

LED LINEAR STRIP LIGHT

PRODUCT CATALOGUE

ABOUT US

Zhongshan Xiangpai(XPUP) Lighting Technology Co., Ltd., was established in 2012 and located in Zhongshan City-the lighting capital of China. We are professional manufacturer of LED Linear Light Strips, LED Magnetic Lights and Smart Control. The company is committed to creating an intelligent modern lighting system. "Light Creates Values". The company considers the young generation as the main consumers, and specializes in creating simple, dynamic, professional lighting effects to meet more modern needs. Our factory covers an area of more than 10,000 square meters, and we have set up different departments such as Smart Control R&D Department, Modern Design Department, Internet Business Department and so on, fully dedicated to provide professional product training, product advertising materials, product sales and different services.

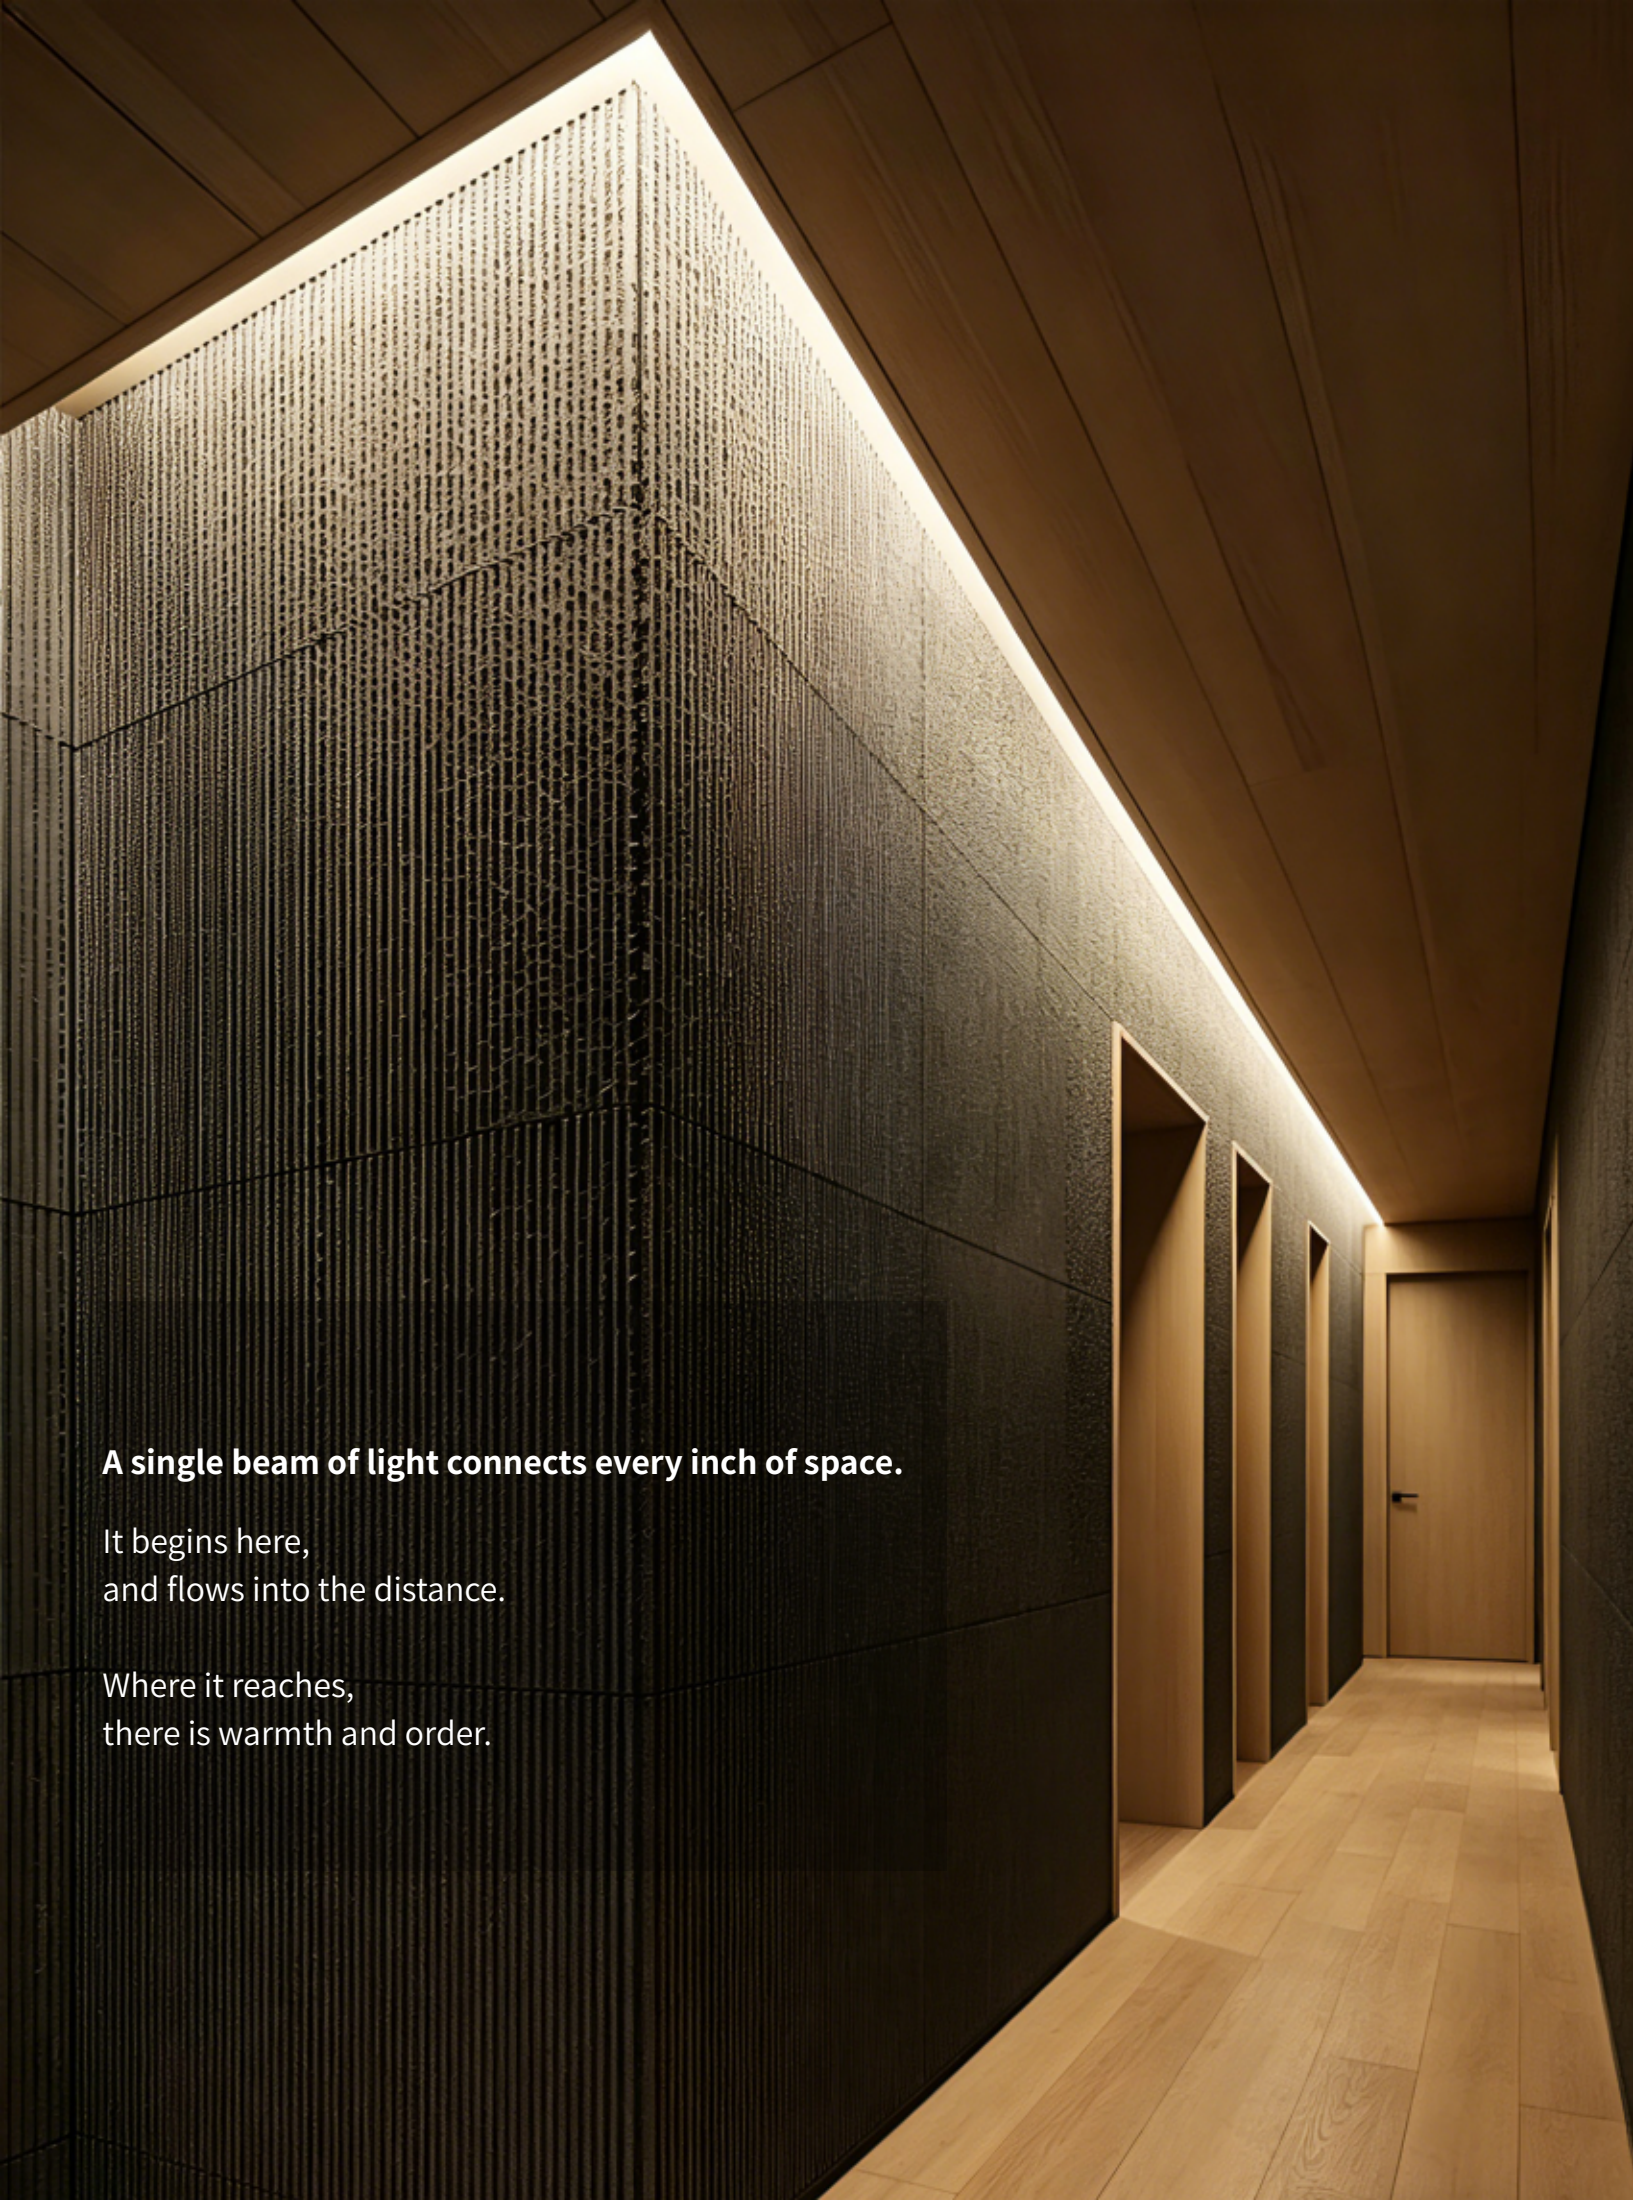

2023-2028, the Five-Years Ambitions, we will persistently focus on our targets and become a pioneer in the LED lighting industry.

A photograph of a modern interior hallway. The left wall is covered in a dark, vertically textured material, possibly perforated metal or wood. A long, thin, linear light fixture is mounted on the ceiling, casting a warm glow. The floor is made of light-colored wood planks. On the right, there are several doorways and a closed door at the end of the hallway. The overall atmosphere is minimalist and sophisticated.

A single beam of light connects every inch of space.

It begins here,
and flows into the distance.

Where it reaches,
there is warmth and order.

Light reshapes space

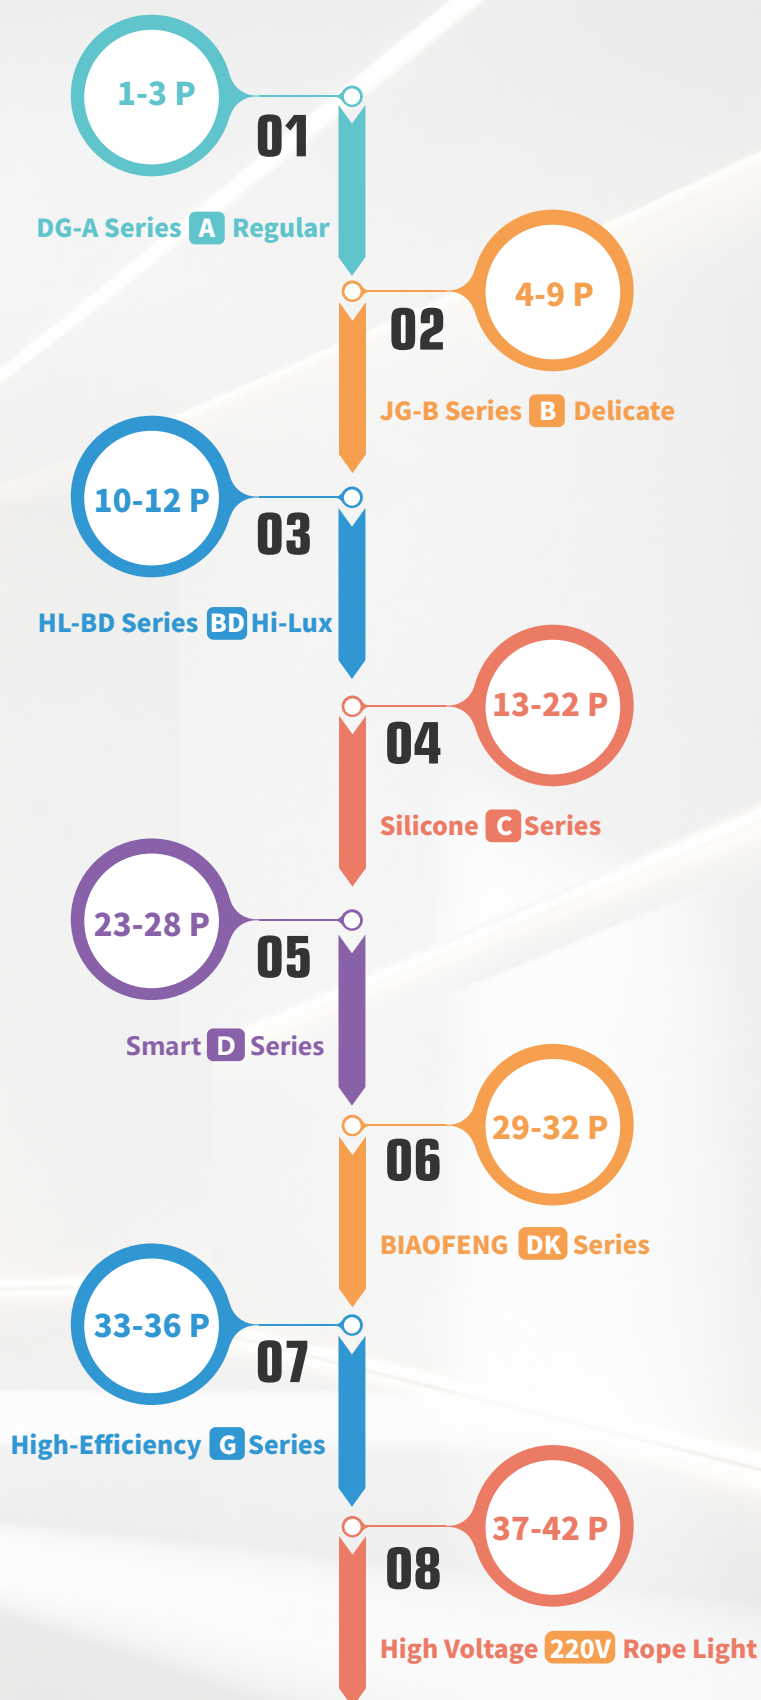

Not to illuminate—
but to connect.

XPUP

Redefining space through light.
