

Fullgreat Metal Ltd.

深圳市富鹏达金属材料有限公司

 会社概況

公司介绍

Company Profile

深圳市富鹏达金属材料有限公司成立于2008年，主要经营无磁不锈钢带，无磁不锈钢线，铝带等金属材料，产品主要用于纽扣拉链及配件，通讯配件/电子产品，汽车配件等产品。公司大部分产品都是自己研发生产。

我公司便在2008年开始了代替铜带的纽扣拉链专用无磁不锈钢的研究和开发，我公司同四川大学合作研发无磁不锈钢带，投入了大量资金经历无数次试验改良，研发了不同的无磁不锈钢品种并获得了多项国家专利。

目前无磁不锈钢带FPD806,808不锈钢线FPD901,902已经大规模用于纽扣拉链，通讯配件，汽车产品，以及航空航天产品。为了满足市场需要，我公司不断开发成本更低性能更优的新无磁不锈钢种，力争为客户带来质优价廉的产品。

Founded in 2008, Fullgreat Metal Ltd. mainly produce non-magnetic stainless steel tape, non-magnetic stainless steel wire, aluminum tape and other metal materials.

Our products are mainly used for button, zippers and clothing accessories, communication accessories/electronic products, automobile accessories and other products. Most of the company's products are self-developed and manufactured.

In 2008, our company began the research and development of non-magnetic stainless steel for button and zipper instead of copper belt. Our company cooperated with Sichuan University to develop non-magnetic stainless steel belt. We invested a lot of money and experienced numerous tests and improvements. We developed different kinds of non-magnetic stainless steel and obtained a number of national patents.

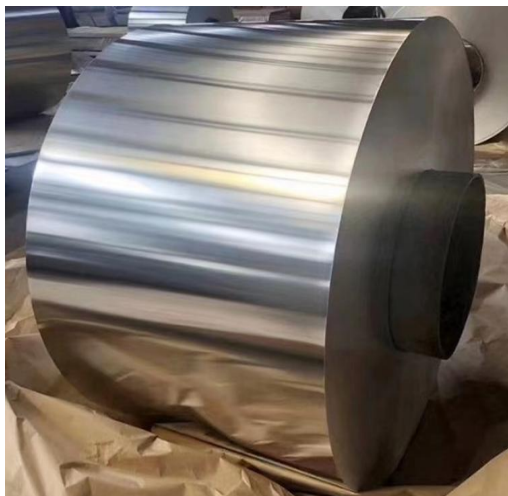

At present, non-magnetic stainless steel strip FPD806,808 stainless steel wire FPD901,902 has been widely used in button zippers, communications accessories, automotive products, as well as aerospace products. In order to meet the needs of the market, our company continuously develops new non-magnetic stainless steel with lower cost and better performance, and strives to bring customers with high quality and low price products.

无磁不锈钢线/带:

FPD902, FPD908

彩色不锈钢 Color stainless steel

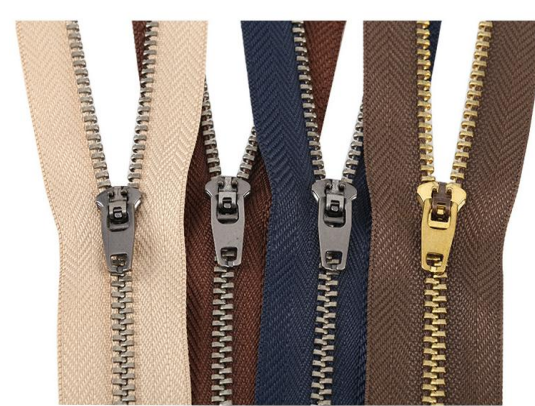

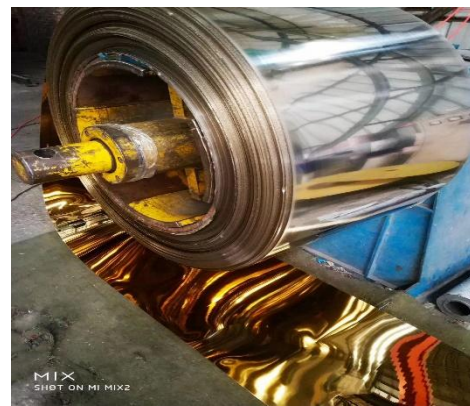

无磁性不锈钢纽扣和拉链电镀色

Non magnetic stainless steel button and zipper electroplate color

我们进一步开发了非磁性不锈钢，对不锈钢轧产品进行了彩色电镀（黑色、金色、古铜色等有色）处理。这样既能满足客户的要求，又能保护环境。目前，部分客户（纽扣、拉链配件）采用彩色电镀。

We have further developed non-magnetic stainless steel and carried out color electroplating (black, gold, bronze and other colors) on stainless steel rolled products. This can not only meet the requirements of customers, but also protect the environment. At present, some customers (buttons, zipper accessories) adopt color plating.

彩色不锈钢 Color stainless steel

纽扣, 拉链, 服饰配件
Buttons, zippers, apparel accessories

电梯门窗等
Elevator doors and windows, etc.

我们进一步开发了彩色非磁性不锈钢，将不锈钢进行真空等离子镀钛处理，可以在不锈钢表面镀成各种颜色（如黑色、玫瑰金、钛金，浅金色等）。既能满足客户对产品的颜色要求，又能满足环保要求。目前已经有一部分顾客在（纽扣、拉链、饰品）采用了彩色无磁不锈钢。

We have further developed color non-magnetic stainless steel. The stainless steel can be plated in various colors (such as black, rose gold, titanium gold, light gold, etc.) by vacuum plasma titanium plating. It can not only meet the color requirements of customers, but also meet the requirements of environmental protection. At present, some customers have adopted colored non-magnetic stainless steel (buttons, zippers, accessories).

发展规划 Development plan

我公司不断提高产品质量增加产能，不断开发新的质优价廉的产品，为客户提供满意的产品和服务。

Our company continuously improves product quality and productivity, and continuously develops new products of high quality and low price, providing customers with satisfactory products and services.

公司引进新的高精密设备，质量及产能大幅提高，月产能达5000-10000吨。

The company has introduced new high-precision equipment, which greatly improves the quality and productivity, with a monthly capacity of 5000-10000 tons.

同大学合作，改善工艺，提高品质，降低成本，继续开发新产品FPD808，提供更优质产品。

Cooperate with universities to improve technology, improve quality, reduce costs, and continue to develop new products FPD808 to provide better products.

公司引入ISO9001，GRS等质量管理体系，加强质量和环保管理

The company obtain ISO 9001 and GRS certification

聘请专业人员，改善公司管理体系，提供产品质量

Employ professionals, improve company management system, and provide product quality
