YOUR TRUSTED PARTNER IN BUILDING ENVELOPE & FINISHING SOLUTIONS

Green BIO focuses on practical, project-based building material supply for global clients. This catalog presents our product matrix for cold storage, construction, interior finishing, industrial support, and project procurement needs.

<p>1 Insulated Building Solutions</p> <p>PIR cold room panels, fire-rated panels, insulation rubber pipe and HVAC/refrigeration materials.</p>	<p>2 Structural & Project Materials</p> <p>Heavy-duty steel supports, construction accessories, plywood, aluminum coils, plates and profiles.</p>	<p>3 Export & Procurement Support</p> <p>Product recommendation, customized options, project-based supply coordination and export standard packaging.</p>
---	--	--

Product Matrix

<p>PIR Cold Room Panels</p> <p>Cold chain, warehousing and temperature controlled rooms</p>	<p>Decorative Wall & Ceiling Panels</p> <p>Interior and exterior finishing applications</p>
<p>Steel Support Systems</p> <p>Formwork, temporary support and site safety</p>	<p>Plywood & Construction Boards</p> <p>Project materials and furniture/interior use</p>
<p>Aluminum Coils, Plates & Profiles</p> <p>Construction, fabrication and finishing</p>	<p>Tyres & Rubber Pipe</p> <p>Industrial, engineering and HVAC/refrigeration supply</p>

COMPANY PRESENTATION

FACTORY PHOTOS & APPLICATION SCENARIOS

A visual overview of Green BIO building material solutions, product applications, factory/company images and scenario-based marketing posts.

1. ENGLISH COMPANY BROCHURE

2. RATIONAL FACTORY / COMPANY PHOTOS

3. APPLICATION SCENARIO POSTS (3 DIFFERENT SCENARIOS)

APPLICATION SCENARIO 1 COLD STORAGE PROJECTS

Our PIR Sandwich Panels are widely used in cold rooms, frozen storage, food processing plants and logistics centers, providing excellent thermal insulation and energy efficiency.

- Thermal Insulation
- Fire Resistance
- High Strength
- Energy Saving

APPLICATION SCENARIO 2 FURNITURE & INTERIOR DECORATION

Melamine Plywood and WPC Wall Panels are ideal for cabinets, wardrobes, wall decoration, interior doors and commercial furniture with beautiful surfaces, easy cleaning and stable performance.

- Beautiful Surface
- Easy to Clean
- Stable Performance
- Multiple Designs

APPLICATION SCENARIO 3 CONSTRUCTION & BUILDING PROJECTS

We provide steel support systems and high-quality building materials for commercial buildings, temporary constructions, industrial plants and other engineering projects.

- Strong Structure
- Easy Installation
- Customizable Solution
- Wide Application

- [Cold Storage Projects](#)
- [Interior Decoration](#)
- [Construction Projects](#)
- [Factory & Storage](#)
- [Global Supply Support](#)

GREEN BIO SUPPORTS INTERNATIONAL CUSTOMERS

The catalog also highlights complete procurement support: product recommendations, customized specifications, quotation support, packaging, container loading and shipping coordination.

GREEN BIO
Building a Greener Future

GREEN BIO SUPPORTS INTERNATIONAL CUSTOMERS

WITH COMPLETE PROCUREMENT SERVICE FROM CHINA

WE HELP CUSTOMERS WITH:

-  Product recommendation
-  Customized size, thickness, color, and material options
-  Bulk order quotation
-  Sample arrangement when available
-  Export standard packaging
-  Container loading support
-  Shipping and document coordination
-  After-sales communication

We aim to provide **reliable** building material solutions with **stable quality, flexible customization, and professional export support.**

YOUR RELIABLE PARTNER FOR

We help customers with:

- 1** Product recommendation based on project requirements
- 2** Customized size, thickness, color and material options
- 3** Bulk order quotation and project-based supply planning
- 4** Sample arrangement when available
- 5** Export standard packaging and container loading support
- 6** Shipping and document coordination

Reliable supply

Quality, customization, export support

GREEN BIO
BUILDING A GREENER FUTURE

PIR COLD ROOM PANELS

Efficient insulation solutions for cold chain, warehousing, and temperature-controlled projects

High insulation performance

Reliable airtight sealing

B1 fire-retardant options

Suitable for cold rooms & food logistics

Customized panel solutions for project requirements

Power your cold chain with **dependable panel systems.**

DECORATIVE WALL & CEILING PANELS

Stylish finishing materials for modern interior and exterior spaces

WPC WALL & CEILING PANELS

PREMIUM TEXTURE & FINISH

FIREPROOF ALUMINUM
GREAT WALL PLATE

Modern aesthetic finishes

Moisture-resistant performance

Fireproof material options

Easy installation & versatile applications

Ideal for hospitality, commercial, office, and residential projects

Upgrade your spaces with
durable decorative solutions.

GREEN BIO
BUILDING A GREENER FUTURE

HEAVY-DUTY STEEL SUPPORT SYSTEMS

Reliable support solutions for construction, formwork, and site safety

Galvanized and durable finishes

Adjustable load-support design

Tripod and accessory options

Custom styles for project needs

HEAVY STEEL SUPPORT PROPS

Thickness	Min	Max	External Diameter	Internal Diameter
1.5-3.5mm	1.7m	3.0m	60mm	48mm
1.5-3.5mm	2.0m	3.5m	60mm	48mm
1.5-3.5mm	2.2m	4.0m	60mm	48mm
1.5-3.5mm	2.5m	4.5m	60mm	48mm
1.5-3.5mm	3.0m	5.0m	60mm	48mm
1.5-3.5mm	3.5m	6.0m	60mm	48mm

ITALIAN STEEL SUPPORT PROPS

Thickness	Min	Max	External Diameter	Internal Diameter
1.5-3.5mm	1.7m	3.0m	56mm	48mm
1.5-3.5mm	1.8m	3.2m	56mm	48mm
1.5-3.5mm	2.0m	3.5m	56mm	48mm
1.5-3.5mm	2.0m	3.6m	56mm	48mm
1.5-3.5mm	2.2m	4.0m	56mm	48mm
1.5-3.5mm	2.5m	4.5m	56mm	48mm
1.5-3.5mm	2.8m	5.0m	56mm	48mm
1.5-3.5mm	3.0m	5.0m	56mm	48mm
1.5-3.5mm	3.5m	6.0m	56mm	48mm

SPANISH STEEL SUPPORT PROPS

Thickness	Min	Max	External Diameter	Internal Diameter
1.5-3.5mm	0.8m	1.4m	48mm	40mm
1.5-3.5mm	1.6m	3.0m	48mm	40mm
1.5-3.5mm	2.0m	3.5m	48mm	40mm
1.5-3.5mm	2.2m	4.0m	48mm	40mm

FRAME / CUSTOM SIZE OPTIONS

Main pipe diameter 42mm, secondary pipe diameter 25mm

Size (mm)	Thickness (mm)	Weight (kg)	Notes
1800×1215×1900	1.2 / 1.5 / 1.7 / 2.0 / 2.5	25-30	Size and shape can be customized
1700×950×1800	1.2 / 1.5 / 1.7 / 2.0 / 2.5	30-60	Size and shape can be customized

Support your projects with **dependable steel systems.**

GREEN BIO
BUILDING A GREENER FUTURE

ALUMINUM COILS, PLATES & PROFILES

Versatile aluminum solutions for construction, fabrication, and finishing applications

Coils, plates, and profiles

Customized processing available

Consistent quality and finish

Suitable for diverse project applications

A reliable source for practical and customizable aluminum materials

Explore more material possibilities with **GREEN BIO.**

PREMIUM TYRES

Reliable tyre solutions for agriculture, industry, engineering, and OTR applications

Built for performance. Engineered for durability.

Strong Grip

High Durability

Reliable Quality

Wide Application

AGRICULTURAL TYRES

- Strong traction
- Wear-resistant
- Self-cleaning tread
- Ideal for farm operations

FIELD & PADDY TYRES

- Excellent self-cleaning
- Low soil compaction
- High flotation
- Perfect for paddy and soft field

INDUSTRIAL TYRES

- High load capacity
- Wear-resistant
- Puncture-resistant
- Stable and safe operation

ENGINEERING TYRES

- Deep tread, strong grip
- Cut & puncture resistance
- Built for harsh conditions
- High stability & long life

OTR TYRES

- Extra deep tread
- Heat & cut resistance
- High load and impact resistance
- For mining and heavy-duty use

Drive performance with **dependable** tyre solutions.

GREEN BIO
BUILDING A GREENER FUTURE

PREMIUM INSULATION RUBBER PIPE

Built for HVAC, refrigeration, and plumbing systems

Thermal. Flexible. Durable.

Thermal Insulation

Moisture Resistance

Flexible Installation

Sound Reduction

HVAC & AIR CONDITIONING

- Ideal for chilled water and A/C piping
- Reduces condensation and temperature loss
- Flexible for bends and joints

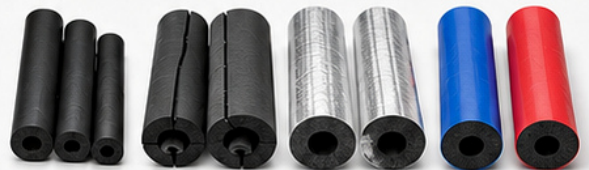

REFRIGERATION & COPPER PIPE

- Suitable for refrigeration and copper service lines
- Available in pre-slit and easy-install forms
- Clean insulation fit for piping systems

VARIOUS TYPES & SURFACE OPTIONS

- Standard tube insulation
- Slit / self-seal type options
- Foil-faced and jacketed variants
- Multiple diameters and wall thicknesses

WIDE APPLICATION

- For residential, commercial, and industrial systems
- Suitable for hot and cold piping insulation
- Reliable performance and neat appearance

Insulate better with **dependable material solutions.**

GREEN BIO
BUILDING A GREENER FUTURE

BUILD SMARTER WITH DEPENDABLE MATERIAL SOLUTIONS

Thank you for reviewing the Green BIO catalog. We support project-based sourcing of building envelope, finishing, structural and industrial materials for international customers.

Catalog Product Coverage

- PIR / Cold Room Panels
- Plywood & Construction Boards
- Insulation Rubber Pipe
- Decorative Wall & Ceiling Panels
- Aluminum Coils, Plates & Profiles
- Procurement Support
- Steel Support Systems
- Premium Tyres
- Project-based Supply
