We have earned high recognition in overseas markets for our stable quality, competitive prices, and on-time delivery. 98% of our flooring products are for export, with an annual production capacity of 4,000,000m².

Experience our state-of-the-art manufacturing base at our headquarters in Suzhou, China.

**190000**

Factory covers an area of 190 thousand square meters

**500**

Factory workers

**40000**

Standardized plant covers 40 thousand square meters

**4000000**

Production capacity is up to 4 million square meters

# POSSESSES ADVANCED MANUFACTURING EQUIPMENT

Experience our state-of-the-art manufacturing unit in our headquarter of Suzhou, China.

We are committed to provide our clients with the finest-quality engineered wood flooring from well certified, responsibly managed forests. We export worldwide across 28 different countries with clients from large residential and commercial projects, wholesalers and retailers. We have earned great praise of overseas market resulting from high quality, responsible price and accurate shipment. Our flooring products are 98% for export, with average annual turnout of 4,000,000 m².

# GLOBAL DEVELOPMENT

98% of our products are exported to global markets, mainly North America, Europe, the Middle East, Australia, and Southeast Asia.

-  Quality management
-  Trustworthy Partner
-  Continuous Innovation
-  Social Responsibilities
-  Original Design
-  International Layout

We are continuously certified by independent institutions.

At DONGDA, we adhere to the core philosophy of health and environmental protection. We focus on the R&D of innovative materials and create high-quality products wholeheartedly, committed to promoting the sustainable development of the flooring industry. Driven by innovation, we keep exploring upgrades. We believe that real sustainable development relies on technology and innovation. Our production and product quality exceed mandatory standards.

Production and product quality go beyond statutory requirements.

DONGDA continuously strengthens R&D, optimizes product structure and performance, reduces environmental pressure at the source, and fulfills our environmental mission. We insist on using eco-friendly materials, reduce dependence on new resources, and ease the burden on the environment.

# OUR ADVANTAGES

- Excellent Stability
- Eco-Friendly
- Over 20 years of export experience
- Multiple international certifications
- Automated high-capacity lines
- Customizable size & design

Our Artistic Collection adds a stylish touch to your interior, creates a warm home atmosphere, and brings comfort underfoot. It offers long service life and enhances the value of your property.

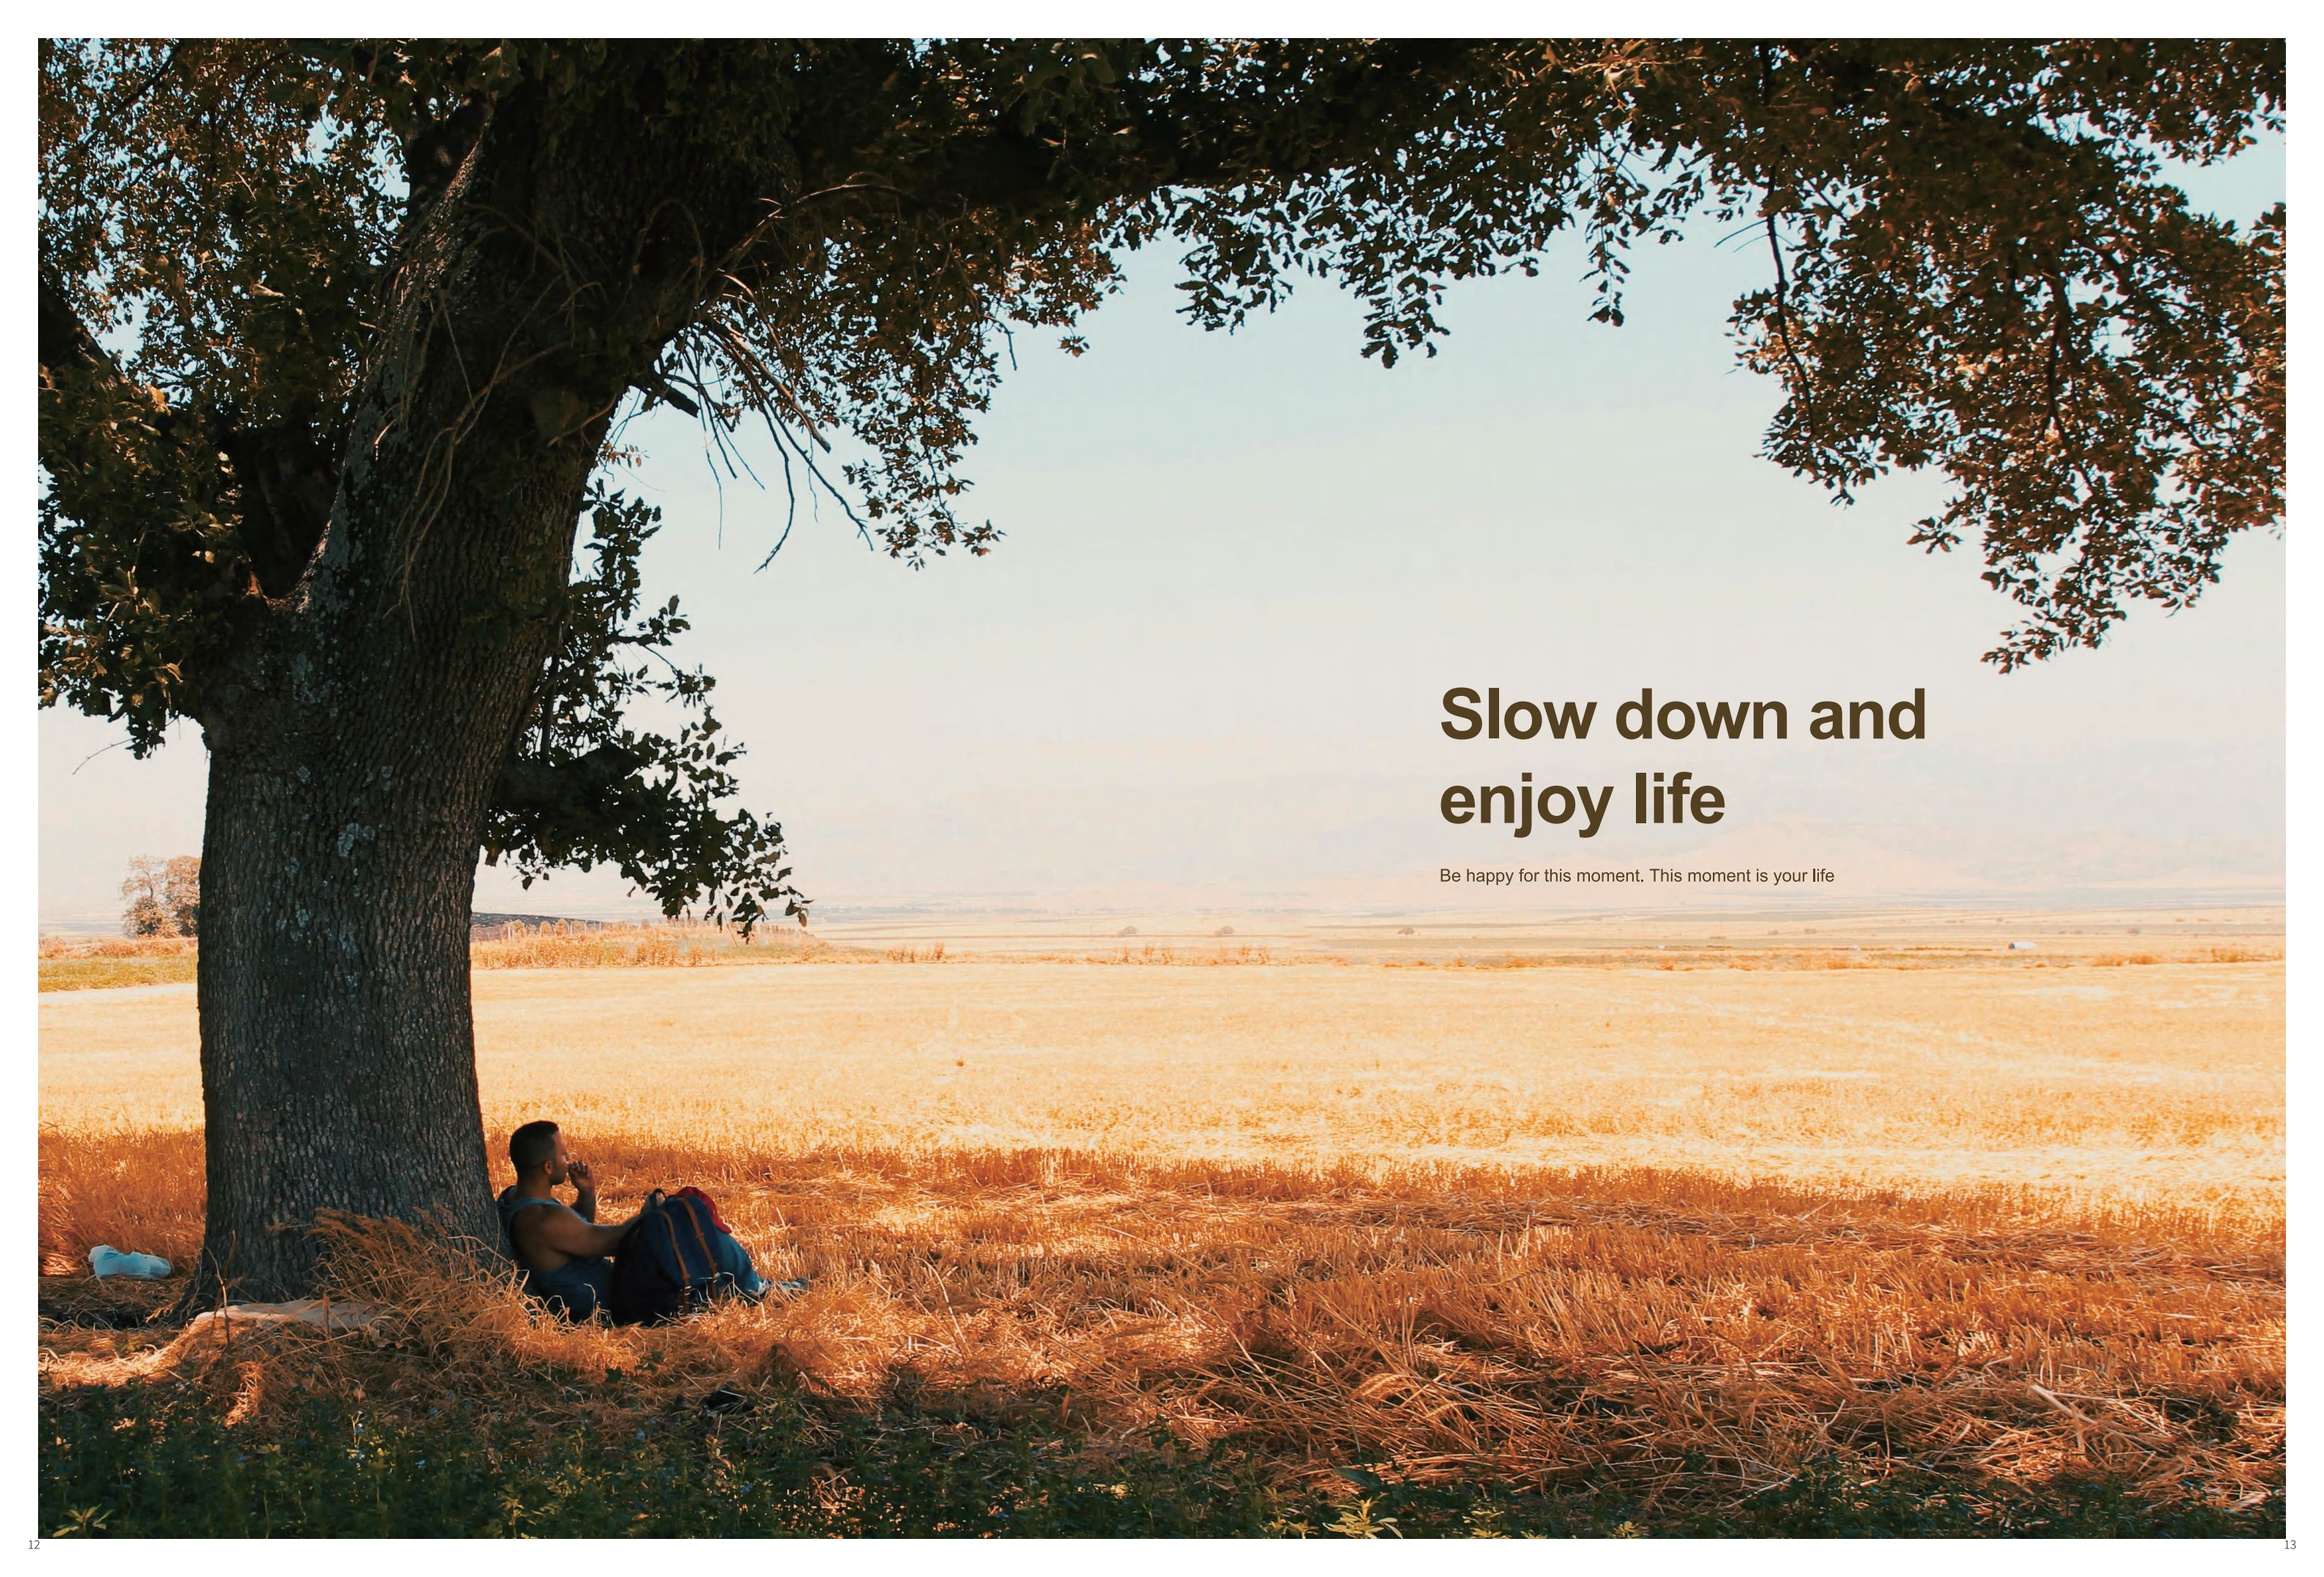

**Life is beautiful,  
enjoy it.**

Stable quality beyond statutory requirements Continuous certifications from independent institutions

A man is sitting on the ground under a large, leafy tree in a field of tall, golden-brown grass. He is wearing a blue tank top and dark pants, and is looking towards the right. A blue backpack is next to him. The background shows a vast, flat landscape under a clear sky. The text "Slow down and enjoy life" is overlaid on the right side of the image.

# Slow down and enjoy life

Be happy for this moment. This moment is your life

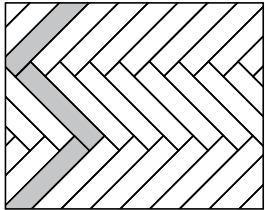

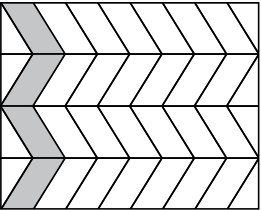

# Create Your Flooring Puzzle

We offer floors and planks in a variety of patterns: Traditional, Herringbone, Chevron, Mixed-length, Mixed-width, Multi-length & width.

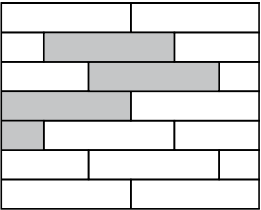

Traditional features single-width and variable-length boards. Herringbone and Chevron come with tongue-and-groove sides and double-grooved ends, equipped with custom splines for easy installation.

# DONGDA Wood Flooring

## Material and Structure

Our flooring uses high-quality 0.6–6 mm veneers from European Oak, Russian Oak, Black Walnut, Burma Teak, and other premium species. Surfaces are processed with brushing, antique, embossed, natural saw mark, artificial saw mark, fumed, and chemical reaction finishes. The base is made of eucalyptus or Russian birch plywood.

### 4-Side Bevel

Precision 4-side bevel processing ensures perfect styling.

### Joint System

Drop lock click system or traditional tongue & groove, precision-milled by German Homag machines.

### Surface Treatment

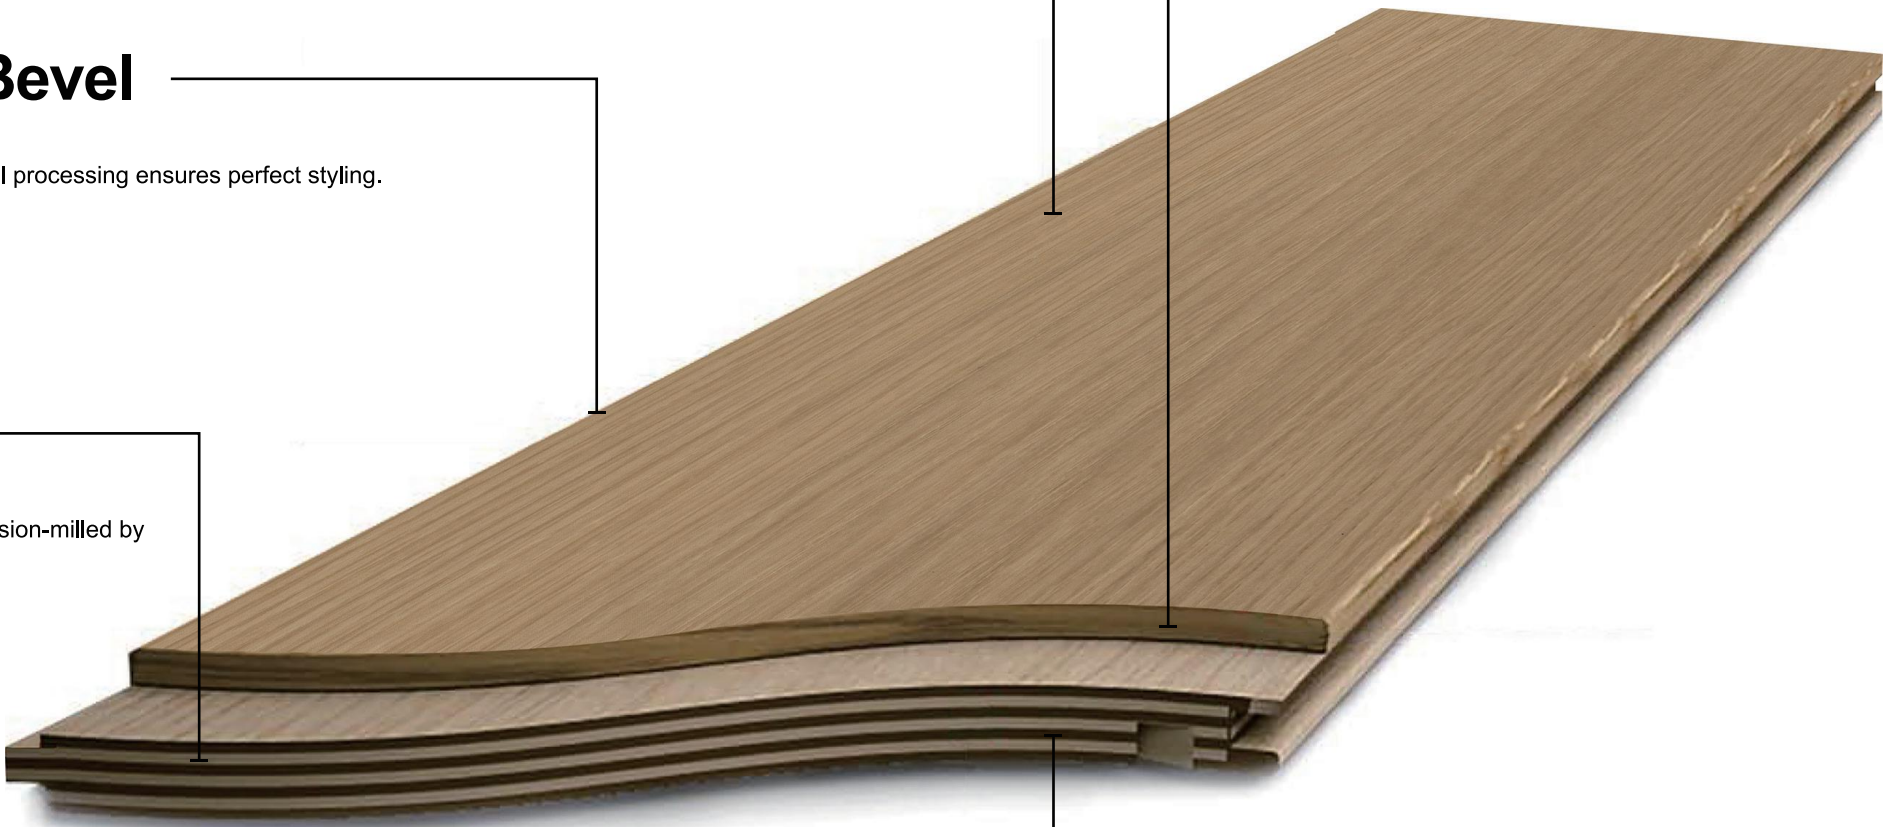

UV lacquer / UV oiled / Hardwax oil / invisible Oil by brand: GermanyTreffert/ Loba / BONA/ OSMO and so on. Brush / Hand scrape / Carbonized /Antique / Embossed, Natural saw mark /Artificial saw mark / Fumed (Smoke),Chemical Reaction, treaments to meet different customer's requirement.

### Wood Veneer

Oak, Black Walnut, Acacia, Merbau, Ash.Three cutting methods create diverse grain effects.

### Base Board

CARB2 phenolic glue, formaldehyde-free eucalyptus plywood (5–18 mm).Imported Russian birch plywood with zero gaps, zero overlap, and uniform thickness.

# Wood Veneer Grading

Veneers are professionally graded by defects, moisture, thickness, warping, color, and texture, and can be customized to client requirements.

| Species      | Cutting Method                                  | Actual Size          | Grade                         |
