Diversified Business Models

Self-operated: Directly participate in global chemical trade leveraging our own advantages.

Entrusted: Provide professional agency services to mitigate trade risks for clients.

Core Business: Diversified Commodities & Services

Beyond chemicals, our business scope is extensive, dedicated to providing one-stop trade solutions.

Leveraging busy international port hubs, we've built a global logistics network covering major trade nodes, ensuring the efficient flow of bulk commodities and providing solid logistics support for business expansion.

Full Range of Trading Layout, Broadening Business Boundaries

Non-ferrous Metals & Minerals

Engaged in base metals like copper, aluminum, zinc, and mineral products such as iron ore, with stable supply and extensive channels.

Electromechanical & Medical Equipment

Covers industrial production equipment and Class I, II, III medical devices, with strict quality and compliance control.

Full-Link Supporting Services, Empowering the Entire Trade Process

Integrated Logistics & Customs Clearance

Offers sea/air FCL/LCL services, with a professional customs team to ensure efficient clearance and flow of goods.

Finance & Supply Chain Risk Control

Provides full-process L/C services, cross-border settlement, and integrates overseas procurement with supply chain risk control systems.

Global Network: A Bridge Connecting World Trade

Leveraging the Group's strong global footprint, our business spans five continents, building an efficient, stable, and reliable global trade system.

From busy international container ports to logistics nodes worldwide, our efficient network ensures the safe and timely delivery of goods, providing solid logistics support for global customers.

01 Global Business Coverage

190+ Countries & Regions
Spanning five continents, deep coverage in SE Asia, Middle East, Europe.

73 Overseas Branches
Localized service institutions for market-oriented support.

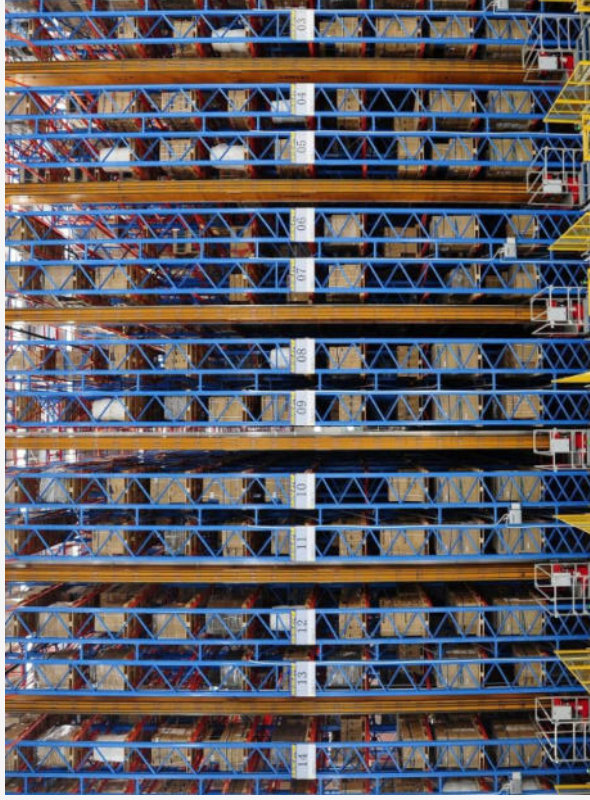

Global Reach
Full-process coverage from procurement to distribution.

02 Mature Trade Channels & Credit System

Backed by the Group's strength, we've built solid channels in overseas markets, especially Belt and Road countries. In chemicals, we have stable partners. Our L/C operations in India and SE Asia are mature, safeguarding every transaction.

Cooperation Advantages: A Trustworthy Partner

Choosing us means choosing professionalism, stability, and security.

Equipped with a modern automated high-bay warehouse, we realize intelligent and standardized warehouse management, ensuring cargo storage safety and logistics efficiency, and providing solid support for supply chain stability.

State-Owned Background, Guaranteed Credibility

Backed by strong state-owned credibility, we are highly recognized by overseas partners; we have established a sound risk control system to effectively avoid international trade risks; with strong capital strength and bank credit, we ensure the smooth flow of large-value trade.

Compliant Operations, Safe & Reliable

We hold a formal hazardous chemicals business license with standardized and rigorous operating procedures. We have long-term and stable export experience in chemical products such as titanium dioxide and antimony ethylene glycol, ensuring the safety of cargo transportation and delivery.

We strictly comply with international trade regulations and national supervision requirements, establishing a full-process compliance review mechanism. From qualification verification to customs clearance and settlement, we comprehensively guarantee the compliance and legality of every business transaction.

Corporate Culture: Integrity, Professionalism, Innovation, Win-Win

Upholding the principle of "Integrity-based, Customer-first", we are committed to becoming the most trusted partner in the global trade field.

Integrity-Based Operation

Uphold integrity as the cornerstone of corporate development, earning respect from customers and the market.

Professional Service

Build a high-quality professional team to provide precise and efficient trade solutions.

Continuous Innovation

Embrace digital transformation and continuously optimize business processes and service models.

Win-Win Cooperation

Establish long-term and stable strategic cooperative relationships with customers, suppliers, and partners for mutual growth.

We believe that only by always adhering to integrity, pursuing professional excellence, and daring to innovate, can we join hands with you to create a brilliant future and realize the beautiful vision of mutual benefit and win-win results.

Thank You

Looking forward to partnering with you for a better future
