TIGER KING SAFE PRODUCT BROCHURE

COMPANY PROFILE

NINGBO TIGERKING SAFE CO., LTD established in 2000 year, is a professional engaged in the research, development, sale and service of domestic safes, export safes. Our factory located in Daxie Development zone, adjacent to Ningbo port, next to Shanghai port with convenient transportation access.

We welcome OEM and ODM orders. The factory covers over 38000 square meters, Owing to 200 workers and 23 years experience for safes. Equipped with laser cutting machines, automatic bending robots, automatic powder coating line, automatic assembly lines and other advanced devices. Tiger King builds a set system of development manufacturing and quality control, with efficient management, prompt delivery, reliable quality and fully service.

With the certificate of ISO9001, Tiger King pays much attention to our product process management. By means of 6S and lean production management, Tiger King safes enjoy perfect cost and good reputation which are exported to North America, Europe, Middle East, Southeast Asia, South America and other global markets. As we understand what uniqueness means to safes, customization is one of our key focuses of service. We provide safes to our customers helping to give them a competitive advantage in the marketplace and provide an unmatched customer experience. Adhering to the tenet of "Service first, quality foremost", welcome friends from all over the world to consult us, visit us and develop cooperation together.
