Resistive & Capacitive Touch Screens

Professional Manufacturer

Professional manufacturer of resistive and capacitive screens

Guangzhou XiangRui Optoelectronics Technology Co., Ltd.

COMPANY PROFILE

Established	Total Investment	Factory Area	Class Cleanroom
December 2010	800 Million RMB	3,000 m²	300K per Month

Established: December 2010

Total Investment: RMB 8 Million

Factory Address: Room 402, Bldg A2, Xinsheng Industrial Park, 646 Xining West Road, Xintang Town, Guangzhou

Staff: 70 (senior management, design & process engineers)

Factory Area: 3,000 m²

Core Business: R&D, production and sales of capacitive & resistive touch screens, providing high-performance HMI solutions for global customers

Certifications: ISO9001 Quality Management System

Achievements: Multiple technology patents, invention patents, High-tech Enterprise

Corporate Culture

CORPORATE CULTURE

Corporate Mission	People-oriented, honest & pragmatic, innovative & enterprising, united with sincerity.
Business Philosophy	Reputation first, customer first, quality satisfaction, on-time delivery, honest cooperation, mutual growth.
Service Tenet	Warmly welcome new & old customers, precisely understand needs, strict quality control, ensure on-time delivery, timely quality tracking, prompt handling of issues.
Quality Policy	Full participation, quality, efficiency, eco-friendly, continuous improvement, customer satisfaction.

CERTIFICATE OF HONOR

PRODUCT INTRODUCTION

PMMA/PET/
Glass Cover Lens
Printing/Coating

G+G / P+G / G+F / G+FF
silver paste sensor
IIC/USB Interface
≤32 inch

Multi-touch, high sensitivity, strong anti-interference, ideal for tablets, industrial equipment, medical instruments, smart home and other high-end applications

Resistive

High durability and low cost, widely used in medical equipment, industrial control systems, POS terminals and other harsh environments

F+G / P+F+G / P+FF+G / G+F+G structure
4-wire / 5-wire interface
≤21 inch

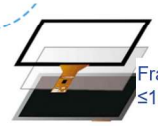

Main Products

Capacitive

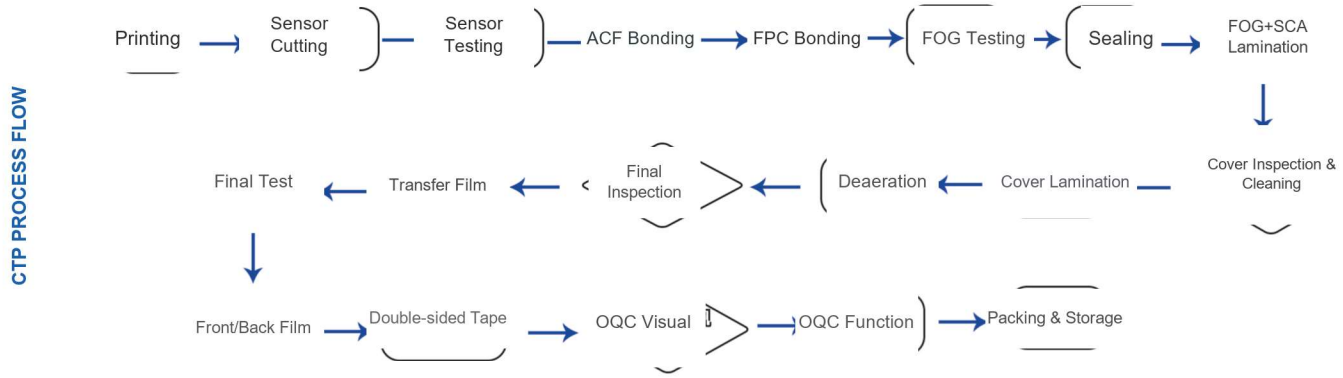

AG/AR/AF coating
Outdoor anti-UV
Mirror half-transparent
Full black
Thick cover / Waterproof

Full Lamination

Reduced reflection, sealed dust-proof & moisture-proof, up to IP65+, improved weather resistance

Frame bonding / Full lamination
≤18 inch

Capacitive Touch Screen Products:

6.0T steel cover + anti-UV + insulation film

Magic mirror half-transparent

Full black touch screen

Cover 3A treatment (AR, AG, AF)

Waterproof touch

Hot-bent cover lens

Resistive Touch Screen Products:

4-wire resistive

5-wire resistive

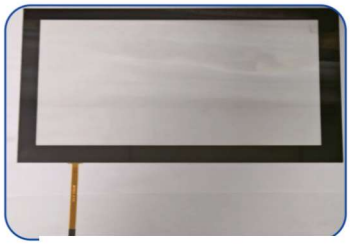

5-wire resistive

4-layer P+FF+G structure

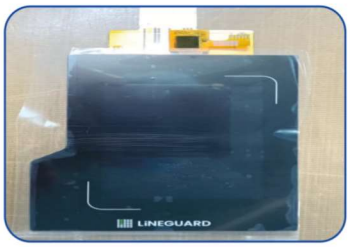

3-layer P+F+G structure

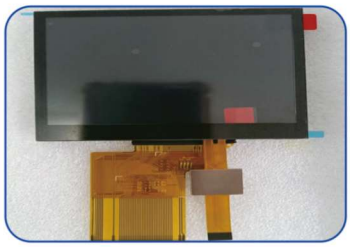

3-layer G+F+G structure

Full Lamination Products:

2.8" OCA full lamination

4.3" OCA full lamination

7" water-adhesive lamination

13.3" OCA full lamination

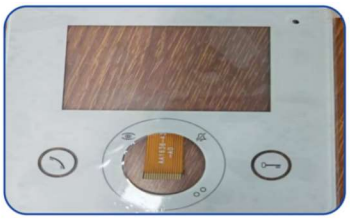

15.4" OCA full lamination

Other Products:

Membrane switch

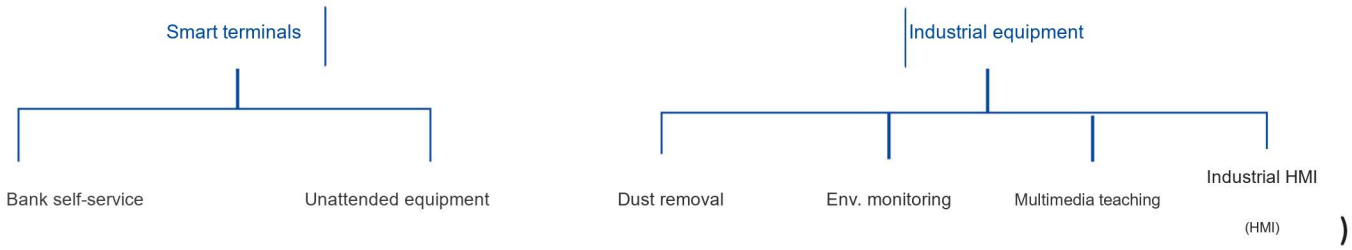

ITO touch key

Heating film

Application Fields:

Industrial control, smart home, medical devices, military, financial equipment, commercial displays, home appliances, etc.

FACTORY DISPLAY

Class 1000, Class 100 FFU

Class 1000, Class 100 FFU

Class 1000 Cleanroom

Class 1000 Cleanroom

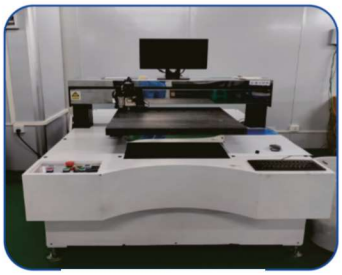

Class 10000

Class 10000

Class 10000

Class 10000

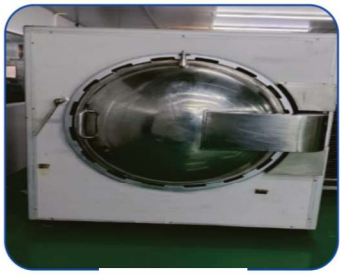

Laser etching

Glass cutting

Dual-station press

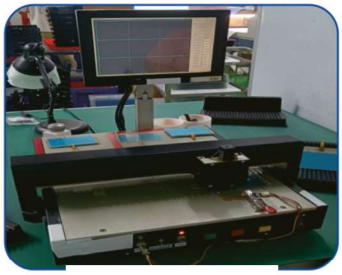

Panel film laminator

Full lamination equip.

Deaeration machine

Laser marking

Linear test

SCA hot press

Roll auto laminator

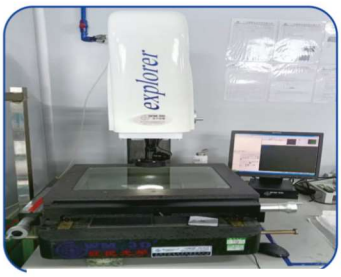

Roll adhesive laminator

Low-temp separator

Optical transmittance

Dimension measure (2D)

Ball-drop impact

Env. test chamber

Glass stress tester

Pencil hardness

Contact angle

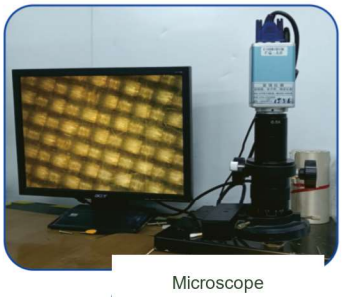

环境测试箱

Tensile tester

Multi-channel temp.

Microscope

Click & scratch

Looking forward to cooperation and win-win development!
