Solving Your Storage Problems with Tailored Systems

At Topmodul, we believe storage shouldn't be a challenge. With nearly 30 years of experience in plastics and over a decade of refining modular shelving systems, we're committed to helping businesses create organised, efficient, and clutter-free spaces.

Our modular storage systems are designed to fit your space - not the other way around. Whether you're working with a large facility or a compact room, our systems are easy to install, simple to maintain, and built to adapt as your needs evolve.

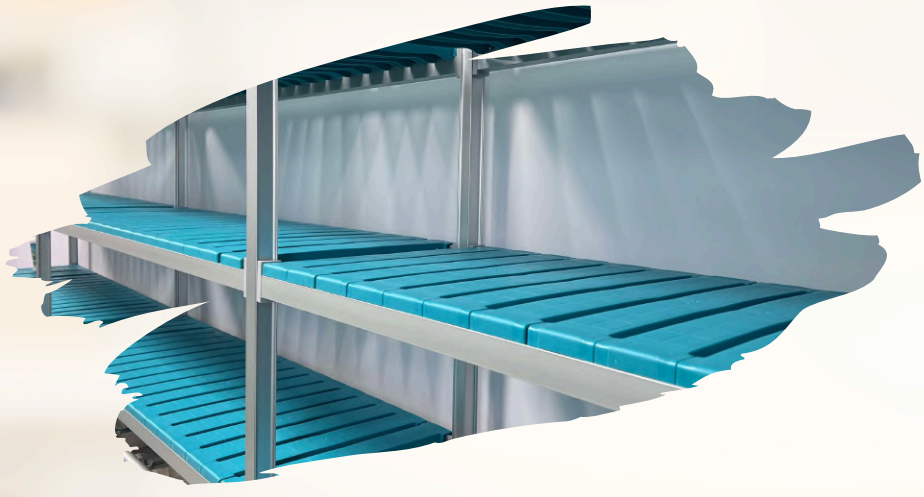

Manufactured in our factory in China, our solutions are already in use across Singapore, China, Taiwan, Malaysia, and Australia. With a flexible modular design that allows for customisation and scalability, and durable materials that stand up to everyday use, our systems are built for reliability and performance.

At the end of the day, we're not just making shelves—we're helping businesses run more smoothly, efficiently, and with less clutter. Let us help you give your tools, supplies, or stock the home they deserve.

Topmodul — Smarter storage starts here.

ONE SERIES

High-Performance Aluminium Shelving – Lightweight, Corrosion-Resistant, Built to Last

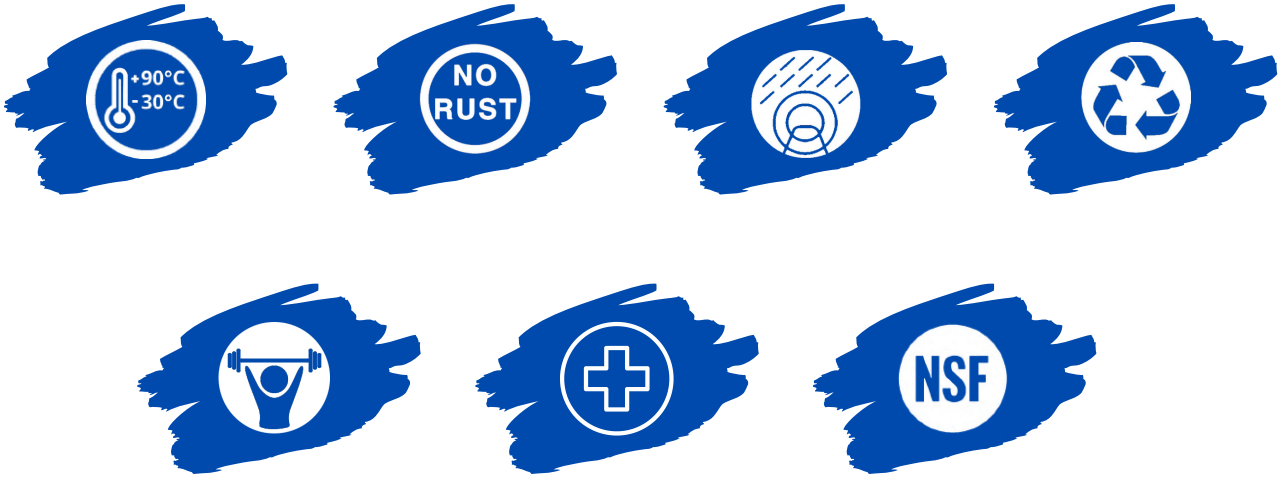

10 µm ANODISED ALUMINIUM EQUIPMENT FRAMES

- Rust resistance, free from corrosion
- Lightweight, high bearing
- Easy to assemble, no special tools required
- Adjustable components
- Adjustable supports
- Ideal for sterile, dry, cold, or hot environments
- Clip-on Connectors

POLYETHYLENE SURFACES

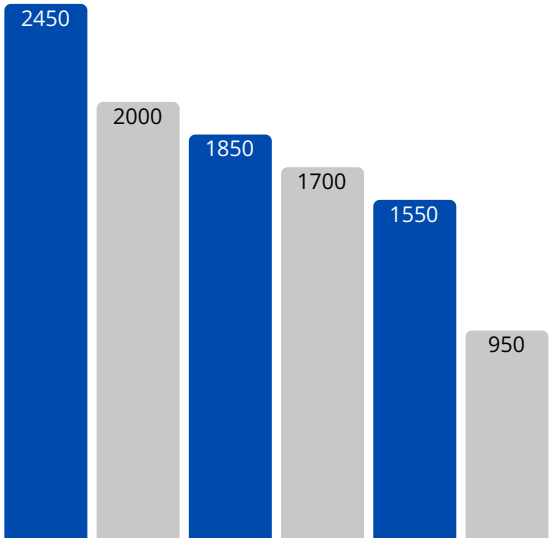

- Easy to sanitise, compatible with autoclave
- Medical-grade safe

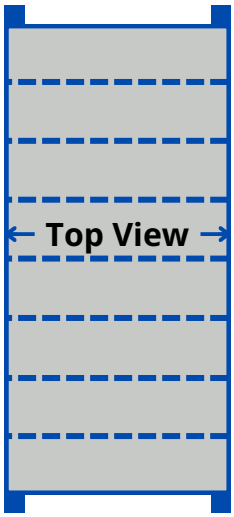

Creates a **customisable** storage solution tailored to your space and needs

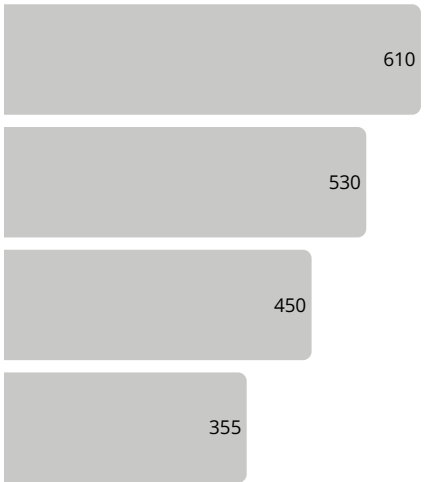

Available in 6 Heights (mm)

Available in 4 Widths (mm)

ONE SERIES

An **adaptable** storage solution that's both customisable and space saving

ESSENTIAL SERIES

Steel-Core Posts & Polypropylene Shelves: Built for Strength, Durability, and Performance

Steel-Core Durability
Posts and traverses feature a steel core with a smooth polypropylene exterior for lasting strength.

Adjustable Shelving
Traverse dovetails molded every 10 cm for easy, secure shelf placement.

Antimicrobial Shelf Plates
Polypropylene shelves with built-in technology to prevent mold, fungus, and bacteria growth.

Easy Leveling
Reinforced nylon feet for simple adjustment on uneven surfaces.

Wide Temperature Range
Withstands temperatures from -38°C to 88°C.

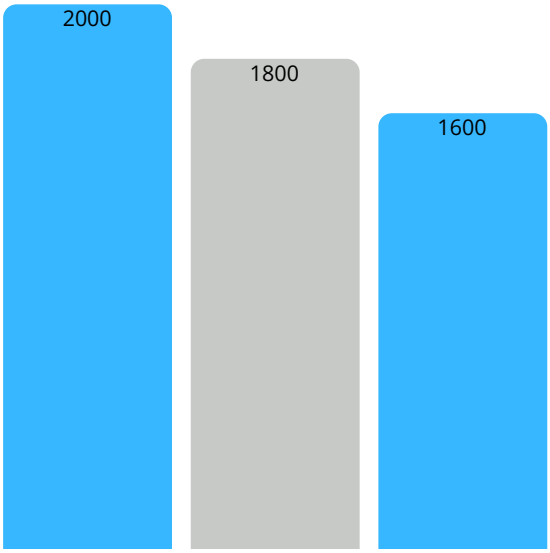

Lifetime Warranty
Guaranteed against rust and corrosion for life.
