl River Delta, allows for rapid response and flexible production adjustments to meet market demand. Efficient order processing, quick manufacturing, and timely supplier deliveries boost factory responsiveness and market competitiveness.

Payment Credit

We work closely with suppliers to ensure reasonable payment terms and financial planning, and develop schedules based on project timelines, allowing us to better support bulk delivery deadlines.
