R&D CAPABILITY 研发实力

Continuous product vitality comes from continuous growth of R&D investment. Every year, Risun Technology allocate a fixed budget to the R&D center every year as special research funds for new technologies and functions. More than 100 R&D engineers, most of them have 10 years experience in oral health products developing and engineering.

源源不断的产品活力来源于持续的研发投入。每年划拨固定预算作为研发中心在新技术、新功能等方面的专项研究经费。百余名专业工程师，多数拥有超过10年口腔健康产品研发经验。

Risun Technology has 800+ patents on core technology of electric toothbrush and water flosser around the world, including motor and gear drives design, electronic design, water filter technology and etc. Through continuous exploration and research, the number of patents keeps growing at a rate of about 10 percent each year.

瑞圣特在电动牙刷电机、传动装置、电子设计、冲牙器过滤技术等核心科技方面，拥有800多项国内外专利。通过不断探索和研究，专利数以每年百分之十左右的速度持续增长。
