JINGZUN, since 2007, was dedicated to solid surface bathtubs and basins manufacturing, which mainly exported to Europe and North America markets. We built up high reputation by stable outstanding quality and good service with CE and ICC-ES certificated.

"The bathroom as a dynamic and stylish living space,transforming itself continuously along with your home"

material

The quality of design, the selection of the best materials, attention to details, process knowledge, and continuous pursuit of coordination between form and function.

PMMA solid surface bathtubs are the latest bathtubs that show up by discarding the shortcomings of acrylic bathtubs, ceramic bathtubs and cast iron bathtubs because of their various advantages.

The application of transparent resin materials in bathrooms has pioneered innovative technology, while also providing users with more fun in life. Transparent resin bathtubs are sturdy, durable, and easy to clean and manage.

colour

In addition to diverse materials, we also offer many color options. There are up to 18 colors to choose from for Solid surface products, and 10 colors for Transparent resin products. More choices are needed to better suit oneself.

Bathroom furniture

For us, design is not just a matter of appearance,
And at the same time, it is necessary to consider
the combination of first-class craftsmanship and
the best materials,
A simple yet perfect storage function can be
considered a good product.

Starlight countertop

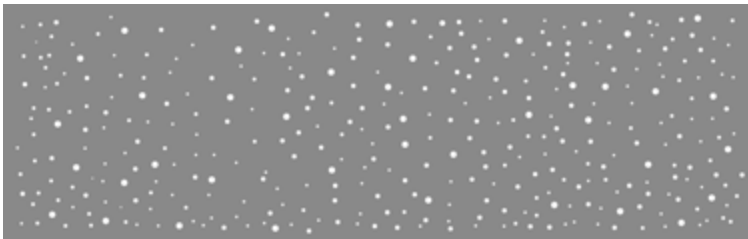

Resin transparent design,
Bringing a visual sense of starlight,
It is an innovation,
It's also a kind of romance.

Regular white countertop

Romance that belongs only to you
