About Us

COMPANY PROFILE

Ehoo Plumbing Co., Ltd. is an enterprise established in 2002, located in the plumbing industry park in Quanzhou, which is near Xiamen International Airport, focusing on the research and development, production, and sales of brass faucets, valves, and bathroom accessories,etc. We have a professional R&D team and QC team,equipped with metal spectrometer, valve life testing machine, water flow testing machine, salt spray testing machine, product sealing testing machine and other advanced experimental equipment, and has multiple CNC multi-axis compound machines, CNC processing machine tools and other production equipment to ensure that our products always maintain the highest quality and stability. The product line we manufacture cover Singapore/Australia DZR brass, 59-1 national standard brass, lead-free brass, and other faucets, as well as brass valves, bathroom accessories and other types to meet the needs of different markets in different countries.

e-hoo, covers an area of more than 6,000 square meters, the monthly manufature quantites exceeds 150,000 sets,has passed SGS ISO9001: 2015 quality management system, ISO45001: 2018 occupational health and safety management system, ISO14001: 2015 environmental management system, ISO14067: 2018 product carbon footprint certification enterprise system, TUV (CE)certification, EN817: 2008 and EN200:2008 test report, prove that e-hoo have been committed to improving our production process, supervising product quality, and improving our environmental awareness, so that customers can rest assured to buy our products. Continuously improving our production process and technological innovation, our product quality and sales are constantly improving.

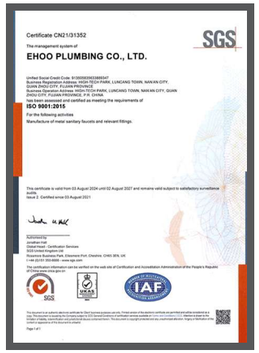

e-hoo are now selling well in Singapore, Malaysia, UK, Italy and other countries and regions. Our service team always adheres to the principle of customer first and quality first and is determined to continuously improve our core competitiveness to better meet customer*s needs. Welcome OEM and ODM.

TESTING EQUIPMENT

In order to provide high-quality products,
The company is equipped with advanced testing equipment and perfect testing means.
A strict quality control team has been established,
and the whole process control system from raw material detection to production process,
product quality and application has been realized.
