ALUMINUM PROFILE POWDER COATING

White, Black, Silver Matt, Wood,Bronze, Champagne, Gold, Good barrier performance, can prevent the sun, oxygen and damp environment damage to the article, can extend the shelf life of the article

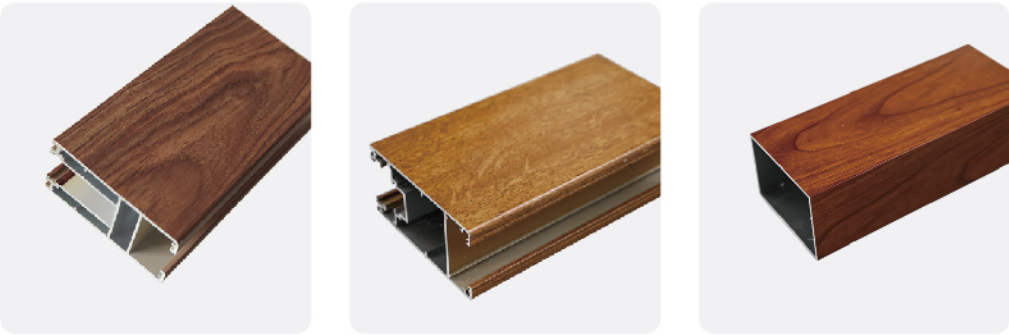

ANODIZING ALUMINIUM PROFILE

Anodic oxidation can significantly improve the corrosion resistance of aluminum alloy, improve the surface hardness and wear resistance of aluminum alloy, after appropriate coloring treatment has good decorative performance, has good light resistance, heat resistance, corrosion resistance and wear resistance.

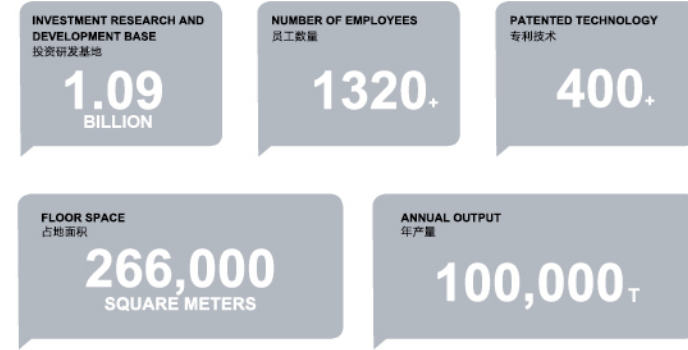

ALUMINIUM WOOD GRAIN

Products have good weather resistance, high temperature resistance, anti-ultraviolet, waterproof anti-pollution, no light pollution, life is more than ten times of wood, can be arbitrarily assembled instead of anti-corrosion wood,PVC,stainless steel and other products.

1 “COMPANY OVERVIEW 公司概况 + ”

As one of the leading enterprises in China, Shandong Haomen Aluminium Co., Ltd. specializes in producing high quality aluminum profiles. Located in Luozhuang District, Linzi City, Shandong, China.

With an investment of RMB 1.5 billion, the company covers an area of 266,000 square meters. Among the 1356 employees, there are 21 senior engineers, and 60 technicians. With a capacity of 80,000MT, the company specializes in the production of building and industry aluminum profile, aluminum sections for decoration.

The company has four founding product lines, thirty six extrusion lines which include 2x4000T lines, 3x3000 T lines, 4x1800 T lines, 4x1650-T lines, 7x1000T lines, 10x800T lines and 6x600T lines.

The company also has three anodizing line, three electrophoresis line, two powder coating line, two wood grain transfer line and three heat insulation line.

Depending on the high quality and excellent service, the products are sold well all over the country.

2 “MANUFACTURING CAPACITY 制造能力 + ”

MANUFACTURING CAPACIT 制造能力

Casting 熔铸	Casting furnace25T 熔铸炉25T	4 lines
Extrusion 挤压	600T - 4000T extrusion 600T -4000T 挤压线	36lines
Surface treatment 表面处理	Surface treatment 氧化线	3 lines
	Powder coating 喷涂线	4 lines
	Wood Grain transfer 木纹转印线	4 lines
	Electrophoresis 电泳线	1 line
	Fluorocarbon coating 氟碳喷涂线	1 line

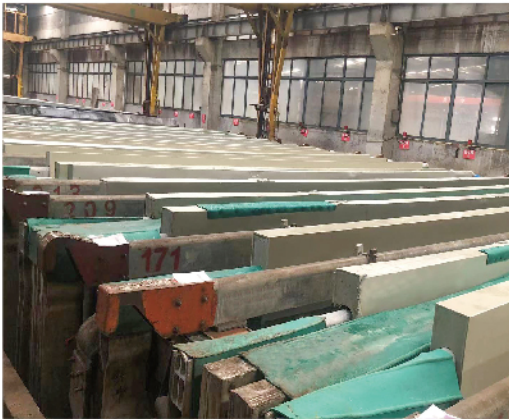

3 “WORKSHOP 车间 + ”

铸锭 Ingot

挤压 Extrusion

阳极氧化 Anodizing

铸造 Casting

粉末涂层 Powder coating

仓库 Stock

4 “LABORATORY 实验中心 + ”

化学分析室 Chemical analysis room

制样室 Sample preparation

盐雾实验室 Salt spray laboratory

断面测量室 Section measuring room

爆破压力实验室 Burst pressure laboratory

性能测试室 Performance test room

光谱分析室 Spectral analysis room

金相分析室 Metallographic analysis room
