2024 吉达Q7商场音乐旱喷泉

2024 Jeddah Mall Musical Dry Fountain Project

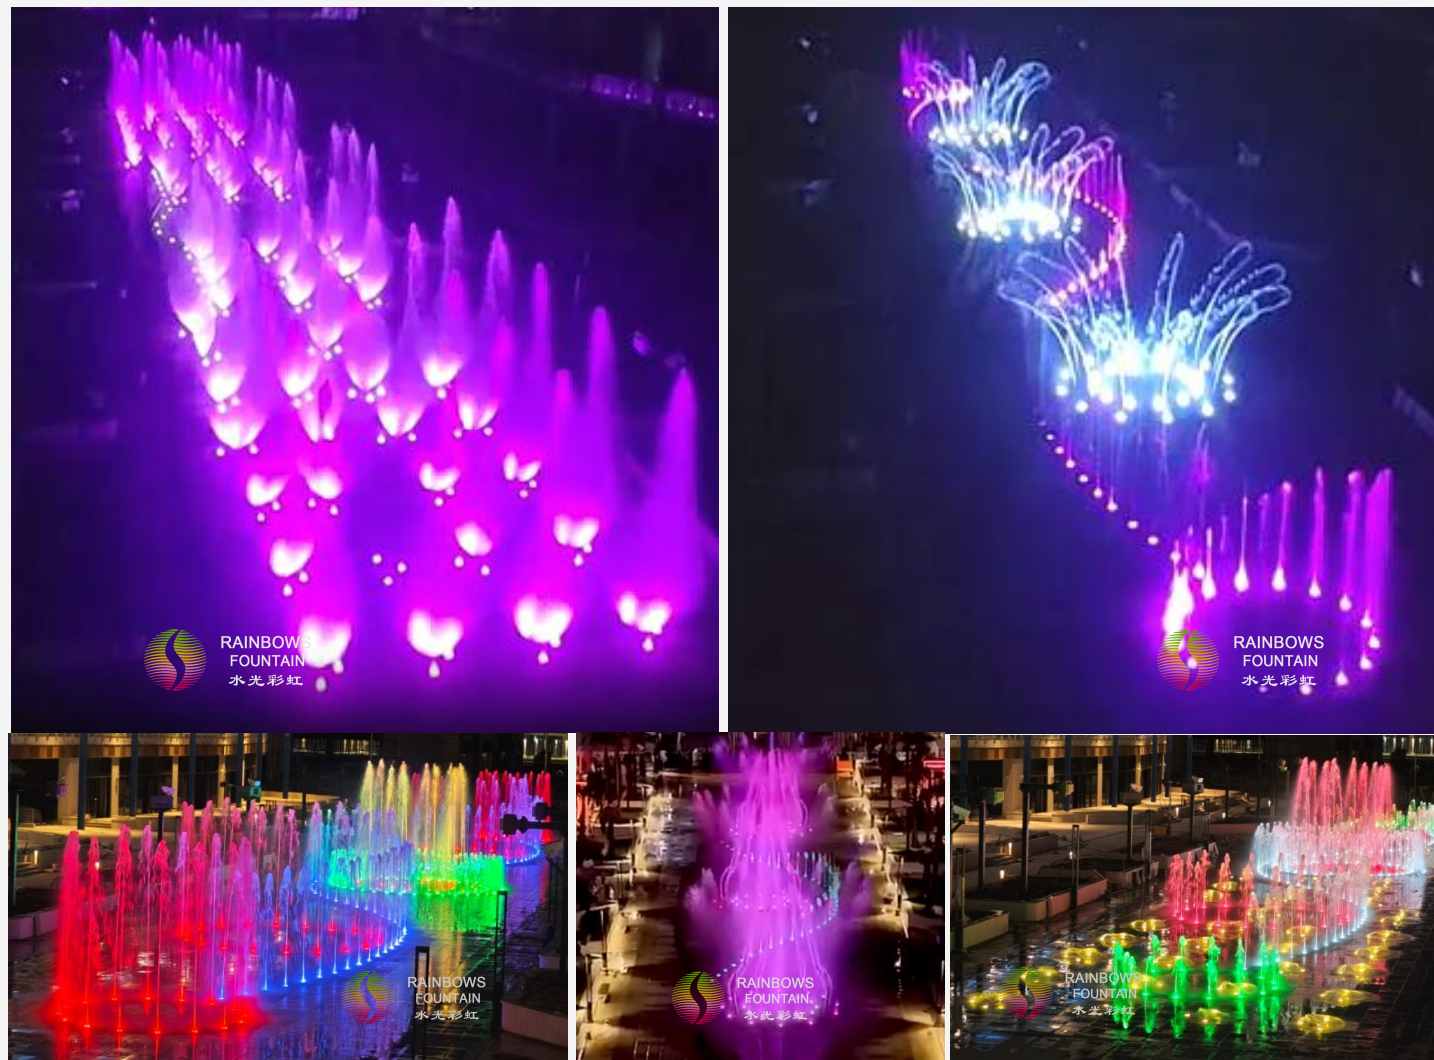

This project features the largest dry deck fountain in Jeddah, designed as a signature attraction for the shopping mall.

The entire system adopts a single nozzle-single pump configuration, enabling independent control of every water jet.

This advanced design allows for highly flexible water movements, rich pattern combinations, and dynamic dancing effects.

The fountain performance is smooth, vibrant, and visually engaging, creating a strong interactive experience for visitors.

Since the mall's opening, the fountain has successfully attracted large crowds and increased foot traffic. It significantly enhanced the mall's visibility, atmosphere, and overall commercial appeal. The fountain quickly became a popular landmark and social media highlight.

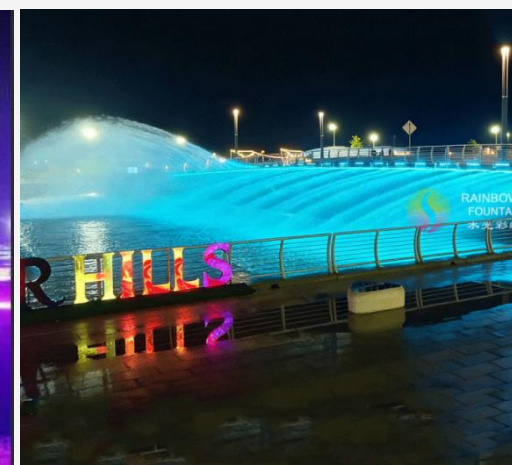

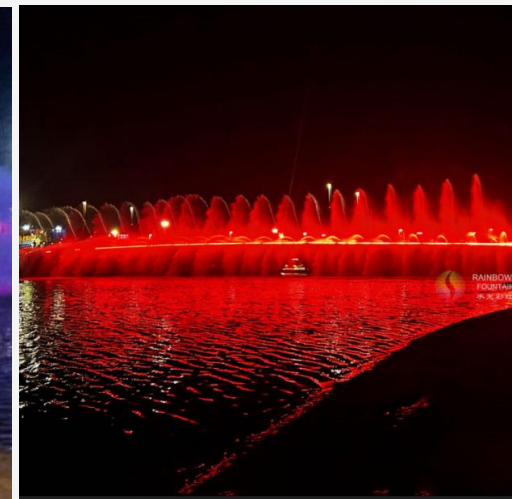

2025 沙特朱拜尔桥梁数字喷泉

2025 Bridge Digital Fountain Project Jubail ,Saudi

This project is a 100-meter bridge fountain installation featuring an advanced one-dimensional dancing fountain system. The fountain is designed to create smooth, rhythmic water movements that flow elegantly along the length of the bridge, delivering a strong visual impact during both daytime and nighttime performances.

The entire system is designed for direct seawater use, with all materials carefully selected to withstand corrosion and ensure long-term, stable operation in a marine environment. The lighting system adopts DMX512 control, allowing precise programming and synchronization between water movements and lighting effects. Through intelligent control and customized show programming, the bridge is transformed into a bright, eye-catching landmark.

As a result, the illuminated bridge quickly became one of the most striking visual highlights of the event, significantly enhancing the atmosphere and leaving a lasting impression on visitors.
