COMPANY PROFILE

We specialize in the innovative design and customized production of PET and PP thermoformed packaging containers. Our product portfolio includes a wide range of eco-friendly, recyclable, and reusable packaging solutions, such as fruit and vegetable packs, bakery packaging, frozen food trays, and dry fruit containers.

Our manufacturing base is located in Weifang, China, adjacent to Qingdao Port, the country's second-largest foreign trade port. Covering more than 62,000 m², the facility is equipped with 20 fully automatic thermoforming machines and 20 standard thermoforming machines, including 4 advanced Kiefel machines imported from Germany.

In addition, we operate 4 PET sheet extrusion lines, 2 PP sheet extrusion lines, and maintain an in-house mold workshop, which not only reduces the cost of outsourced raw materials but also ensures coordinated production and faster delivery.

Our company has been certified with CE, BRC, and ISO 9001:2015 quality management systems. Our products are exported to North America, Europe, Australia, Southeast Asia, and other regions, earning widespread recognition and trust from customers worldwide.

With the experience of developing thousands of molds, we continue to invest heavily in R&D, supported by a professional team of dozens of engineers and designers. We lead the industry in new product design, mold development, innovation, and delivery efficiency.
