

EKINGTEX

Our resolution to make the best elastic fabric

ZHANGJIAGANG E-KING TEXTILE CO.,LTD

ZHANGJIAGANG H&J TEXTILE TECHNOLOGY CO,LTD

Company profile

Zhangjiagang E-king Textile Co., Ltd. is located in Zhangjiagang, which is a flourishing city at Yangtze Delta, only 100km away from Shanghai, transportation is very convenient, around 1.5h hour by car.

E-KING was established in 2011 and has developed into a large-scale enterprise that integrates research and development, production, and sales. The company has an annual output of 24 million yards fabric , and new developed product over 100 every season.

E-KING always focus on the research and development of new knitted elastic fabrics, with well cooperation of Hengli Group, Shenghong Group, Invista, Creora Group, Huafeng Group, POLYGIENE and other well-known brands. It's own dying factory put into production in March 2022 and help to improve the whole production chain. The main products include yoga fabrics, sports functional fabrics, underwear fabrics, and swimwear fabrics. The finishing process include peaching, brushing, fuzzing, transfer printing, dispersed printing, acid printing, digital printing, foil, emboss, and other various chemical function , such as antibacterial and odor , moisture wicking and quick drying, UV protection, anti-static, waterproof, stain and oil prevention, thermal storage and warmth preservation, and cooling treatment etc.

The company adheres to the concept of "Honest, Pragmatic, Pioneering, and innovative", and has won the trust of domestic and foreign customers with high-quality service and consistency quality.

Our future plan

Since the establishment of our company , we always develop the new fabric with the concept of new, detail and deep. Based on current fabric, we will develop more extended quality with the improve of the fabric structure and function, which help us to gain a place in the field of sports fabrics. With the continuous changes of current market, our company will take into account the concept of green and environmental protection in future fabric development, including the concept of recycle and bio-based . We will closely interact and cooperate with well-known domestic yarn supplier to accelerate the develop of the fabric . Currently, bio based nylon and bio based spandex products are under development and manufacturing.
