UMIDIGI MARKS PRESENCE AT MWC 2025 WITH HIGH-QUALITY TECH

At the event, UMIDIGI's booth was bustling with activity as numerous visitors gathered at the display area to experience the newly launched smartphones and feel the impact of innovative technology. The professional team members enthusiastically and meticulously introduced the product features, answered questions, and provided in-depth interactive experiences. Meanwhile, partners and industry experts gathered to exchange insights on the latest technology trends, market dynamics, and future collaborations.

UMIDIGI Active T1 Android tablet with a mammoth 15,000mAh battery and three charging options unveiled

The UMIDIGI Active T1 Android tablet will be available for order this summer. The new UMIDIGI rugged Android tablet comes with a 15,000mAh battery and offers three charging options: it supports wireless, POGO, and USB-C charging, with 8GB+128GB memory/storage configuration.

Waterproof, Dustproof and Shockproof IP68, IP69K & MIL-STD-810G Certified

The Active T1 has an 11-inch display with 2000 x 1200 pixels resolution. It will join the already existing lineup of UMIDIGI tablets namely the G3 Tab, A11 Tab, and A13 Tab. The Active T1 is the most rugged tablet of the lot. It comes with the MIP-STD-810G, IP68, and IP69K-reliability and durability standards. The Active T1 will come with a stylus and will support operating the display with a cove on your hand. It also features a keyboard mode for doing more engaging tasks on the go.
