About Us

Sollant is one of leaders in providing compressed air & intelligent energy efficiency solutions.

We help our partners worldwide in improving operation reliability and enhancing energy efficiency through top-quality products with outstanding services, thanks to our extensive industrial experience and professionalism in R&D, production, sales, and services.

Milestone

2004
Establish in Linyi, Shandong, start to develop necessary technologies and set up production lines for screw air compressor

2008
Start export business that marks the commencement of Sollant international penetration plan till today with coverage over 150 countries

2012
Build first-class R&D laboratory and 3 lean production lines for tech innovation and efficiency improvement

2016
Localize in strategic oversea markets by opening Rep Offices in Russia, Mexico and the Philippines

2019
Set up Commercial Office in Shanghai to facilitate business expansion home and broad

2020
The launch of “SLTT” 2-stage series pioneered technological breakthrough in energy-saving and environmental protection

2022
In constant enhancement of productivity and upgrading technology & equipment to secure leadership in compressed air solutions

2025
Oversea sales revenue exceeding 550 Million With 3 Commercial Offices opened in Beijing, Hangzhou and Jinan

2026
The refurbishment and upscale of Linyi Head Office & Manufacturing Center to embrace the era of “Sollant 2.0”

Engineering Systems And Solutions

Sometimes there are space, environmental, or time constraints that require a different installation approach. Sollant' s Custom Engineered Solutions offer a cost-effective alternative. We design a reliable and energy-efficient air station, but instead of simply shipping the equipment for installation, we take it a step further to deliver the entire system in a turnkey package that needs little to no onsite assembly.

Sollant custom air systems are compressed air, low-pressure blower and vacuum systems built to specification for the most demanding and challenging installations. Whether in enclosures or on tailor-made skids, these complete systems are designed for exceptional reliability, simple maintenance, and superior energy efficiency no matter what the installation limitations may be. Superior transportability makes them ideal for rental and temporary installations.

Sollant custom air systems are yet one more way we demonstrate our innovative spirit and deliver lasting value to our customers.

Quality Assurance

Sollant strictly abides by the international ISO9001 quality management system standards, ensuring that quality standards are met each step of the way from R&D to delivery.

Measure air compressor specific power

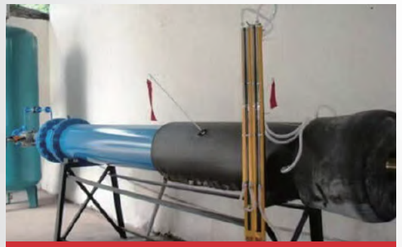

Measure air end rotor profile

Air compressor vibration test

Air dryer pressure dew point

Motor type test

Measure air compressor exhaust flow

Vacuum inspective meter

Exhaust pressure test

Fan dynamic balance test

Noise test

Balance test

Temperature operating test

Shock absorber tensile

Oil content in air detection

Coating/Plate Thickness

Quality Assurance

International Certification

“The Solution Provider” to your specific requirements

In addition to our standard portfolio, Sollant is proud to be able to give customized solutions based on customer’ s specific request

315kw Screw Air Compressor, Textile Industry, Russia

90KW Low Pressure Air Compressor, Chemical Industry, United States

Reciprocating Natural Gas Compressor, Oil & Gas, Kazakhstan

Screw Air Compressor, Glass Industry, Mexico

VSD Screw Air Compressor, Rubber Industry, Thailand

22kW Screw Air Compressor, Laser Cutting Industry, Germany

Diesel Air Compressor, Sandblasting Industry, Canada

160KW Air Compressor, Mining Industry, Zimbabwe

High Pressure Air Compressor, Plastic Industry, Mexico

Diesel Air Compressor, Sandblasting Industry, Canada

11kW Screw Air Compressor, Food Manufacturing, Italy

Scenarios of the partnership

Branding

Apart from trading, Sollant has been adopting a branding-centric strategy to thrive in international markets.

We have different brand options with respective price/value positioning to accommodate wide spectrum of demand.

JV, M&A

Our localized expansion plan involves the consideration of JV and M&A in strategic markets; any proposals are welcomed on this regard.
