We Make Your Projects Easier

Brief Introduction:

Founded in 2000, EG Valves Manufacturing Co., Ltd is a professional valve manufacturing and trading combo specializing in R & D, manufacturing and exporting superior industrial valves.

We offer consumers a wide range of valve products including gate valves, globe valves, ball valves, butterfly valves, check valves, plug valves and strainers, which have been well accepted by more than 60 countries and regions in Europe, North America, Latin America, and the Middle East. Our valves are manufactured according to ANSI, DIN, BS and JIS standards or as per the client's requirements. All of them are made under ISO9001 certified processes. We have also got the approvals for CE/PED, API6D and CQC certifications.

With over 23 years of effort, we have obtained a good reputation depending on stable quality control and moderate prices. Now every year over 10 million dollars worth of valves are delivered to every corner of the world. To supply a perfect product also means supplying perfect service with strict quality control, favorable delivery and precise documentation.

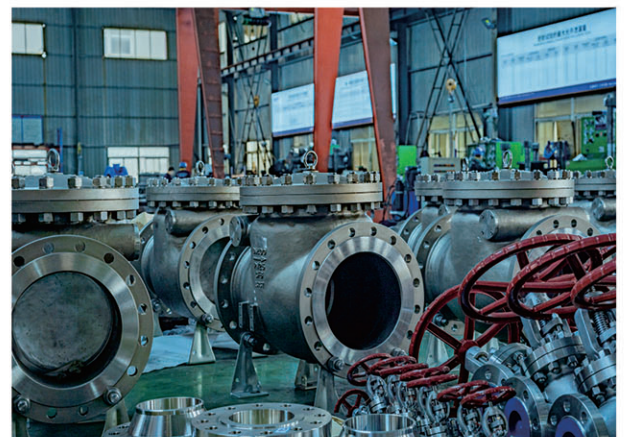

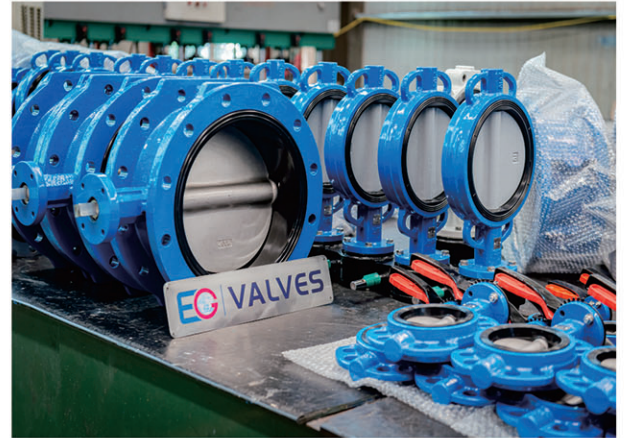

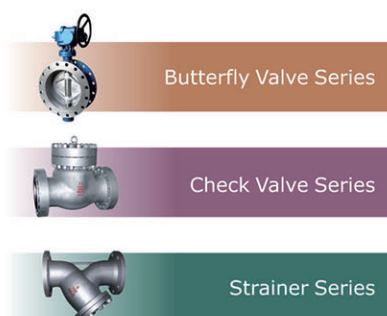

We have big investments in many factories, thus we have built up a strong throughput, so whether the raw material is going down or up, we are always the one who can offer you reasonable prices and the best quality together.

EG Valves are to create and maintain relations with every valued client with heartfelt services. For more information about our valves and our services, contact us today.

Compared to most other suppliers, EG Valves have 7 main advantages as below:

1. We offer our clients a wide range of valve products including Gate valves, Globe valves, Ball valves, Butterfly valves, Check valves, Plug valves and Strainers.
2. Various materials are available for your choice. (Cast Iron, Ductile Iron, Cast Steel, Forged Steel, Stainless Steel and Alloy Steel, etc.)
3. We are familiar with the international requirements, our products are manufactured according to ANSI, API, DIN, BS and JIS standards.
4. We build a strict QC team equipped with CMM from Switzerland, precise fits and consistent quality are ensured to all our customers.
5. With continuous effort, now we successfully get the approvals for ISO 9001, API-6D, CE(Module H), and OHSAS certifications.
6. As a one-stop supplier with competent experience, when working with us, you don't need to split your one project into many separate orders sourcing from many different suppliers.
7. Our city Wenzhou is a famous valves center in China, both the seaway and airway are convenient. Timely delivery is guaranteed to all our valued clients.
