- Strict Quality Control at Every Stage
- Primary Export Focus: Southeast Asia
- State-of-the-Art Production Facilities
- Consistent & Reliable Supply Chain

"Building Your Vision with Quality ACP"

# WHY CHOOSE JIERSUN

20 Years of Trusted Excellence

Stable Quality

10-15 Days  
Delivery

MOQ 1000 sqm

# Product Categories

Complete ACP Solutions for Every Application

PE ACP

PVDF ACP

Fireproof ACP

Decorative ACP

# PE ACP

## Lightweight & Vibrant Finishes

PE Aluminum Composite Panels are ideal for interior decoration applications, offering smooth surfaces and rich color options that bring modern elegance to any space.

### Product Specifications:

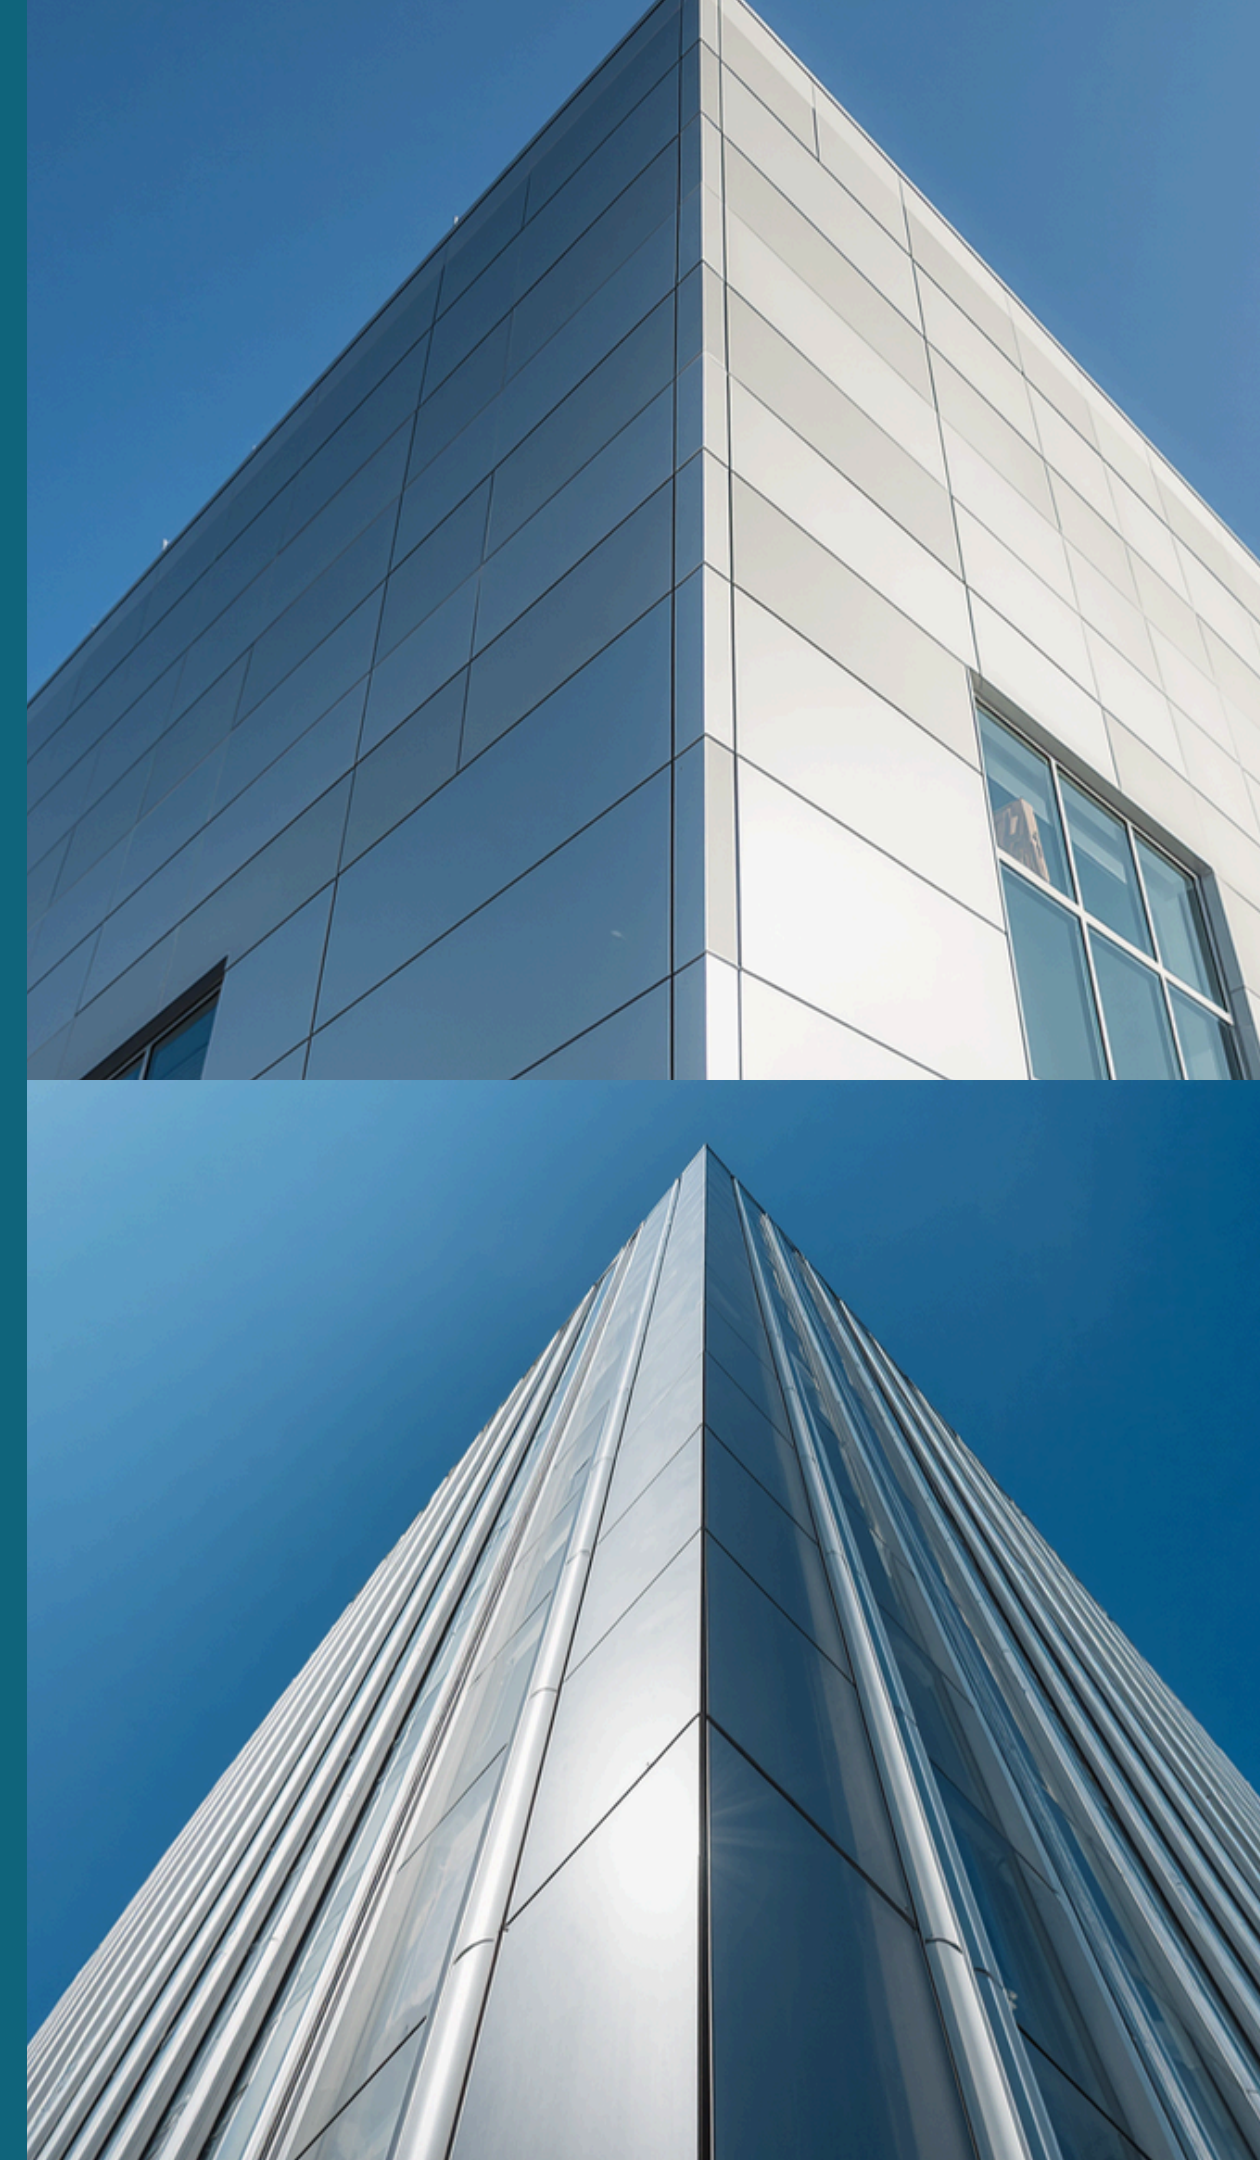

- Thickness: 2-6mm
- Aluminum Thickness: 0.06-0.50mm
- Width: 1220/1500mm
- Customizable Length
- PE Coating for Vibrant Colors

# PVDF ACP

## Premium Exterior Cladding Solution

PVDF Aluminum Composite Panels are engineered for demanding exterior applications where durability and aesthetics are paramount. The advanced PVDF coating provides exceptional resistance to UV radiation, weathering, and environmental pollutants.

- Durable & UV Resistant: Long-lasting color stability
- Weather Resistant: Withstands harsh climates
- Facade Applications: Ideal for modern exteriors
- Thickness: 2-6mm
- Aluminum: 0.06-0.50mm
- Width: 1220/1500mm
- Customizable length and color options

# Fireproof ACP

## Safety-First Cladding Solutions

JIERSUN Fireproof Aluminum Composite Panels are engineered for maximum safety without compromising on aesthetics. Ideal for high-rise buildings, commercial complexes, and public facilities where fire safety regulations are paramount.

### Key Specifications:

- Fire Rating: B1/A2 certified
- Thickness: 2-6mm
- Aluminum Thickness: 0.06-0.50mm
- Width: 1220/1500mm
- Customizable length and color options
- Non-combustible mineral core

# Decorative ACP

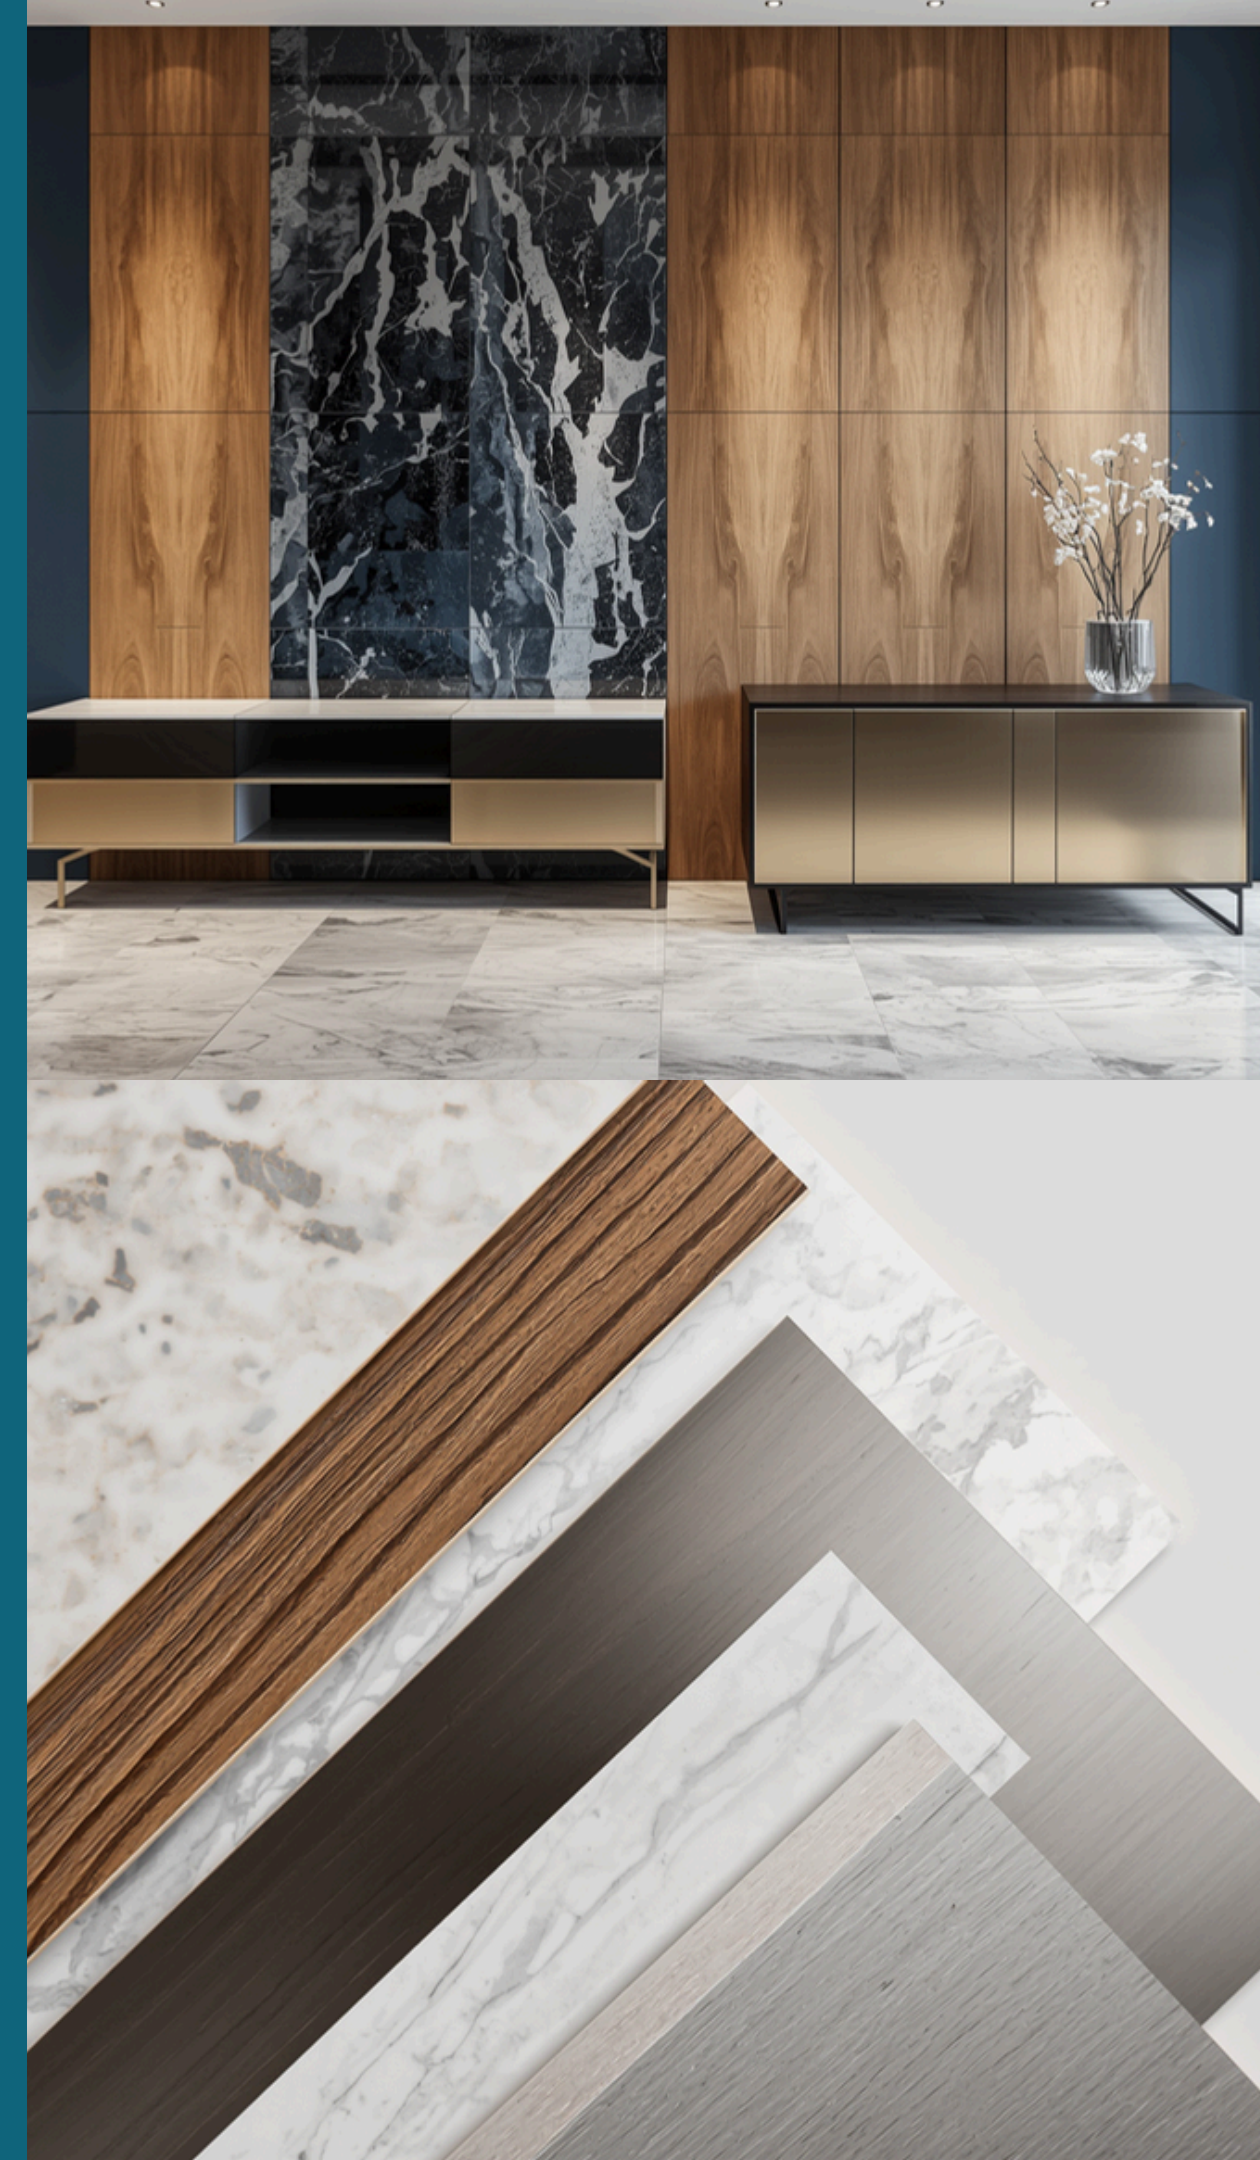

## Stylish Finishes for Every Design

Transform interiors and furniture with our premium decorative aluminum composite panels featuring elegant wood grain, natural marble, sleek mirror, and sophisticated brushed metal finishes.

### Product Specifications:

- Thickness: 2-6mm
- Aluminum Thickness: 0.06-0.50mm
- Width: 1220/1500mm
- Customizable length, color & pattern
- Multiple surface textures available

Ideal for interior walls, ceilings, furniture cladding, and retail displays where aesthetic appeal meets durability.

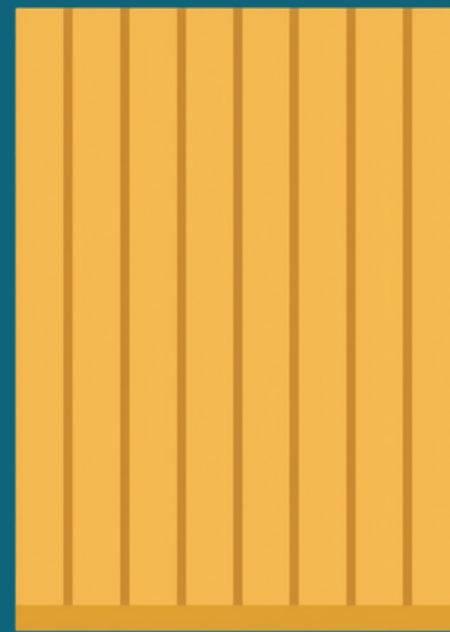

# APPLICATIONS

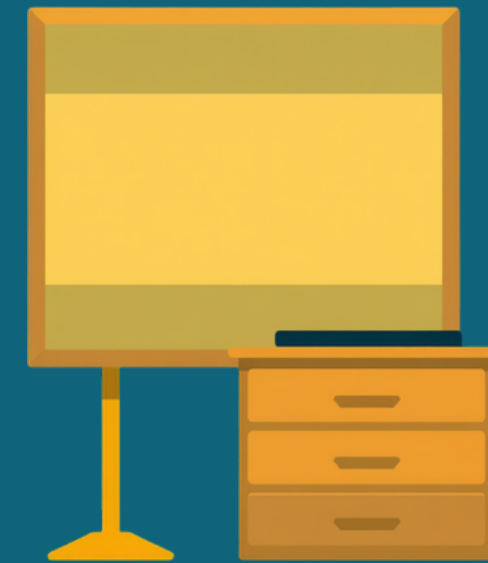

Key Uses for JIERSUN ACP

Exterior Facade

Interior Walls

Signage & Cabinets

# Factory & Certificates
