诚

Sincerity

诚者，非自成己而已也。所以成物也。成己仁也。成物知也。性之德也，合外内之道也。故时措之宜也。

—— 儒家《中庸》

天地为大矣，不诚则不能化万物；
圣人为知矣，不诚则不能化万民。

—— 战国《荀子》

“存诚至性”是贯穿人类的关键，是贯穿天与人，内与外的合一之道。为天下之至诚方能化育人德，化成人道。因此，“诚”作为人的精神实体，起着化生万物的重要作用。

Sincerity, as the spiritual entity of human beings, plays an important role in transmuting all things on earth.

1995年的春天,燕赵大地一个叫做玉田的小县城里,有一个被村里人称呼“老邱”的中年人筹措了30余万的资金,带领了12个人办起了一家小型保温管厂。没资金、没背景、没技术,一切都是从头做起。13个人自此就没白没黑的调试设备,千方百计地改进技术,拓展市场,逐步发展。

98年,为山西阳泉热电联产项目生产的一批保温管由于设备出现故障,造成保温管外护层出现少量沟槽和气泡,不影响正常使用,有人提出正常发货。老邱得知后坚决卸下了已经装车的产品,命令把这批产品毁掉重做,90多万元的损失均由公司自己承担。

02年,一笔应收账款未能如期而至,原本承诺给一家原料供应商的货款眼看就无法按时支付,老邱决定把城里的住房卖掉付款,一家人又住回了农村的老家。这样的事情在老邱和他的家人身上前后经历了三次。答应了他人的事儿就得做到,这是老邱立身立世的根本。

房子卖了没啥,有点损失没啥,公司的发展起起落落也没啥,只要诚信还在,只要坚持不止,一切总会好的。

到2020年,这个工厂已经辗转达5个地方,小工厂也做成了大公司,做成了行业标准的制定者,做成了行业技术的引领者,但诚信的根还在,坚持实干的魂还在,这个公司就是今天的兴邦,“诚”是兴邦兴起之源,也是兴邦发展之本,今天的兴邦仍在努力奋进,期待与您并行,续写未来.....

In the Spring of 1995, in a small country called Yutain in Hebei province, a middle-aged man who was called by "Lao Qiu" by villagers, raised more than 300,000 RMB and led 12 person to set up a small thermal insulation pipe factory. Everything is a new beginning without fund, background and technology. From then on, those 13 person have been debugging equipment, improving technology, expanding market and the company developing gradually.

In 1998, a batch of heat preservation pipes produced for Shanxi Yangquan cogeneration project had a bit of grooves and bubbles in the outer protective layer of heat preservation pipes caused by equipment failure. Some people suggest can delivery normally because it just have a little impact on normal use. Lao Qiu resolutely unloaded all products and decide to destroy and redo the batch of products. the loss more than 900,000 RMB was borne by company.

In 2002, an account receivable failed to arrive on time, and the loan promised to a raw material supplier could not be paid on time. Lao Qiu decide to sell his house in the city and pay for it, he and his family moved back to hometown in the countryside. The similar case happened 3 times to Lao Qiu and his family. He has to do what he promised to others, which is the faith of his life.

Nothing is more important than the company developing, everything will getting better while as long as the integrity is still there and the persistence is not stopped. Until 2020, the company have changed 5 places, and from a small factory grown up to a successful company. And became industry standard makers, technology leaders, meal while the root of integrity and the sprite of practical work is still there. This company is today's Xingbang. "Sincerity" is the source of Xingbang booming, and also the foundation of its development. Today Xingbang is still striving to advance. looking forward to parallel with you, continue to draw the future.

XINGBANG GROUP

走进兴邦

唐山兴邦管道工程设备有限公司位于省级河北省玉田经济开发区后湖产业园，这里地处京津冀协同发展增长极中心地带，交通便利，政通人和。公司始建于1995年1月，注册资金1.9亿元，总占地面积23万平方米。公司是国家住建部供热标准化技术委员会委员单位，中国建筑节能协会区域能源专业委员会常务委员单位，中国节能协会热电产业联盟理事单位，中国塑料加工工业协会会员单位，国家绿色（生态）设计示范企业，河北省政府质量奖组织奖企业，河北省质量标杆企业。

Tangshan Xingbang Pipeline Engineering Equipment Co., Ltd. is located in Houhu Industrial Park, Yutian Economic Development Zone, Hebei Province. It is located in the central area of Beijing Tianjin Hebei coordinated development and growth pole, with convenient transportation and harmonious administration. The company was founded in January 1995 with a registered capital of 190 million yuan and a total area of 230,000 square meters. The company is a member unit of the heating Standardization Technical Committee of the Ministry of housing and urban rural development of the people's Republic of China a standing member unit of the Regional Energy Professional Committee of China Building Energy Conservation Association a director unit of the thermal power industry alliance of China Energy Conservation Association, a member unit of China Plastics Processing Industry Association, and a national green (green) design demonstration enterprise, Hebei provincial government quality award, Hebei province quality benchmark enterprise.

3000

保温管道年生产能力超过3000公里

兴邦管道是中国防腐保温管道行业专业制造企业，聚氨酯预制直埋保温管国家标准的参与制定者，保温管道年生产能力超过3000公里，服务于集中供热、集中供冷、石油、化工、LNG、气体、水利、化工等领域，兴邦公司始终将技术水平、产品质量、售后服务争创一流，让用户满意。

Xingbang pipeline is a leading enterprise in China's anti-corrosion and insulation pipeline industry, and a participant in the formulation of the national standard for directly buried insulation pipes. The annual production capacity of insulation pipes is more than 3000 kilometers, serving the fields of central heating, central cooling, petroleum, chemical industry, LNG, gas, water conservancy, chemical industry, etc. Xingbang company has always strived for the first-class technical level, product quality and after-sales service, making Customer satisfaction.

兴邦公司秉承“以诚信为根本、以品质为基石、超越客户期望”的经营理念，恪守“用心做好每一件事”的管理理念，遵循“安全生产、环保运营、规范操作、保质保量”的生产理念，为客户提供绝热保温及防腐涂覆的全面解决方案。

Xingbang company adheres to the business philosophy of "integrity as the foundation, quality as the cornerstone, and exceeding customer expectations", adheres to the management philosophy of "doing everything well with heart", and follows the production philosophy of "safe production, environmental protection operation, standardized operation, quality and quantity", so as to provide customers with comprehensive solutions for thermal insulation and anti-corrosion coating.

XINGBANG CULTURE

兴邦文化

品牌文化 Brand Culture

兴邦人以“兴邦”为名，也以“兴邦”为任。坚持实干兴邦精神，树立“产业报国，实业兴国”的理念，脚踏实地，创新驱动，将兴邦打造成为行业知名品牌。

Xingbang people take "Xingbang" as their name and "Xingbang" as their duty. Adhere to the spirit of invigorating the country through practical work, establish the concept of "industry serves the country, industry prospers the country", be down-to-earth and driven by innovation, and build Xingbang into a well-known brand in the industry.

企业愿景 Enterprise Vision

以节能环保为己任，改善人类生活环境，促进人与自然和谐发展。
Take energy conservation and environmental protection as our duty, improve the living environment of human beings and promote the harmonious development of human beings and nature.

企业价值观 Enterprise Value

聚兴业之邦，行诚信之德
Gathering a prosperous country and practicing the virtue of honesty and credit

企业使命 Enterprise Mission

传递温暖，服务供热
Delivery Warmth, Serve Heating

XINGBANG MAJOR EVENTS

兴邦大事记

1995

1995年1月公司成立。
The company was established in January 1995.

2002

公司通过ISO9001国际质量管理体系认证。
In 2002, the company passed the ISO 9001 International Quality Management System Certification

2008

公司通过ISO14001国际环境管理体系认证。
In 2008, the company passed ISO14001 International Environmental Management System Certification

2009

公司通过GB/T28001职业健康与安全管理体系认证。
In 2009, the company passed the GB/T28001 Occupational Health and Safety Management System Certification

2011

公司获得自营进出口权,完善销售模式,成立外贸部,拓展海外市场。

In 2011, the company acquired the right to import and export by itself, improved the sales model, established the Ministry of Foreign Trade, and expanded overseas markets.

2012

2月占地350亩的新厂区在省级玉田经济开发区竣工投入使用。
12月31日公司参与编制的聚氨酯保温管第一部国家标准GB/T29047-2012发布实施。

In 2012, the new plant area, which covers an area of 350 mu was put into operation in February at the provincial economic development zone. On December 31, the company participated in the compilation of the first national standard for polyurethane insulating pipes, GB/T 29047-2012, which was released and implemented.

2013

公司荣获“高新技术企业”、“河北省诚信企业”、“省级企业技术中心”。
In 2013, The company has been awarded "High Technology Enterprise", "Integrity Enterprise of Hebei Province" and "Provincial Enterprise Technology Center"

2015

2月公司顺利通过ISO9001、ISO14001、GB/T28001、GB/T50430、HSE等质量/环境/职业健康安全/施工质量/中石油、中石化系统健康安全与环境六标合一的管理体系认证；6月公司荣获国内首批工业产品生态设计试点企业；8月公司检测实验中心顺利通过CNAS现场认可评审工作。

In February 2015, the company successfully passed ISO9001, ISO14001, GB / T28001, GB / t50430, HSE and other quality / environment / occupational health and safety / construction quality / CNPC, Sinopec system health and safety and environment six standards in one management system certification; In June, the company won the first batch of pilot enterprises of ecological design for industrial products in China; in August, the company's testing and Experimental Center successfully passed the CNAS on-site accreditation review.

2016

承接张家口东源热力智能管网项目,将管道监测系统应用于DN1400mm保温管的智能管网。
To undertake Zhangjiakou Dongyuan thermal intelligent pipe network project, the pipeline monitoring system is applied to the intelligent pipe network of DN1400mm insulation pipe.

2017

公司与中科院合肥物质研究院签订技术合作协议。
In 2017, the company signed a technical cooperation agreement with Hefei Institute of Physical Science, Chinese Academy of Sciences

2018

公司“一种带报警线装置的智能保温管道”获评民营企业科学技术成果二等奖。10月,公司第4生产车间建成。11月,公司与芬兰普兰诺拉公司就建设中芬能效合作示范项目签署了战略合作协议。12月,公司与瑞典韦迪科公司进行了技术交流并签署了战略合作协议。

In 2018, the company "an intelligent heat preservation pipeline with alarm line device" won the second prize of scientific and technological achievements of private enterprises. In October, the 4th production workshop of the company was completed. In November, the company signed a strategic cooperation agreement with Finnish planola company on the construction of Sino Finnish energy efficiency cooperation demonstration project. In December, the company had technical exchanges with Swedish Vedic company and signed a strategic cooperation agreement.

2019

2019年4月,公司与中铁十六局、雄安工业设计研究院的三方战略合作签约。8月,公司被河北省科学技术厅认定为河北省国际科技合作基地。

In April 2019, the company signed a tripartite strategic cooperation contract with China Railway 16th Bureau and xiong'an industrial design and Research Institute. In August, the company was recognized as the international science and technology cooperation base of Hebei Province by the science and Technology Department of Hebei Province.

2020 至今

公司陆续被评为“国家绿色工厂”、国家“专精特新重点小巨人”企业,依托自有五大省级科研平台,在智慧节能管道研发领域重点发力,助力国家双碳目标达成

The company has been rated as a "National green factory" and a "National small giant", relying on its own five provincial-level scientific research platforms, focusing on the research and development of smart energy-saving pipelines, help countries reach double-carbon targets.

诚

Development
of Sincerity
诚之开拓

每一步深扎,都是不断蓄势的过程,
只有厚积薄发,方能开拓新的天地

Every step of deepening is a process of
constant momentum. Only by accumulating and
developing, we can open up a new world

PRODUCT LINE

兴邦产品系列

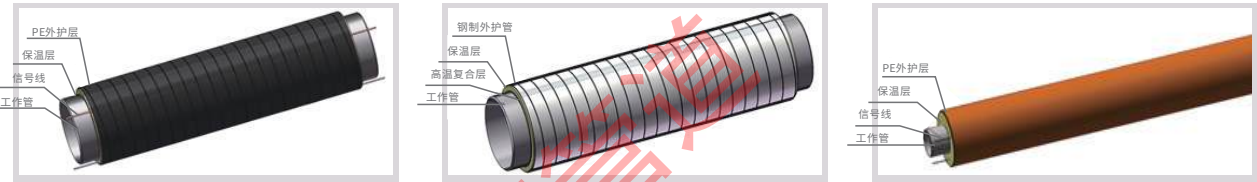

兴邦公司专注于防腐、绝热保温领域，为城镇智慧供热、石油化工、城市综合管廊研发生产五大系列300余种产品，全面满足客户个性化定制需求。

Xingbang company focuses on the field of anti-corrosion, and insutation, develops and produces five series of more than 300 kinds of products for urban intelligent heating, petrochemical industry and urban comprehensive pipe gallery, and fully meets the customized needs of customers.

供热、供冷管道

HEATING AND COOLING PIPES

服务于城镇集中供热、供冷等保温工程领域。主要生产工艺有一步法保温管、两步法保温管、喷涂缠绕保温管。It serves for urban central heating, cooling and other insulation engineering fields. The main production process includes one-step insutation pipe, two-step insutation pipe and spray wound insutation pipe.

防腐管道

ANTICORROSIVE PIPELINE

PE防腐埋地管道用于输送水、石油、天然气等介质，工作温度50-70℃，其具有防腐性能好，吸水率低、机械强度高高性能。

PE anticorrosive buried pipeline is used to transport water, oil, natural gas and other media. Its working temperature is 50-70 °C. It has good anticorrosive performance, low water absorption and high mechanical strength.

智能监测管网系统

INTELLIGENT MONITORING PIPE NETWORK SYSTEM

包括外置光纤测温系统、内置阻抗检测系统、井室监控系统、城市地下综合管廊系统。It includes external optical fiber temperature measurement system, internal impedance system, well monitoring system and urban underground comprehensive pipe gallery system.

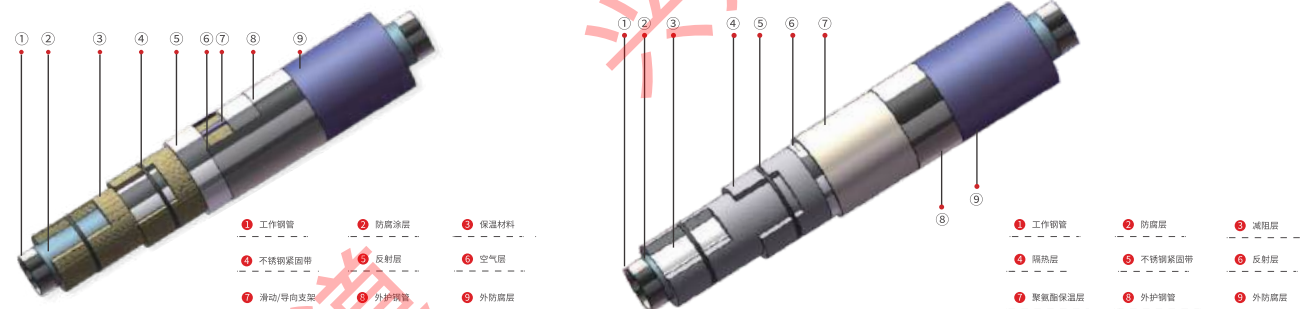

高温介质管道

HIGH TEMPERATURE MEDIUM PIPELINE

适用于不超过350℃的热水、蒸汽、热油、热物料等物质的传输。It is suitable for the transmission of hot water, steam, hot oil, hot materials and other substances not exceeding 350 °C.

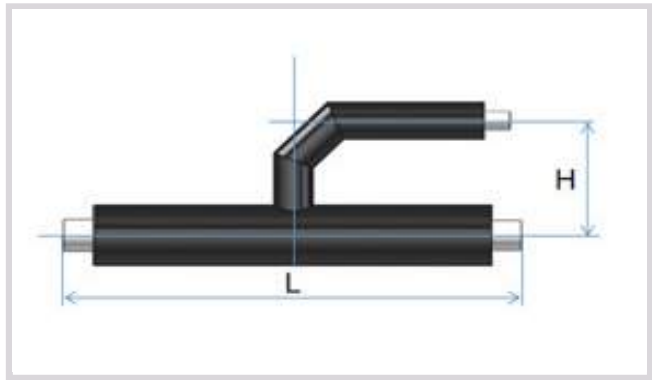

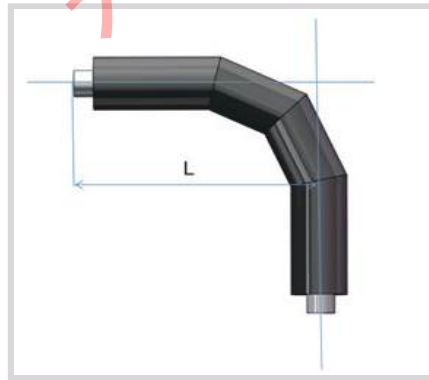

执行标准 Executive Standard
CJ/T246 - 2018《城镇供热预制直埋蒸汽保温管及管路附件》
CJ/T104 - 2014《城镇供热直埋蒸汽管道技术规程》

现场接口施工材料及管件

SITE INTERFACE CONSTRUCTION MATERIALS AND PIPE FITTINGS

主要有热熔套、套袖、保温弯头、三通、异径、阀门、补偿器等管件。It mainly includes hot melt sleeve, sleeve, insulation elbow, tee, reducer, valve, compensator and other pipe fittings

HONORARY CERTIFICATES

兴邦荣誉资质

UNIQUE ADVANTAGES

兴邦特有优势

把握产品研发主导权,始终站在行业前沿。

Grasp the leading power of product R & D and always stand at the forefront of the industry

强大的研发实力

Industry Leading R & D Strength

- 143项国家技术专利, 22项计算机软件著作权;
- 57部国家和行业相关标准的制定;
- 国家CMA/CNAS实验室认证;

143 national technology patents and 22 computer software copyrights;
57 national and industrial standards;
2 national level laboratory certification;

雄厚的企业实力

Strong Enterprise Strength

- 6大管理体系认证管理;
- 国家首批工业生态设计示范企业;
- 国家高新技术企业;
- 保温管道技术创新中心;
- 欧盟CE认证的防腐保温管道企业并取得欧洲热电协会EHP认证证书;
- 国家制造业单项冠军企业

6 management system certification management;
The first batch of National industrial ecological design demonstration enterprise;
National high-tech enterprises;
Heat preservation pipeline engineering technology research center;
EU CE certified anti-corrosion and thermal insulation pipeline enterprise and obtained EHP certificate of European Thermal Power Association;
National manufacturing single champion enterprise.

生产供货保障能力

Production and Supply Support Capacity

- 30年专注行业发展; 3000公里年生产量;
- 2000公里现货库存; 9000公里管道应用, 4大洲200+城市使用;
- 28条各规格保温管生产线; 200余套管道生产检测设备;
- 2小时内到达项目现场提供服务;

30 years focus on industry development; Annual production of 3000 km;
2000 km stock; 9000 km pipeline application, 4 continents 200 + cities use;
28 insulation pipe production lines of various specifications;
More than 200 sets of pipeline production and testing equipment;
Arrive at the project site within 2 hours to provide services;

TECHNOLOGY LEADS THE FUTURE

领创·科技引领未来

深耕于供热、供冷领域，引进欧洲先进的能源模式和技术工艺；
与科研院所共同组建研发中心，研发高效节能，且具备高安全性的智能管道系统；采用现代信息、环保技术，建设绿色低碳、智能高效、环保宜居且具备优质公共服务的新型城市。

We have been deeply engaged in the fields of heating and cooling, and introduced advanced European energy models and technologies;
Establish R & D center together with scientific research institute to develop intelligent pipeline system with high efficiency, energy saving and high safety; adopt modern information and environmental protection technology to build a new city with green, low-carbon, intelligent, efficient, environmental friendly, livable and high-quality public service.

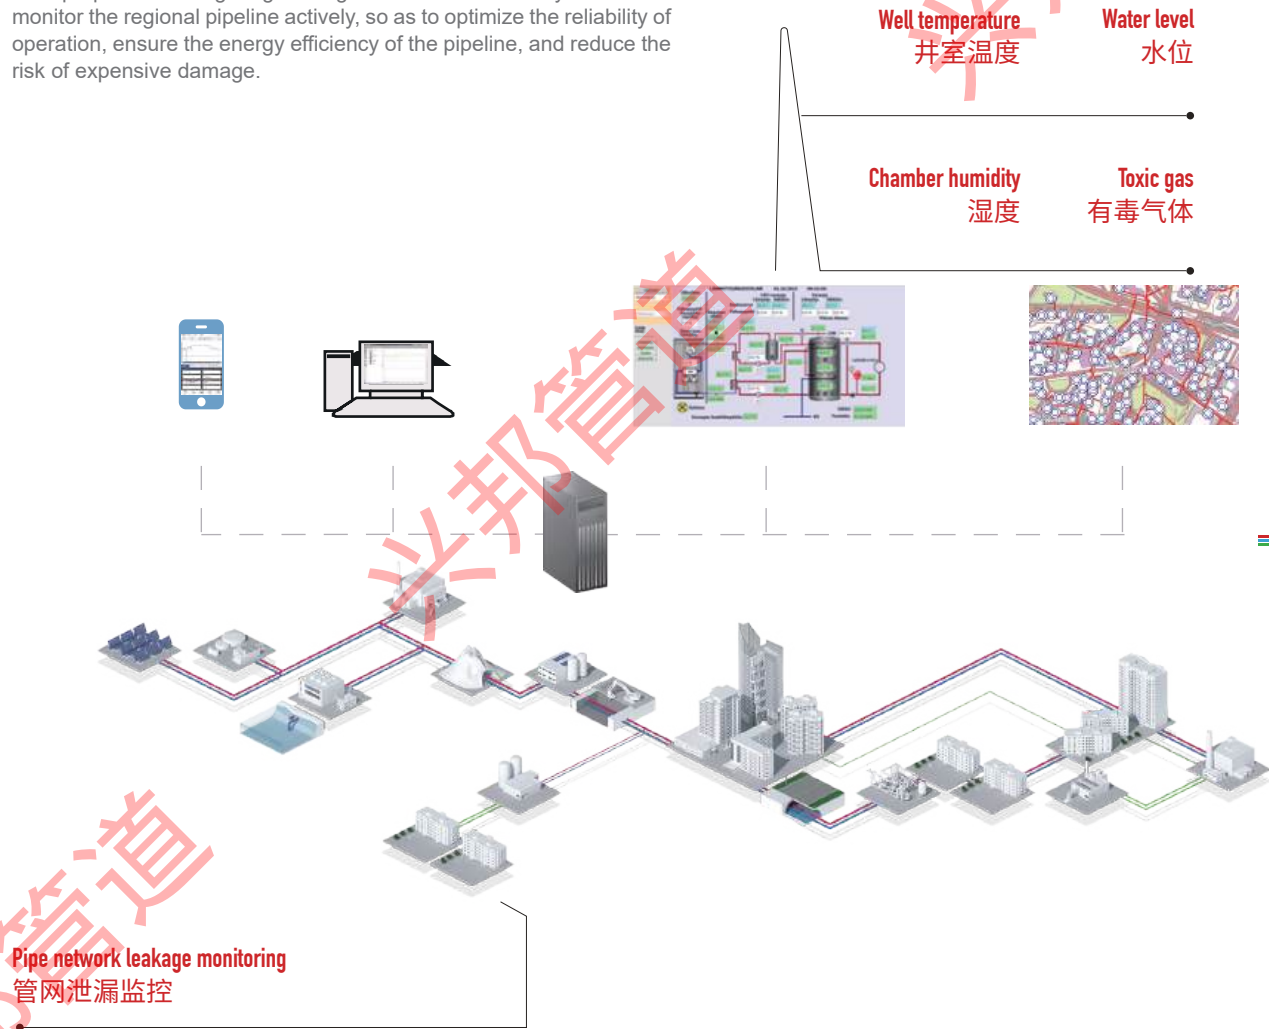

INTELLIGENT PIPE NETWORK

智能管网

兴邦智能检漏系统的目的是主动监控区域管道,从而优化运行的可靠性,确保管道的能源效率,并降低造成昂贵损害的风险。

The purpose of Xingbang intelligent leak detection system is to monitor the regional pipeline actively, so as to optimize the reliability of operation, ensure the energy efficiency of the pipeline, and reduce the risk of expensive damage.

SYSTEM CHARACTERISTICS

系统特点

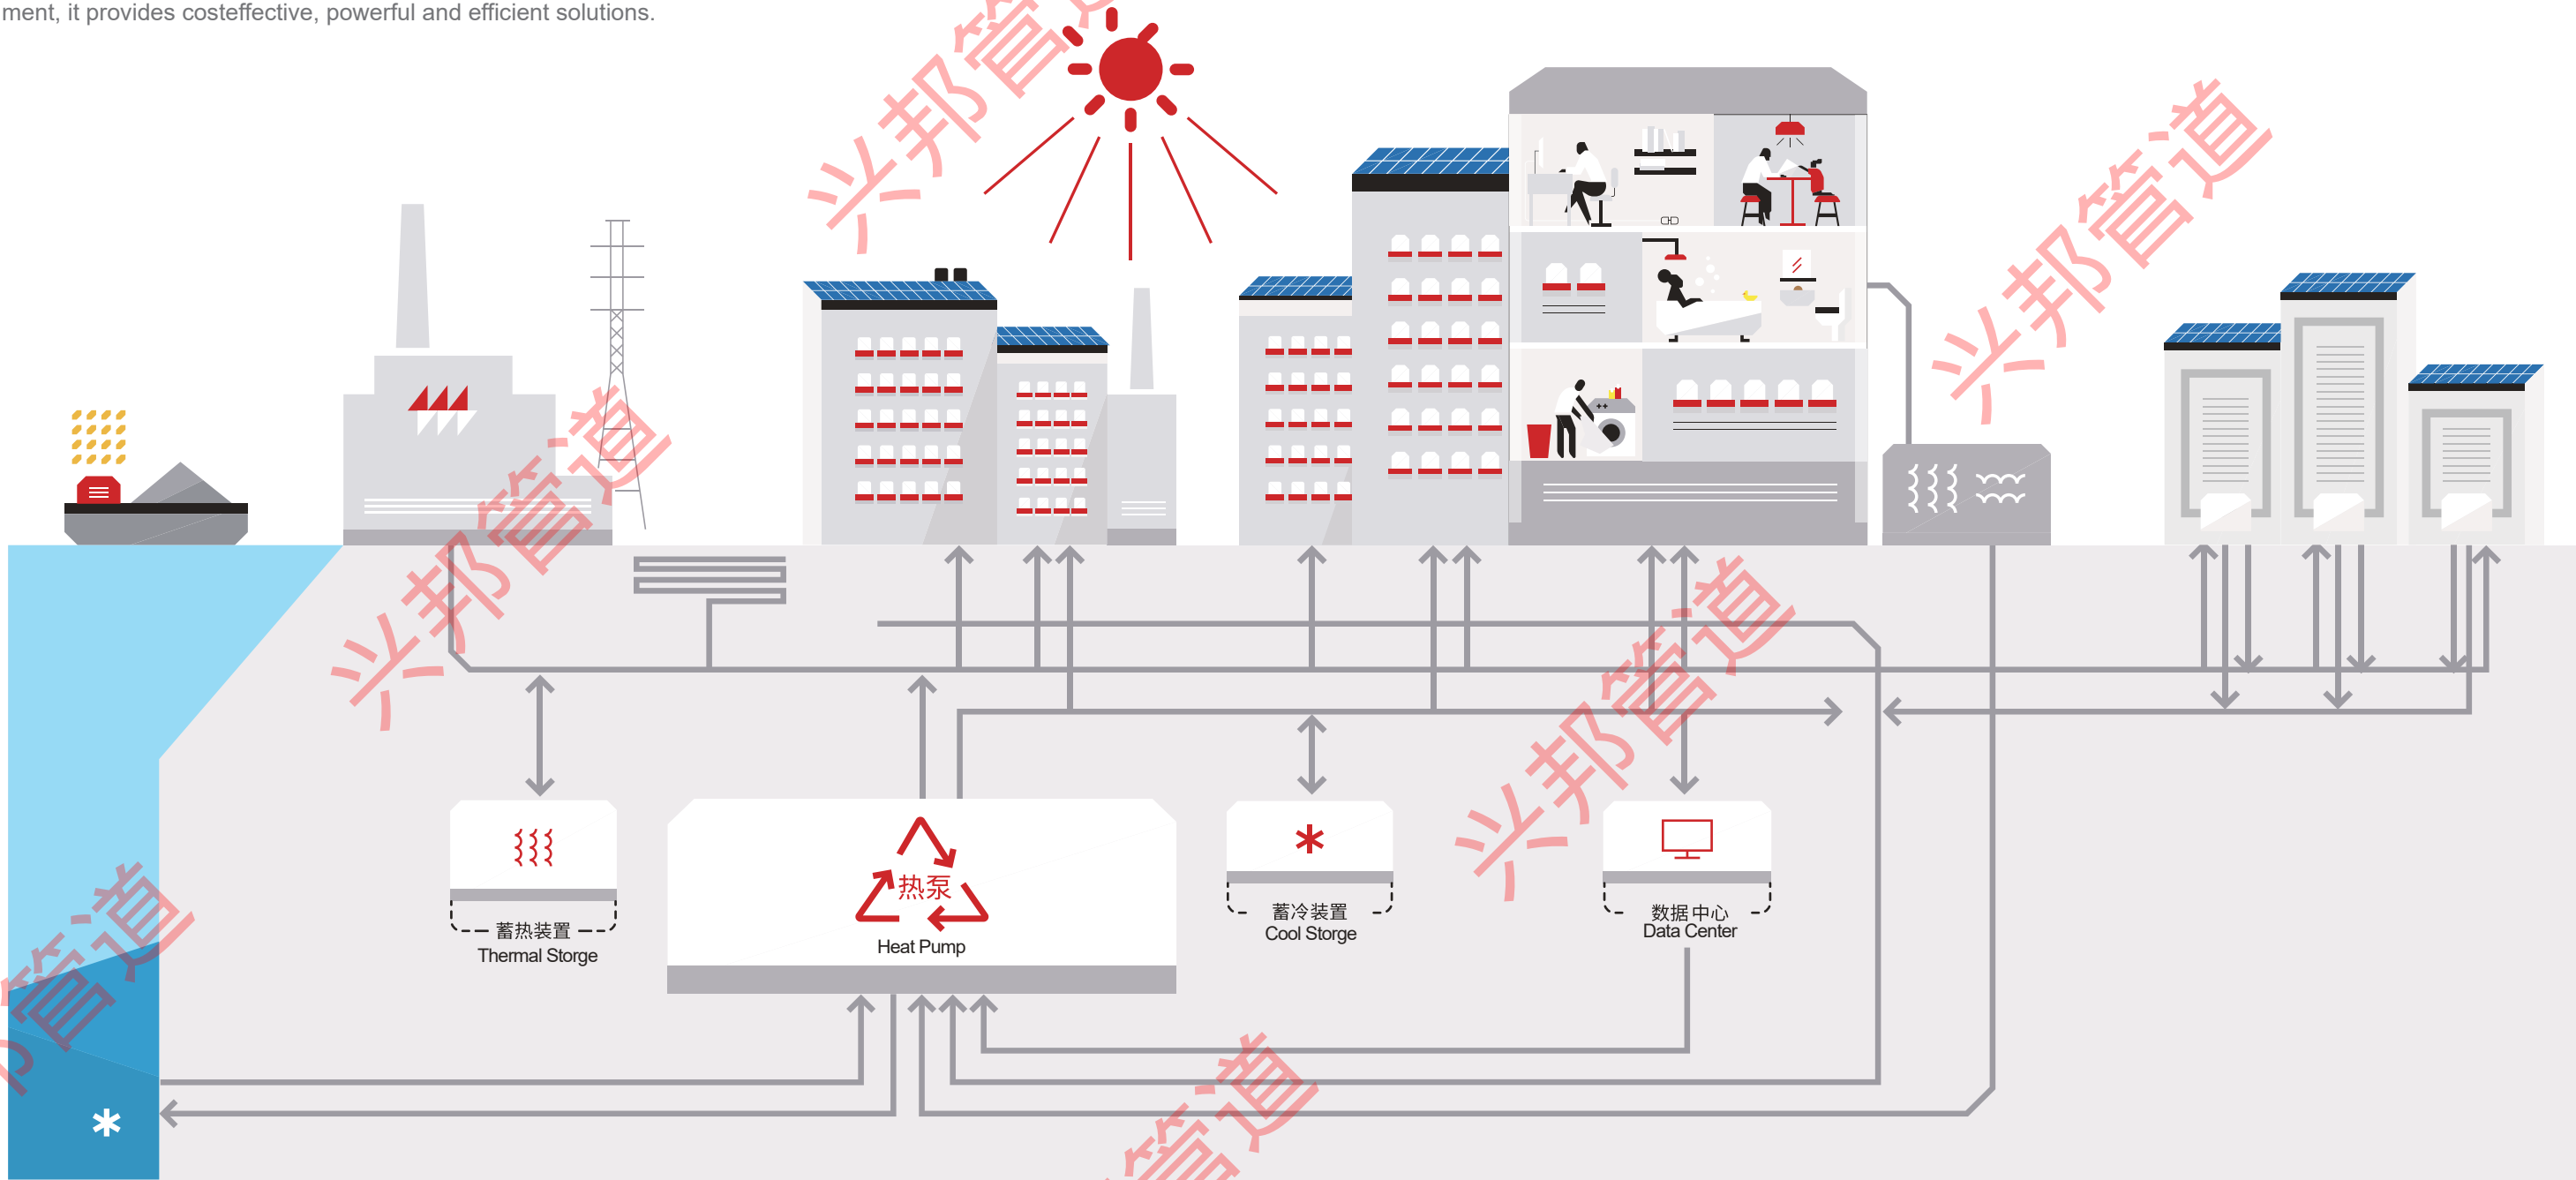

- **Early warning**
轻微损坏早期预警
尽早响应,有更多的时间来计划和采取适当的行动,在事件升级之前修复管线。
Respond early and have more time to plan and take appropriate action to repair the pipeline before the event escalates.
- **Continuous, real-time monitoring**
连续、实时监控
渗漏第一时间发出报警,摆脱人工巡查才会发现的滞后。
When exceptions and events occur, an alarm should be given in time, rather than waiting for manual inspection.
- **Quick response**
反应迅捷
通过APP短消息及时通知客户。
Inform customers in time via app SMS.
- **Precise positioning**
精确定位
将渗漏位置锁定在1米之内
Organize responses based on the location of the event.
- **No blind area**
无盲区
整个管道长度或跨度的监测,查看监视管道中任何位置的异常。
Monitor the length or span of the whole pipeline, and check the abnormalities at any position in the monitored pipeline.

COMPREHENSIVE SOLUTIONS

为能源规划提供全方位的解决方案

我们引进芬兰的能源模式，将规划、设计和项目管理相结合，提供经济高效，功能强大的解决方案。

We introduce Finland's energy model, plan and design combined with project management, it provides costeffective, powerful and efficient solutions.

诚

Sincerity for
The People
诚之为民

担于责 汇于心
以爱之名温暖社会

Take responsibility gather in heart
Warm society in the name of love

FULL SERVICE

全方位服务

兴邦综合服务平台

XINGBANG COMPREHENSIVE SERVICE PLATFORM

为每个项目建立驻现场专业服务队，一对一，点对点进行全程服务；
现场服务工程技术人员24小时待命，可随时到达现场实施服务。
配备现场施工专用车，可实现发电、喷砂和高压机械发泡，保证现场接头质量。
独立运输车队保证在非常时期及时将产品运到施工现场。
免费为客户提供技术咨询、技术培训、技术指导和技术资料。

Set up a professional service team on site for each project, providing one-to-one, point-to-point full service;
on site service engineers and technicians are on standby 24 hours, and can arrive at the site for service at any time.
Equipped with special vehicle for site construction, it can realize power generation, sand blasting and high-pressure mechanical foaming, and ensure the quality of field joint.
The independent transport team ensures that the products will be delivered to the construction site in a timely manner in an extraordinary period.
Provide technical consultation, technical training, technical guidance and technical data for customers free of charge.

公司发货车 COMPANY DELIVERY TRUCK

后续专业化服务

FOLLOW UP PROFESSIONAL SERVICES

实行定期回访制，及时为客户解决管网运行过程中的问题
专业化维修服务：公司专业技术人员为客户提供设备的维修、检修、升级、改造。
为客户提供专业的远程设备状态管理服务，对于专业设备特别是智能化设备，可为客户进行远程的监控服务。
为客户提供专业化的系统备件服务。

Implement regular feedback system to solve problems in the operation of pipe network for customers in time
Specialized maintenance service: the company's professional and technical personnel provide customers with equipment maintenance, overhaul, upgrading and transformation.
Provide customers with professional remote equipment status management services. For professional equipment, especially intelligent equipment, remote monitoring services can be provided for customers.
Provide professional system spare parts service for customers

TRUSTED PARTNER

信赖伙伴

公司成立至今,兴邦管道与750+政府、商业伙伴建立了良好的合作关系,他们在世界各地见证了兴邦的品质,见证了兴邦的成长。

Xingbang pipeline has established a good cooperative relationship with 750+ government and business partners Since it's establishment. They have witnessed the quality and growth of Xingbang around the world.

SOCIAL RESPONSIBILITY

社会责任

推动智能管道发展,助力智慧城市建设

展望未来的兴邦管道,我们坚守“传递温暖、服务供热”的企业使命,在恪守商业伦理、追求企业价值的同时,以节能环保、大众幸福为己任,努力以实际行动回馈社会,促进人与自然和谐发展。

Promote the development of smart pipeline and help the construction of smart city
Looking forward to the future Xingbang pipeline, we adhere to the corporate mission of "delivering warmth and serving heating", adhere to business ethics and pursue corporate value, take energy conservation, environmental protection and public happiness as our own responsibility, strive to give back to the society with practical actions, and promote the harmonious development of human and nature.
