## Quality You Can Rely On

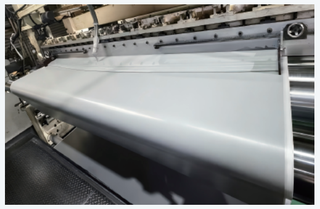

- In-house Testing: Strength, Abrasion, Flame, UV Resistance
- Performance verified under strict standards
- Stable quality across production batches
- Bulit for long-term, reliable supply

## Advanced Production

Stable quality for large-scale production

Yuli New Material
宇立新材料

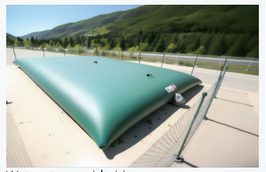

- Fully equipped Calendar, Laminating, Printing, and Knife coating lines
- Controlled environment for stable batches
- Scalable output for large orders
- Tailored processes for high-performance PVC & Fiberglass products

## Versatile Applications Across Demanding Environments

High-performance fabrics engineered for durability, safety and long-term use across demanding applications. Consistent quality, flexible supply and reliable global delivery.

Water storage bladder

Oil Containment Boom

Inflatable boat

Above-ground pool & pool cover

Dry bag and luggage

Inflatable amusement parks and designs

## Versatile Applications Across Industries

Yuli New Material
宇立新材料

From outdoor structures to industrial protection, YULI fabrics are designed to adapt to diverse environments and performance requirements.

Tensile membrane structure

Rapid roller door

Industrial duct

Side curtain

Structure tent

Construction safety mesh

**RELIABLE MATERIALS**
**FOR DEMANDING APPLICATIONS.**
Let's build long-term cooperation.

Zhejiang Yuli New Material Co., Ltd.

No.28 Hongqi Rd, Warp Knitting Industrial Zone,
Haining, Zhejiang Province, China.
