COMPANY PROFILE

公司简介

linhua®
www.nblinhua.com

Since its founding in 2004, Ningbo Linhua Plastic Co., Ltd has emerged as a pioneering force in the food packaging industry, collaborating with some of the world's most recognized brands. Our commitment to innovation and excellence has earned us a reputation as an internationally acknowledged manufacturer of high-quality food trays.

We specialize in advanced extruding and forming processes for a variety of materials, including PP, recycled polypropylene (rPP), PET, recycled PET (rPET) trays, and also CPET. We take pride in integrating recycled content into our products to align with the growing global demand for sustainability and eco-friendliness. Our innovative trays can also feature a EVOH barrier layer, which enhances their performance by providing superior protection against moisture and oxygen, thereby ensuring maximum food freshness and quality.

Our cutting-edge manufacturing facility is designed to produce and supply an extensive range of tray options, tailored to meet various packaging need, including MAP (modified atmosphere packaging), (TE) turned edge trays, MRT (moisture retention) and versatile VSP (vacuum skin packaging) trays. Surely various other normal food packaging like hinged containers are included.

At Ningbo Linhua Plastic, we are dedicated to driving the future of packaging solutions through continual innovation and rigorous adherence to industry standards. Our mission is to lead the charge in enhancing packaging excellence while promoting environmental sustainability, ensuring that we contribute positively to both our clients' needs and the planet.

Join us in transforming the food packaging landscape into a more sustainable and efficient future. If you have any good idea or conception, welcome to reach out to us for communicating and mutual developing.

自2004年成立以来, 宁波霖华塑胶公司已成为食品包装行业的先锋力量, 与全球众多知名品牌展开合作。我们对创新和卓越的不懈追求使我们赢得了国际公认的高品质食品托盘制造商的声誉。

我们专注于多种材料的先进挤出和成型工艺, 包括 PP、rPP、PET和 rPET, 以及CPET。我们将再生材料融入产品为荣, 以顺应全球对可持续性和环保日益增长的需求。我们的创新托盘还可以配备 EVOH 阻隔层, 通过提供卓越的防潮和隔氧性能, 确保食品在运输和储存期间保持最佳的新鲜度和品质。

我们先进的制造工厂旨在生产和提供种类繁多的托盘选项, 以满足各种包装需求, 包括气调包装盘、卷边托盘、锁水盘以及多功能真空贴体包装托盘。当然还包括其他常规食品包装盒, 连体翻盖盒等等。

在宁波霖华, 我们致力于通过持续创新和严格遵守行业标准来引领包装解决方案的未来。我们的使命是引领包装卓越提升的同时, 推动环境可持续发展, 确保我们既能积极满足客户的需求, 又能为地球做出贡献。

加入我们, 共同将食品包装领域转变为一个更可持续、更高效的未来。如果您有任何好的想法或构想, 欢迎与我们联系, 交流, 共同发展。

MAP TRAY Series

气调阻隔盘系列

MAP (Modified Atmosphere Packaging) refers to the technology that is to extend the shelf life of food by adjusting the composition of the gas in the package (usually a mixture of oxygen, carbon dioxide and nitrogen etc.).

Our MAP trays are made from a high barrier, polypropylene material. Trays are constructed in such a way as to prohibit the flow of oxygen and carbon dioxide in the process of gas flushing and tray sealing with lidding film. With the addition of barrier lidding film, this makes the combined package a self-contained BARRIER unit and extend the shelflife of the food inside.

The food packed in such tray can keep fresh around 10 days in cold chain condition, quite ideal for meat, seafood, vegetable package.

气调包装是一种通过调节包装盒内气体成分(通常为氧气,二氧化碳以及氮气等混合气体)来延长食品保鲜期的技术。我们的气调阻隔盘是由高阻隔多层复合塑料材料制成,如此材料结构的目的是为了阻挡氧气和二氧化碳的流通,覆上带阻隔功能的盖膜,使得整个包装成为一个独立的屏障单元,从而延长食物的保鲜期。

Turned Edge Trays Series

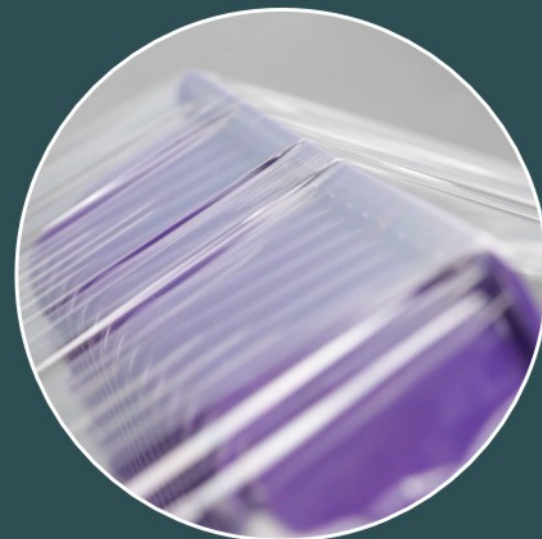

卷边盘系列

The sustainable replacement to PS foam trays that are being phased out worldwide.

Our turned edge trays are made of a rigid plastic PET or rPET (recycled PET) and is a curb-side recyclable material. The benefit of these trays are their rolled edge design with the purpose of making the edge of the flange tear resistant for overwrap/stretch wrap film and can be used on existing overwrap equipment, so no additional machinery is required.

正在全球范围内逐步被淘汰的PS泡沫托盘的可持续替代品！
我们的卷边托盘是由刚性塑料PET或rPET制成的。
其独特的卷边设计可以极大地降低包装膜被割破的损耗。

Moisture Retention Trays Series

锁水盘系列

The Moisture Retention Tray is also made of PET or rPET (recycled PET) as a curb-side recyclable packaging option and direct replacement to PS Foam trays, these trays are similar in properties to the turned edge trays above but are suitable for meat, poultry or seafood as the base has cells for moisture retention to retain moisture and present your product in the best possible way.

我们的锁水盘也是由刚性塑料PET或rPET制成的,是普通卷边盘的升级款。

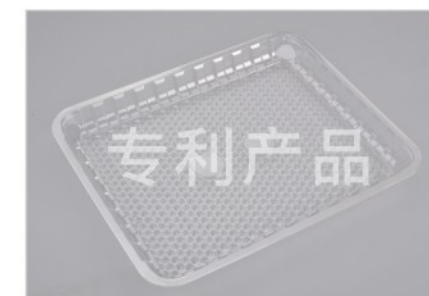

盘底的锁水孔设计与卷边技术相结合,使锁水盘完美替代发泡盘,且取代吸水垫的意义,使得盒内生鲜食品呈现最佳效果。

VSP Tray Series

贴体包装盘系列

Our Vacuum skin packaging (VSP) trays are made from a high barrier material that can help extend shelf life and maintain flavor. In conjunction with a skin lidding film where the film follows the contours of the product via vacuuming to create a 3D presentation, commonly used for smoked salmon or trout. The finished package has removed oxygen to seal in freshness within a leak-proof package.

真空贴体包装 (VSP) 托盘采用高阻隔材料制成, 有助于延长保鲜期并保持风味。

与贴体盖薄膜配合使用, 通过抽真空使薄膜贴合产品轮廓, 形成 3D 立体展示效果, 常用于熏三文鱼或鳟鱼等包装。

CPET Trays Series

CPET 盘系列

CPET (crystallized polyethylene terephthalate) is the material of choice for ready meals due to its superior functional properties.

These trays are microwave and oven safe up to 428°F / 220°C and are an ideal substitute for aluminum foil trays. Commonly used in airline, meal delivery, supermarket and bakery applications.

CPET材料耐高温可达220°C, 适用于微波炉和烤箱, 是铝箔托盘的理想替代品。

广泛适用于航空、超市、烘焙店等。
